

# Alabama

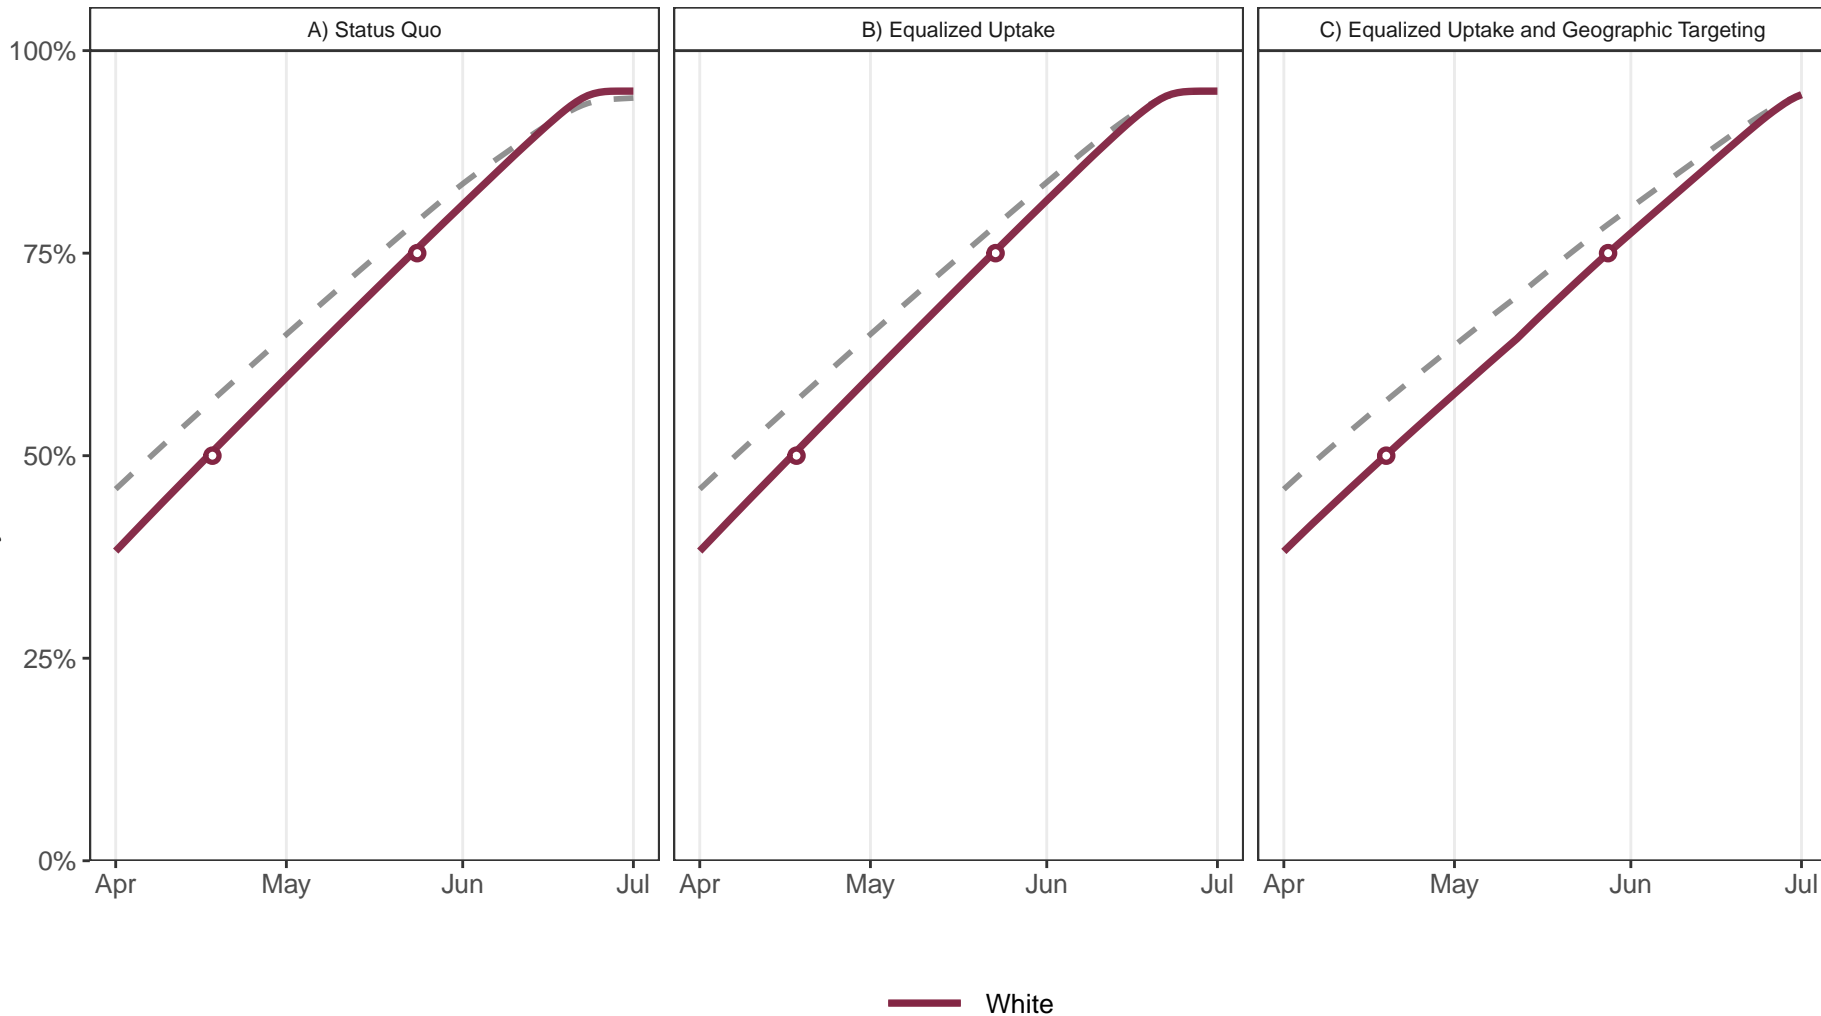

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Alabama population aged 16 years and older

# Alaska

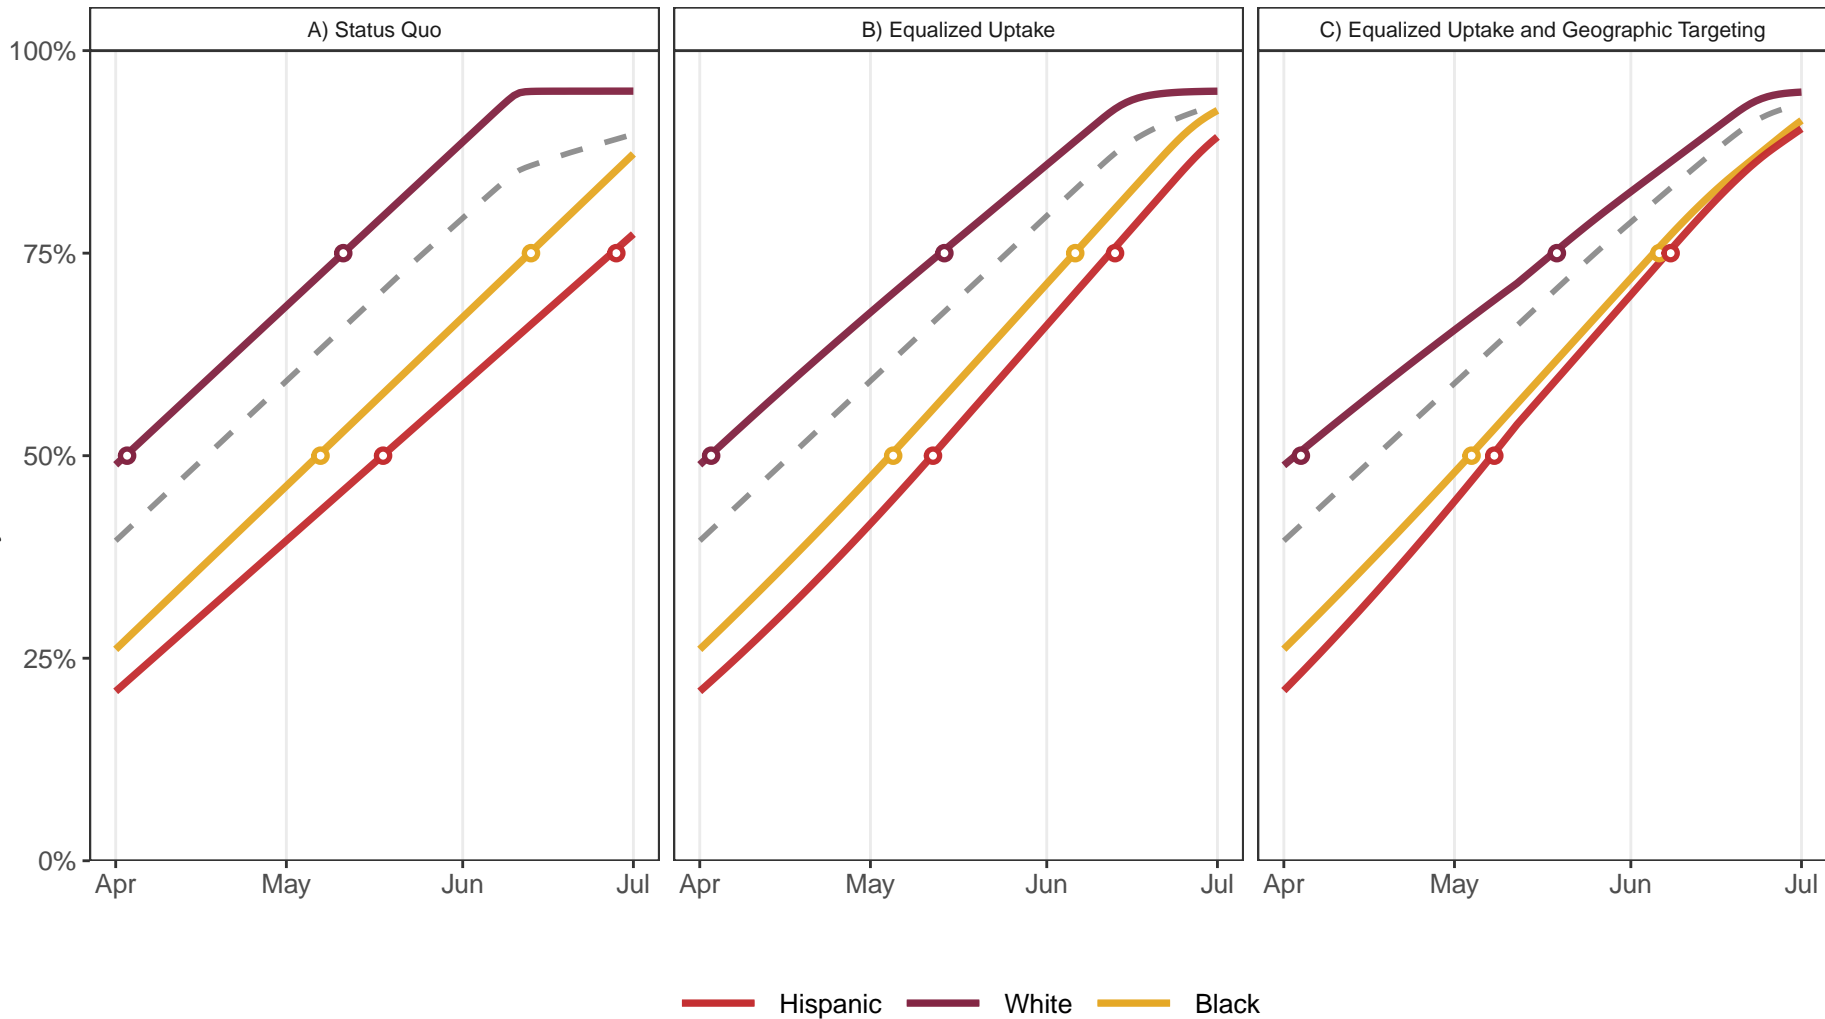

Coverage of one or more doses among population  
16 years and older

Dashed line shows overall coverage among the Alaska population aged 16 years and older

# Arizona

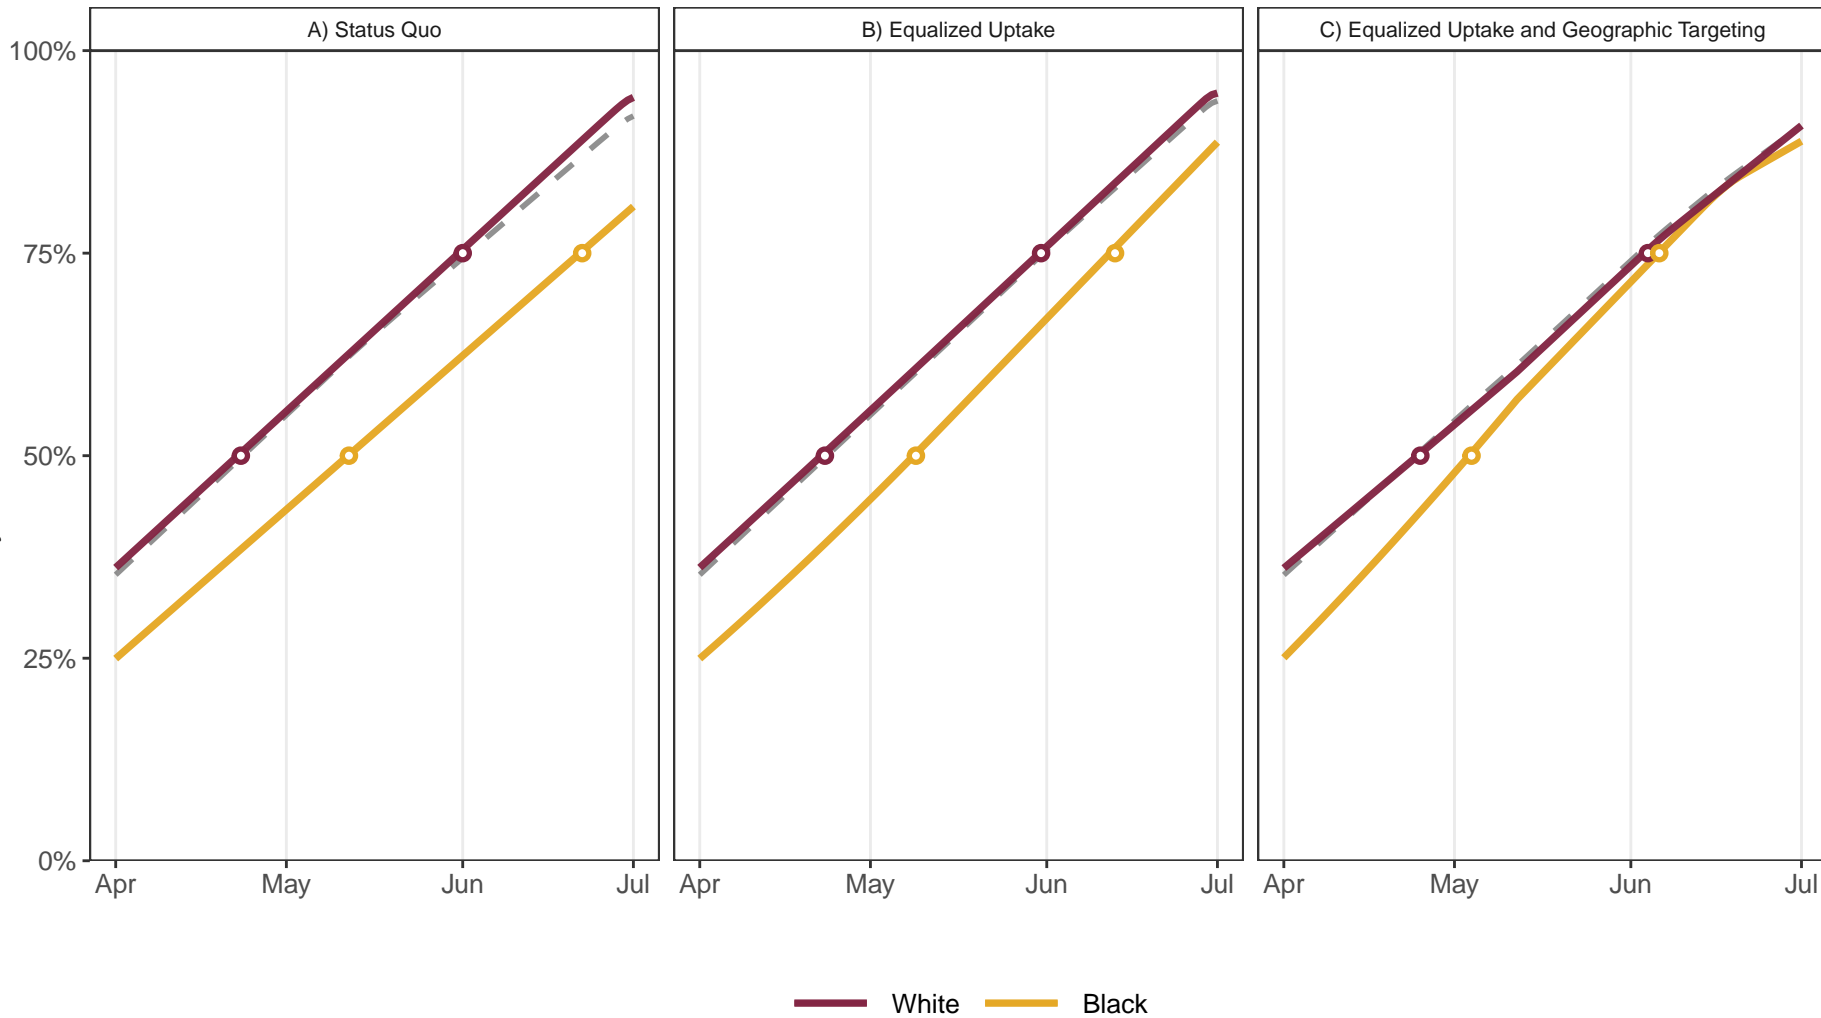

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Arizona population aged 16 years and older

# Arkansas

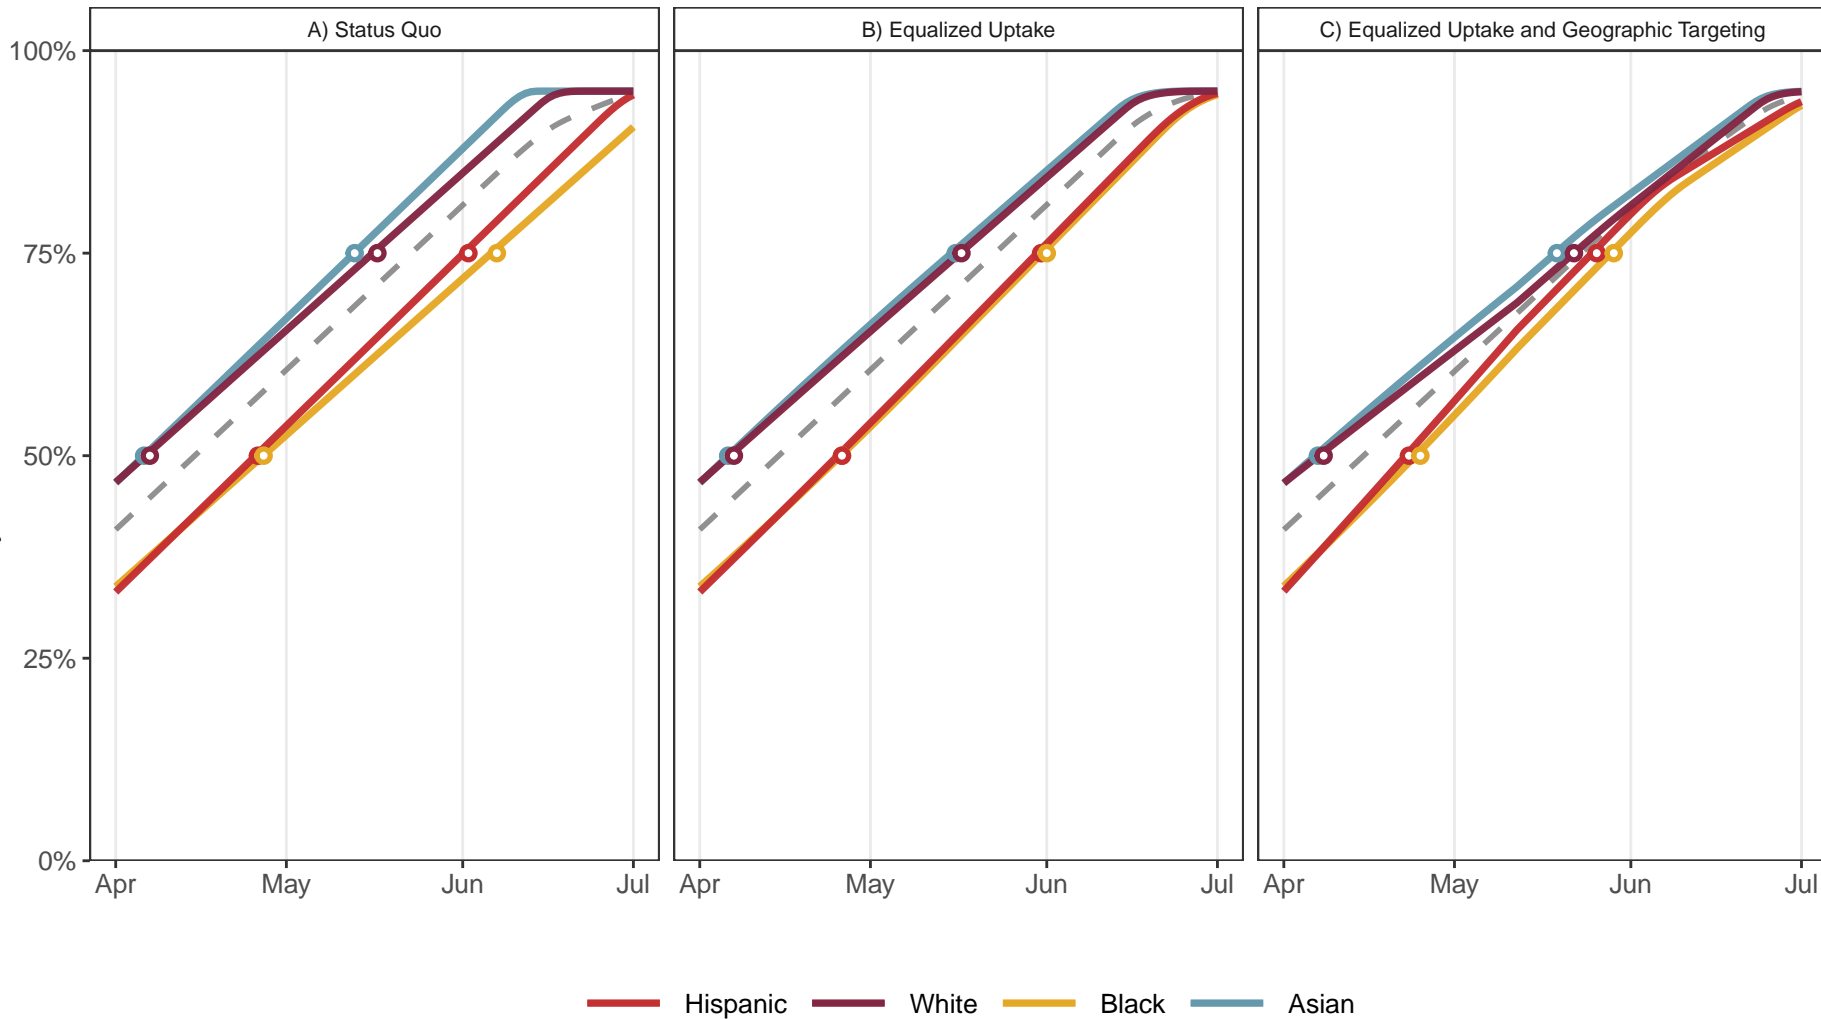

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Arkansas population aged 16 years and older

# California

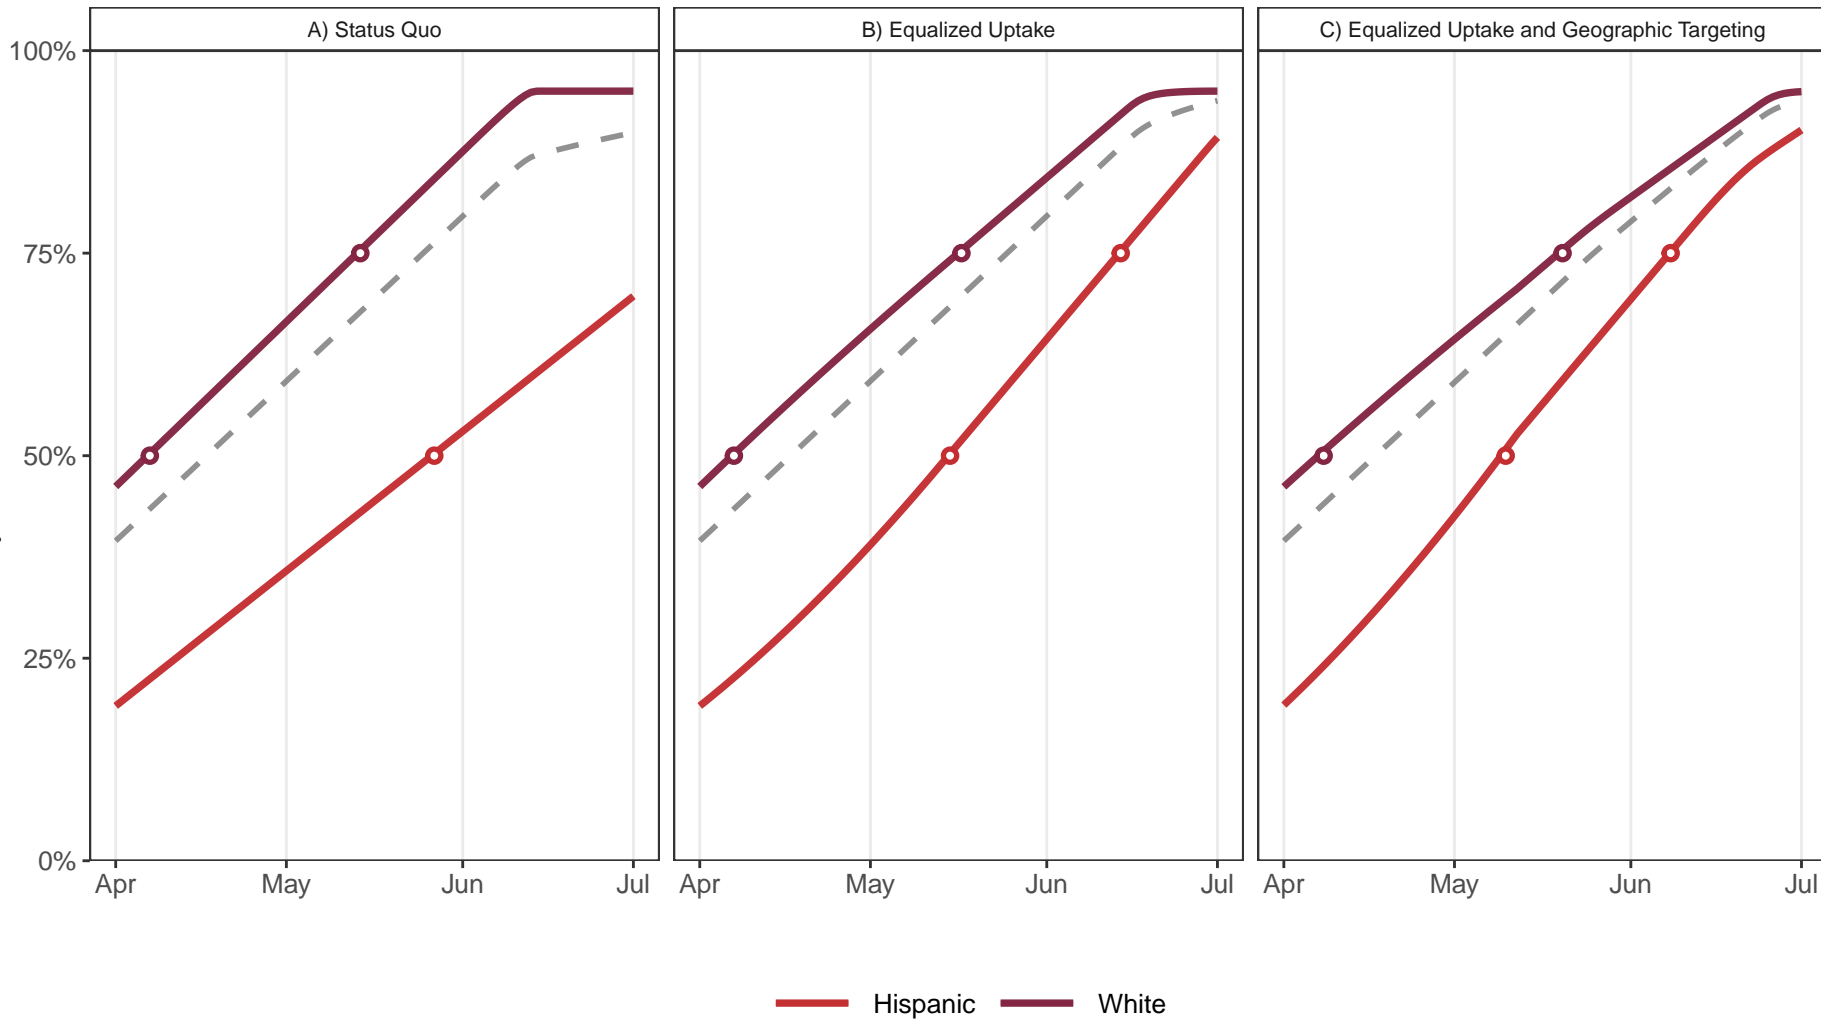

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the California population aged 16 years and older

# Colorado

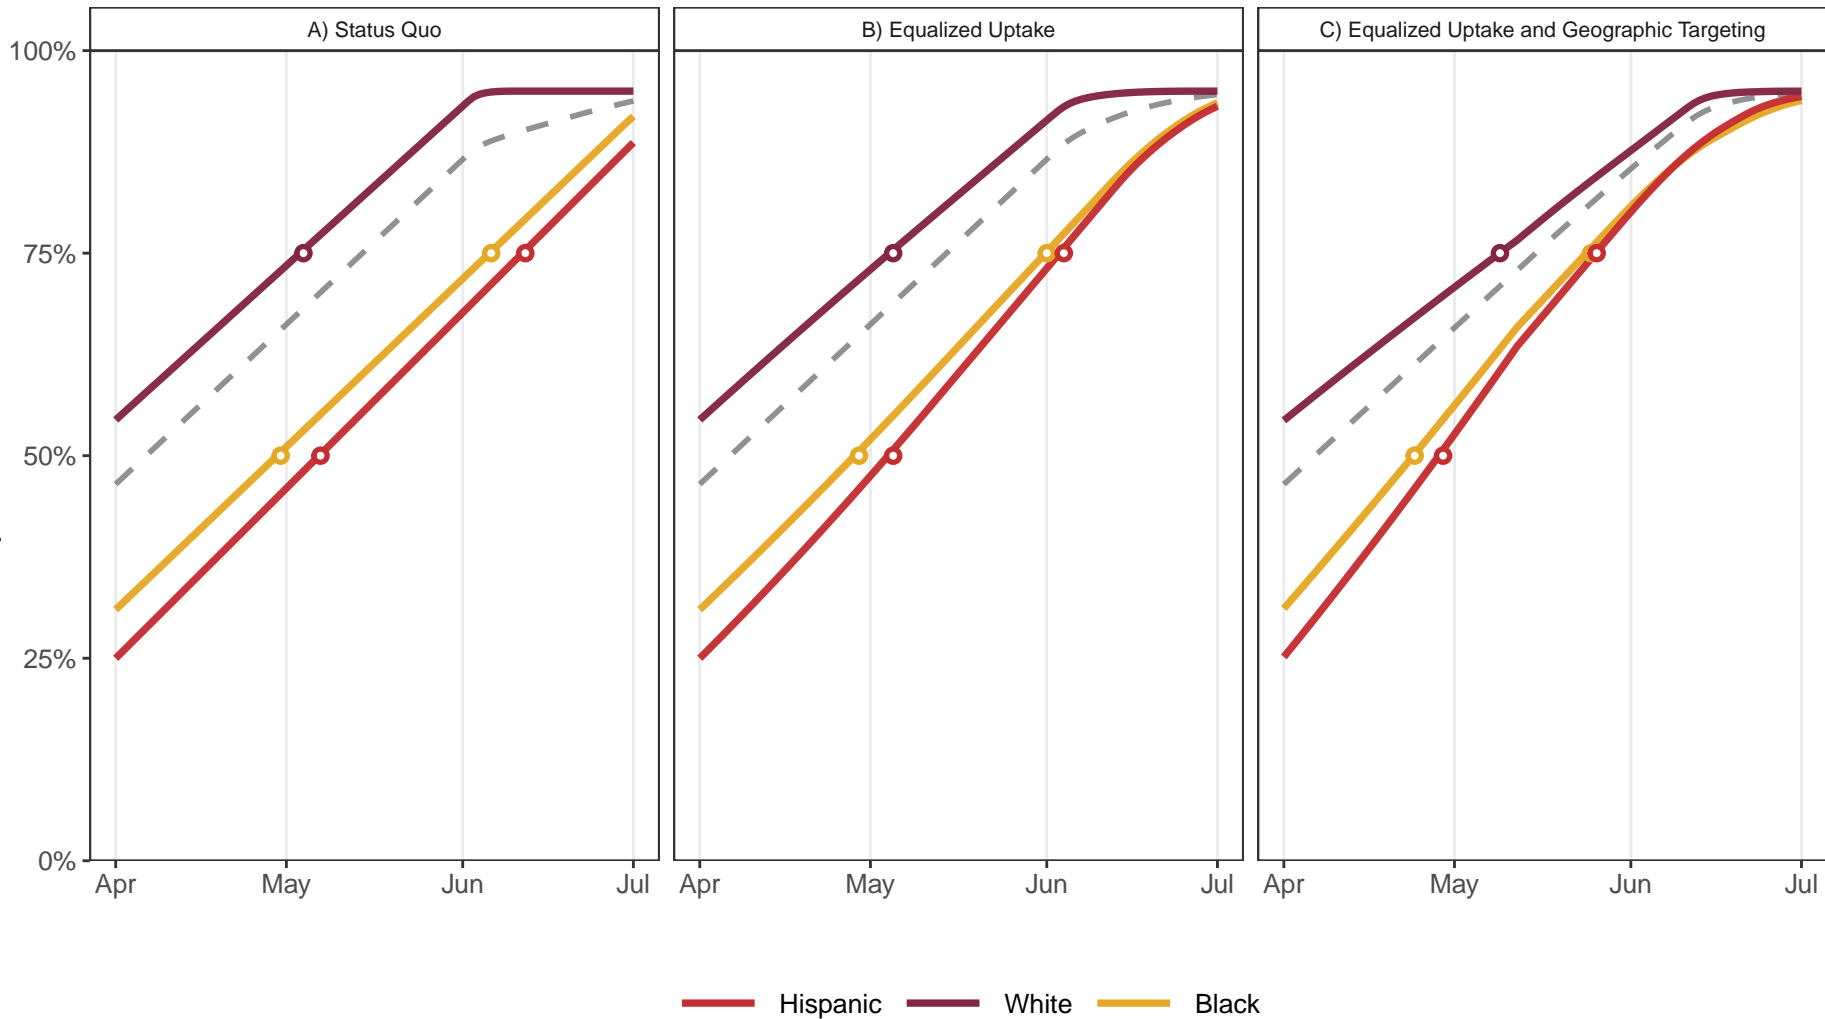

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Colorado population aged 16 years and older

# Connecticut

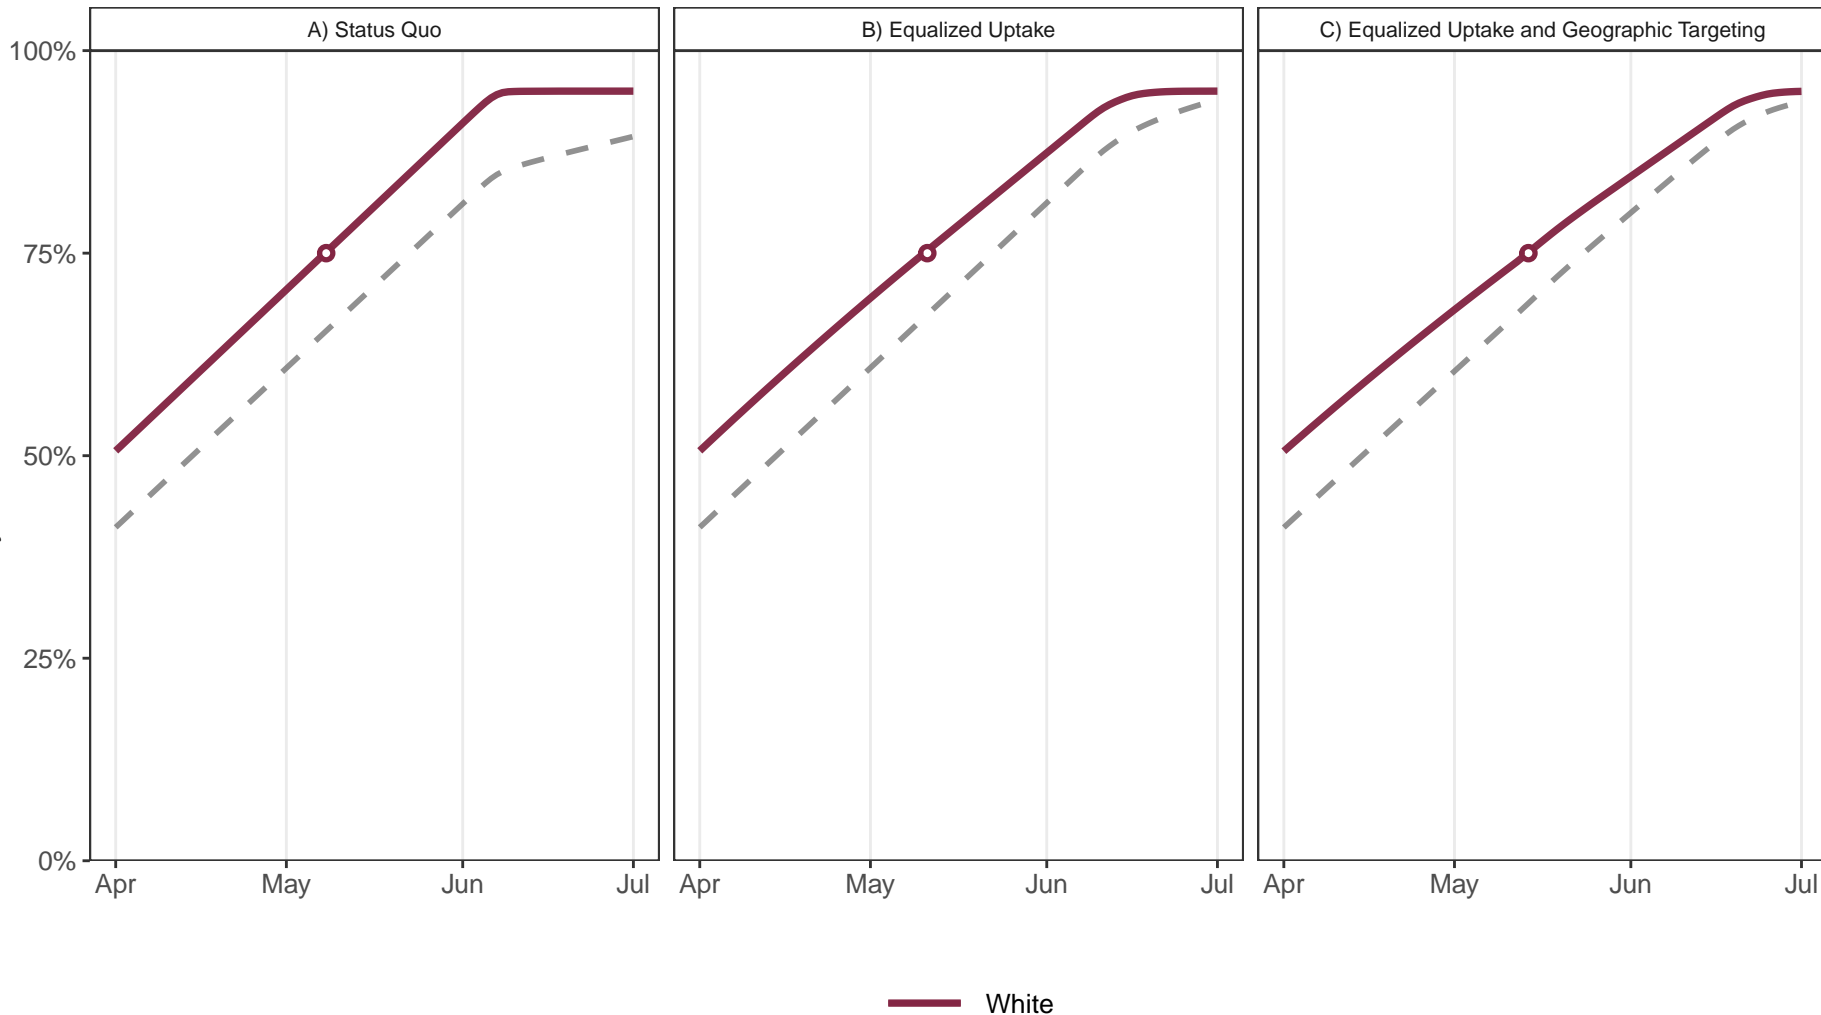

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Connecticut population aged 16 years and older

# Delaware

Coverage of one or more doses among population  
16 years and older

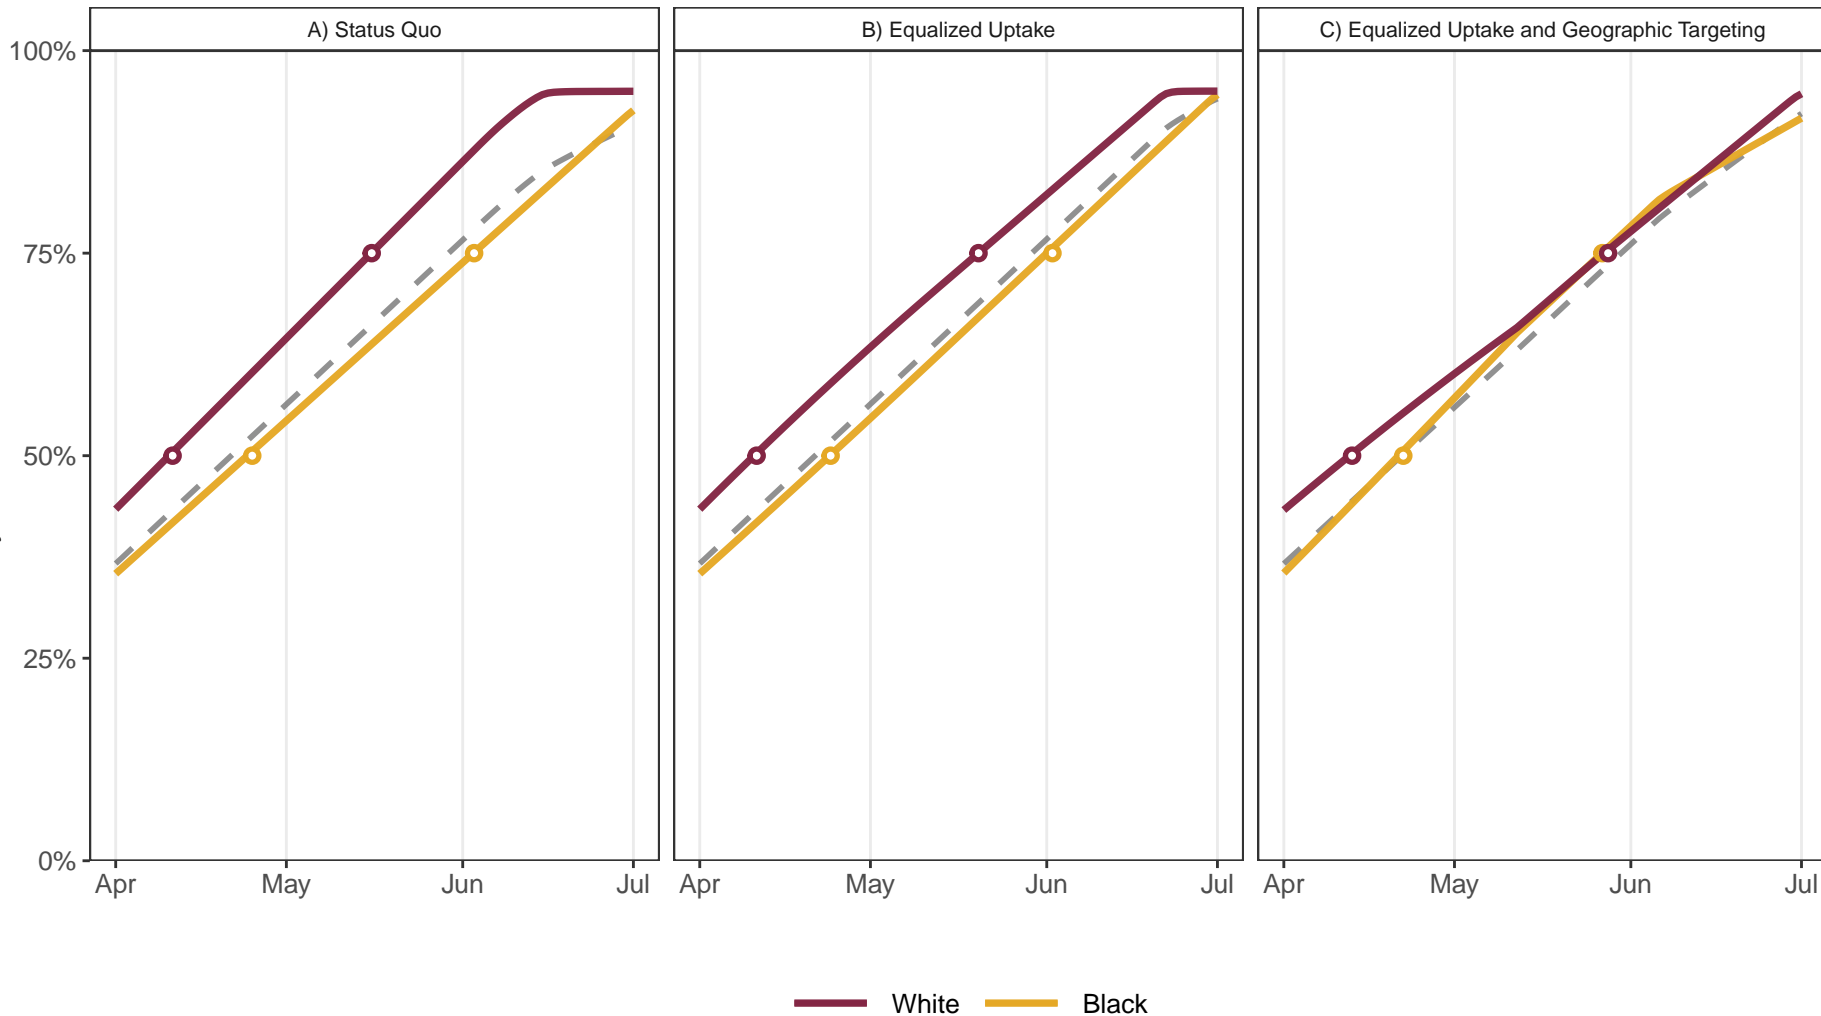

Dashed line shows overall coverage among the Delaware population aged 16 years and older

# District of Columbia

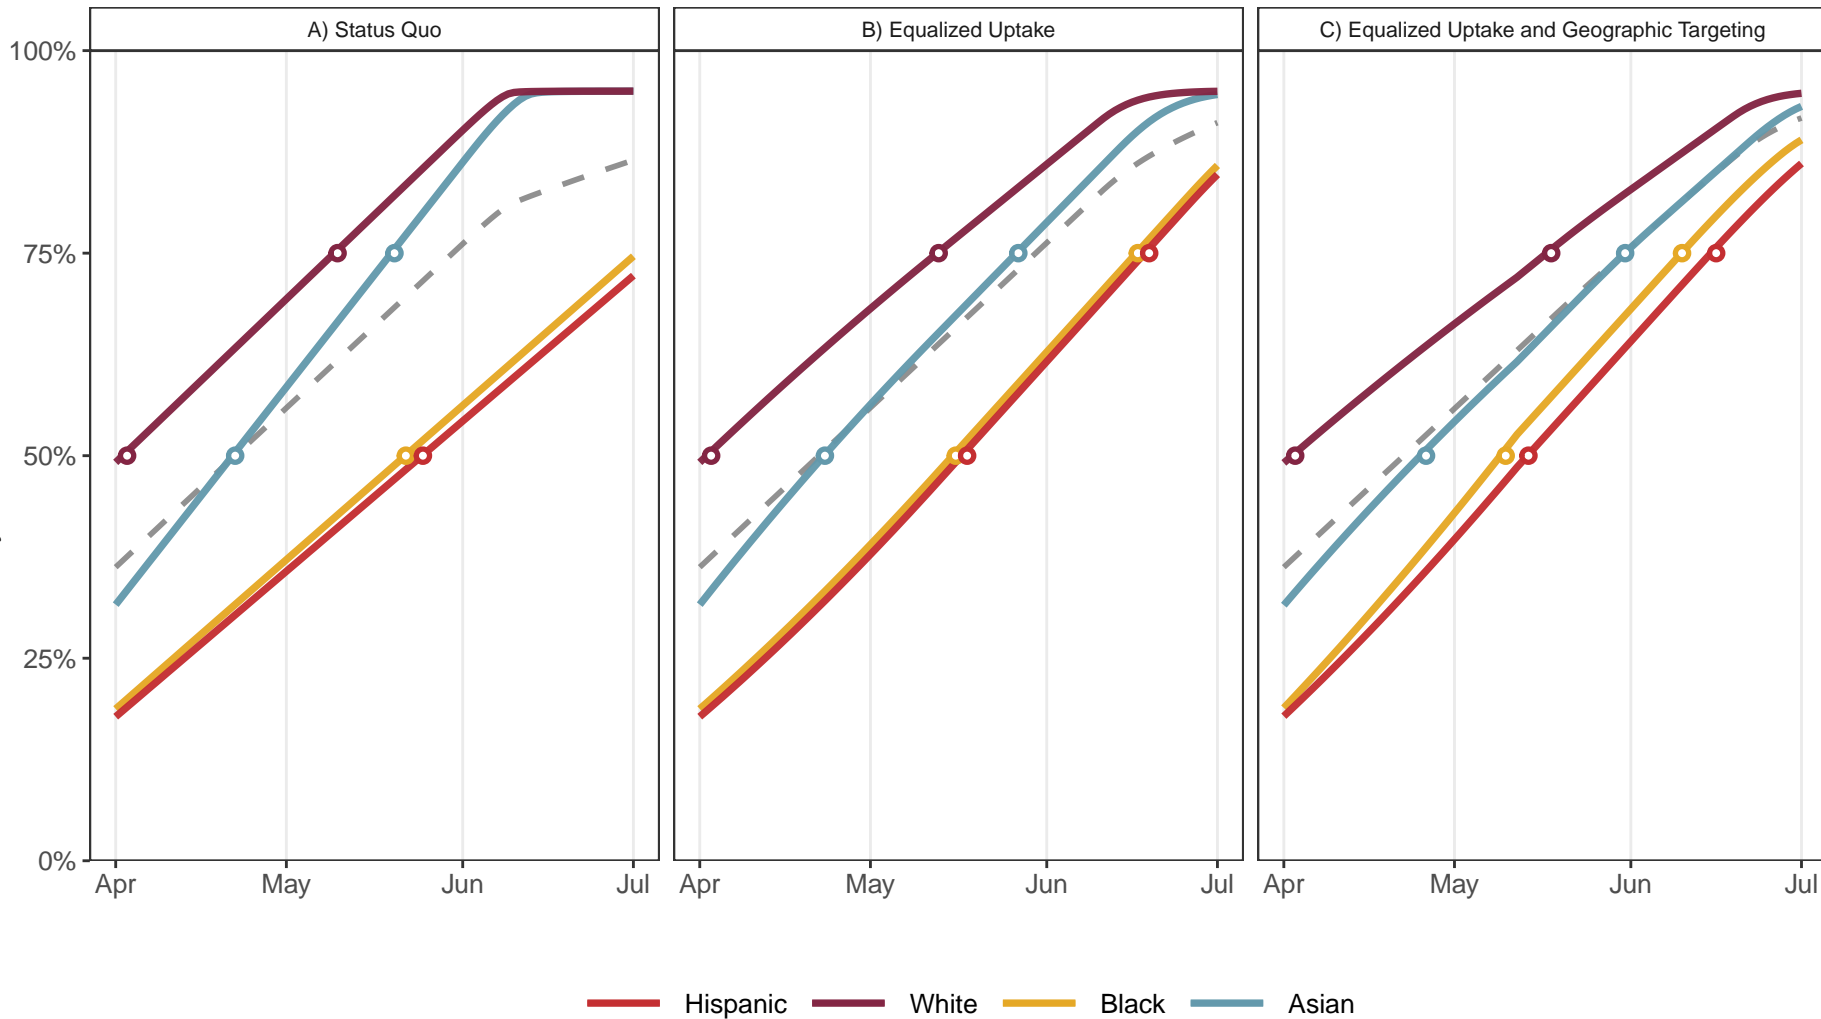

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the District of Columbia population aged 16 years and older

# Florida

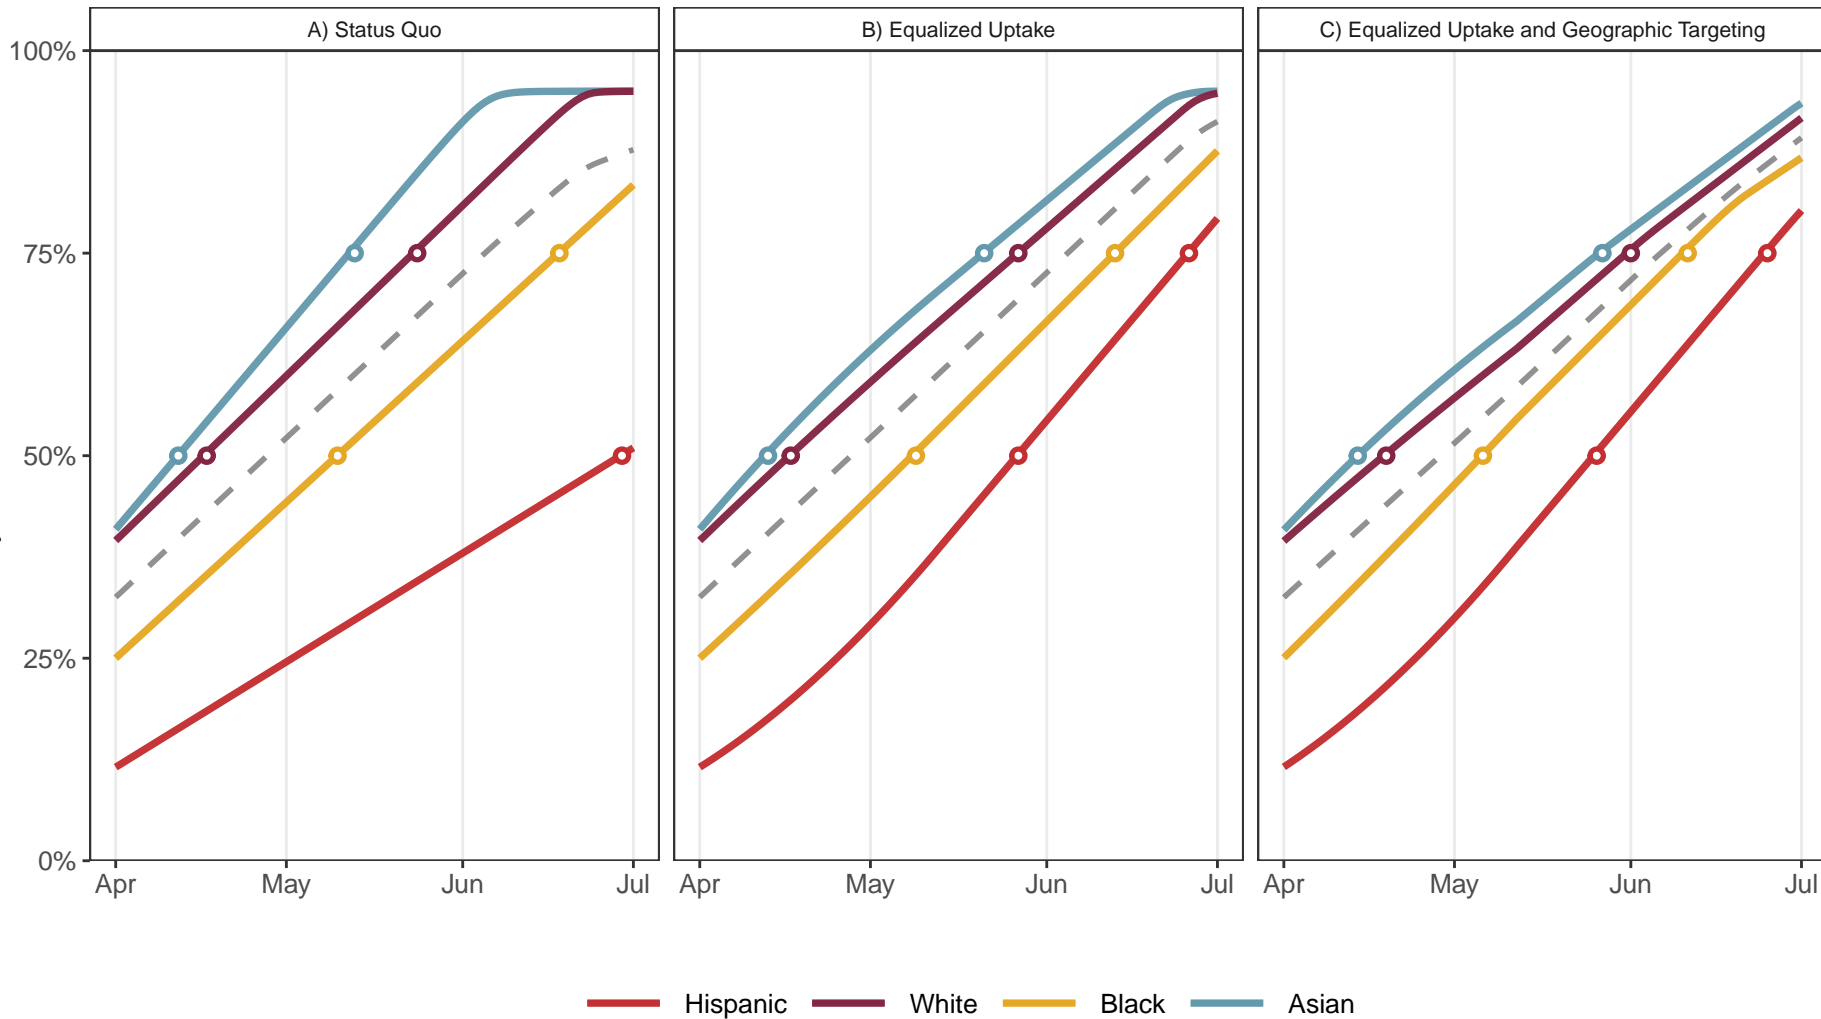

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Florida population aged 16 years and older

# Georgia

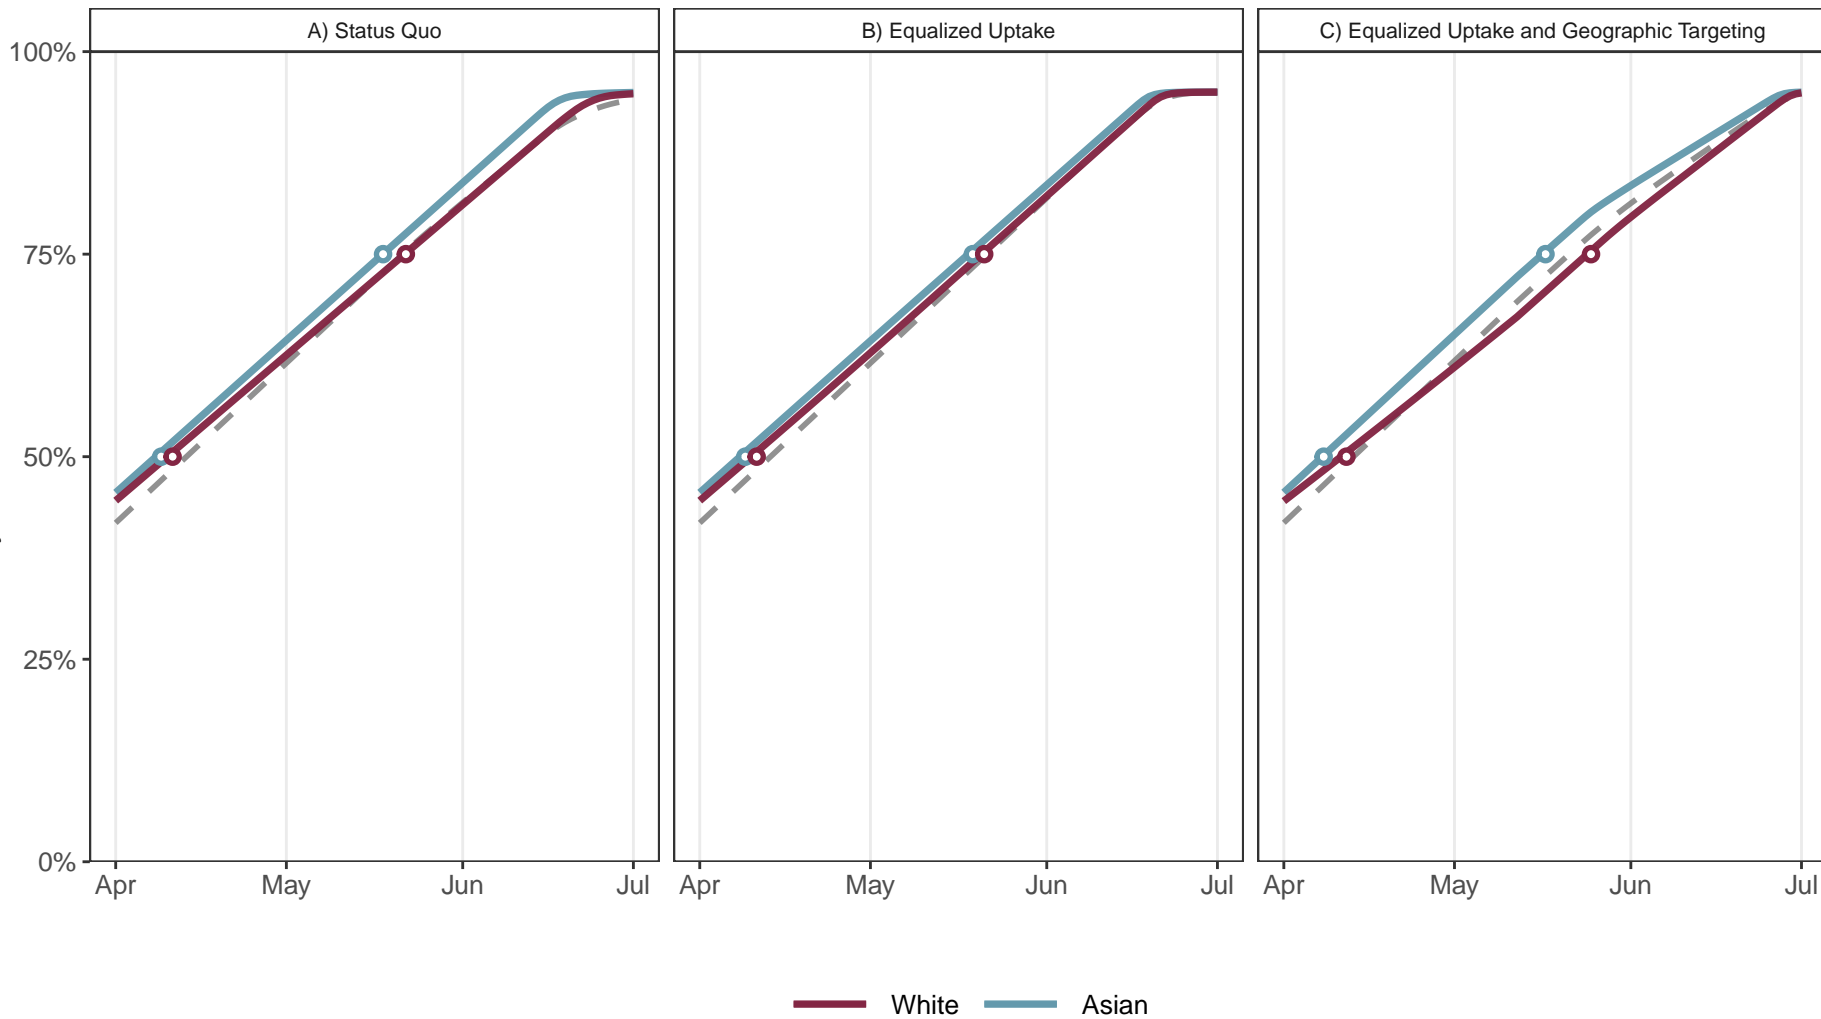

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Georgia population aged 16 years and older

# Hawaii

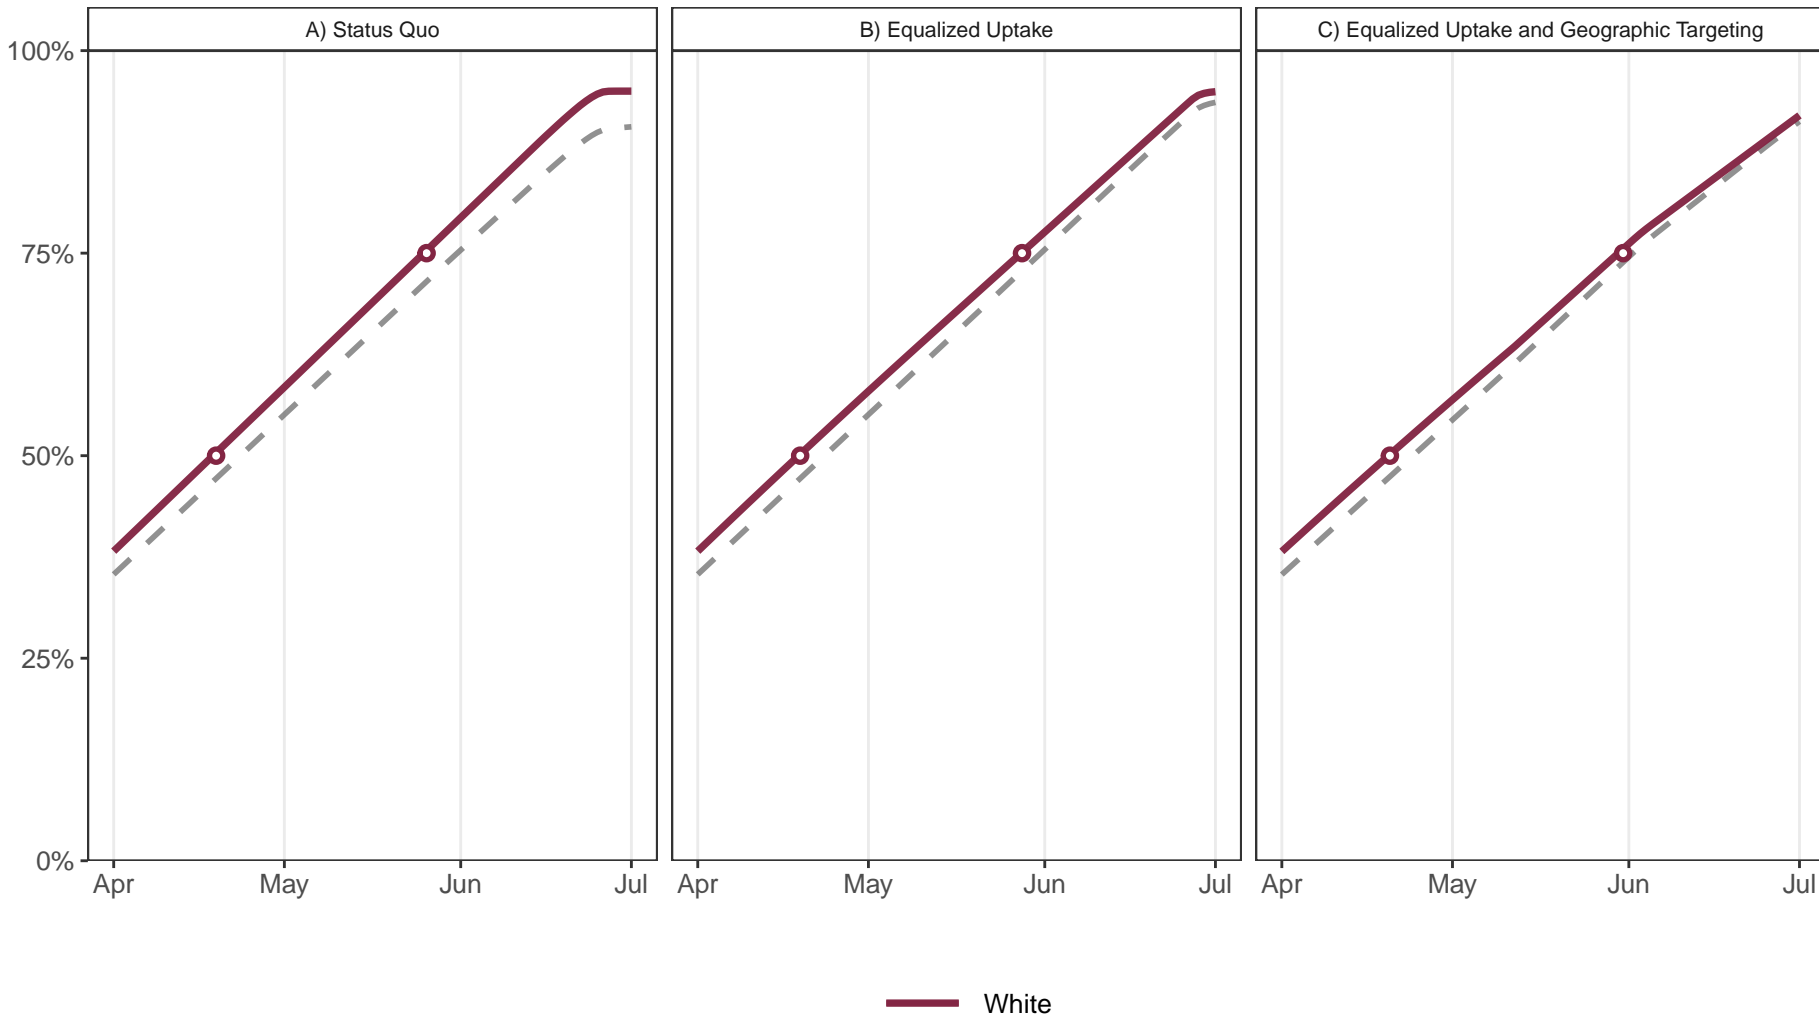

Coverage of one or more doses among population  
16 years and older

Dashed line shows overall coverage among the Hawaii population aged 16 years and older

# Idaho

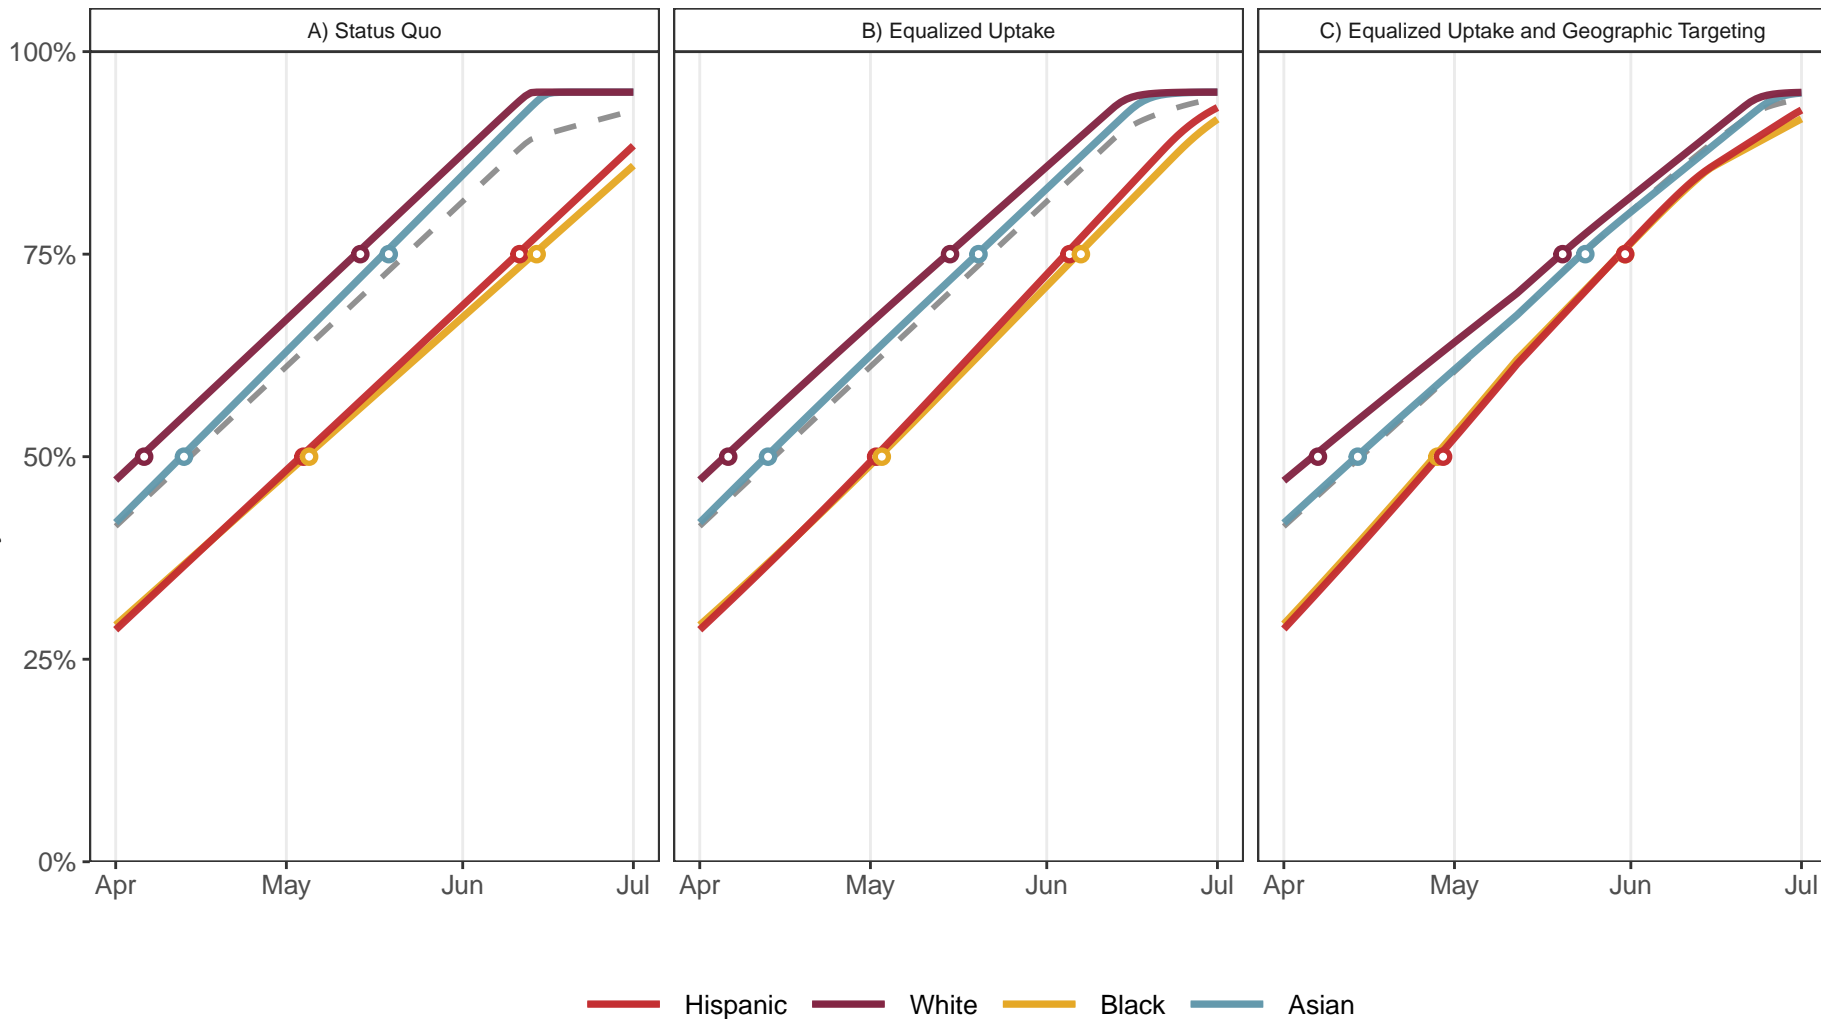

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Idaho population aged 16 years and older

# Illinois

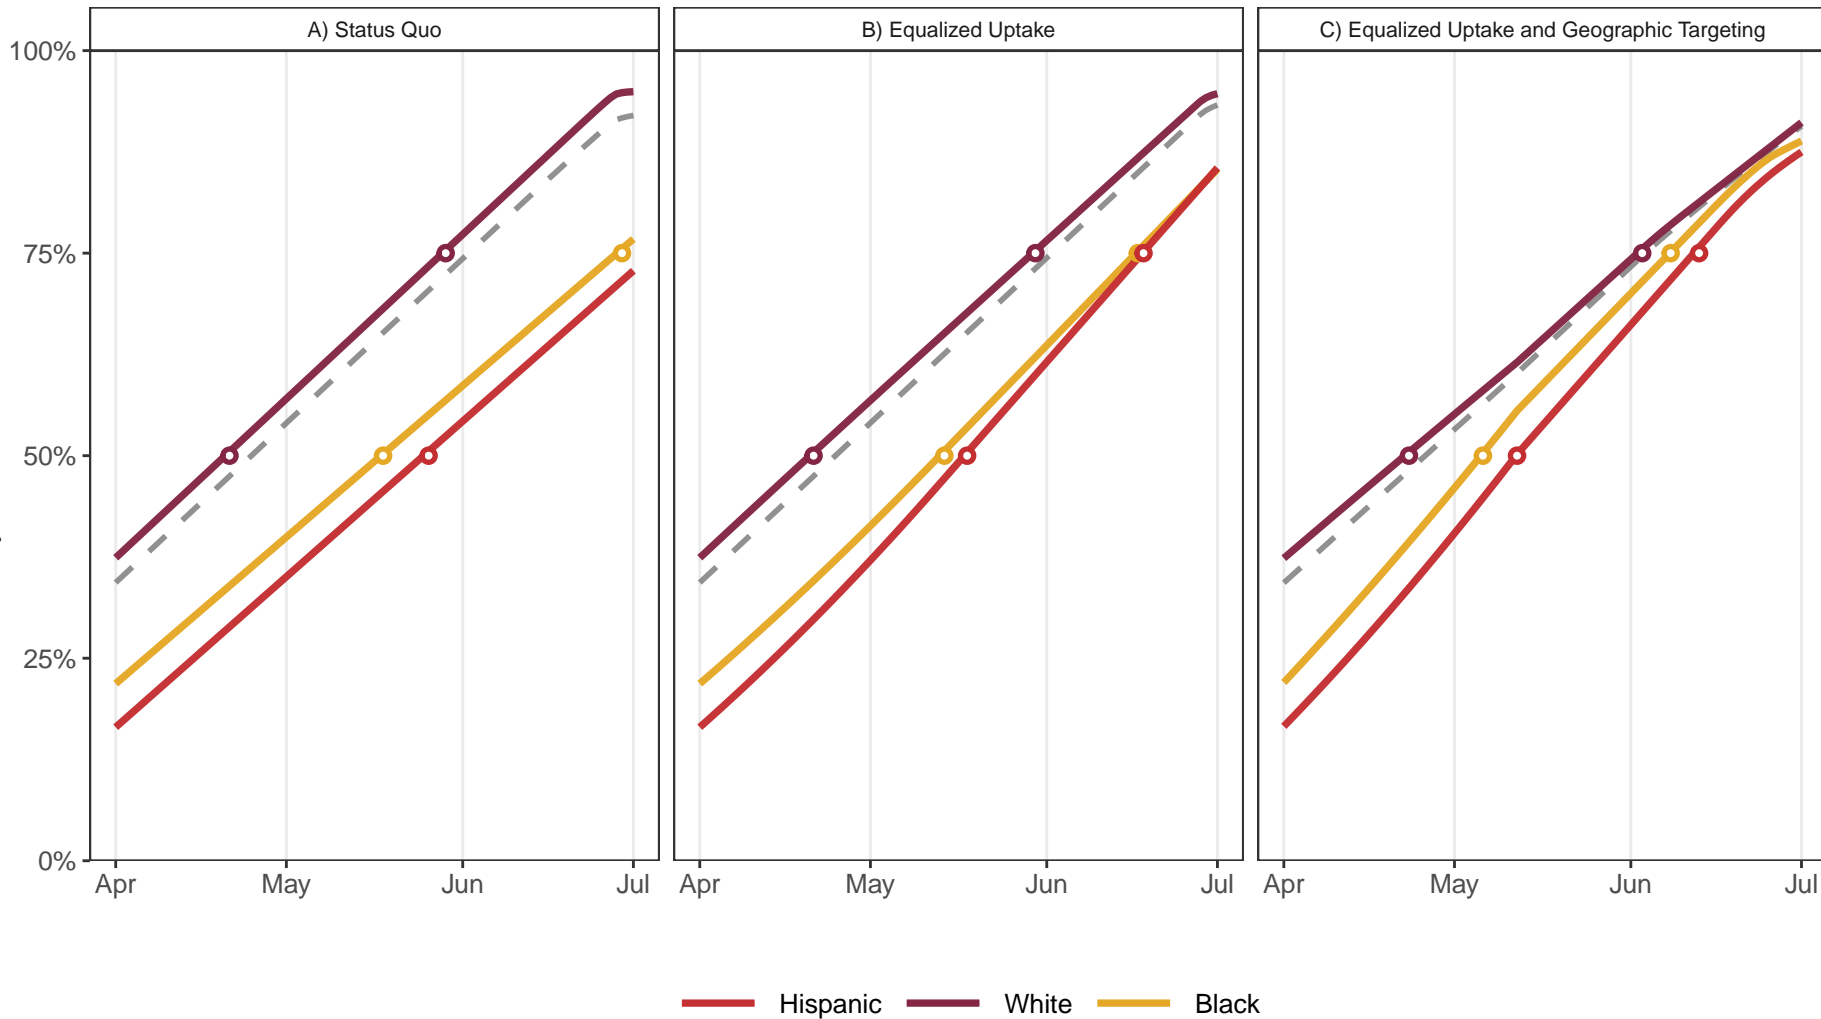

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Illinois population aged 16 years and older

# Indiana

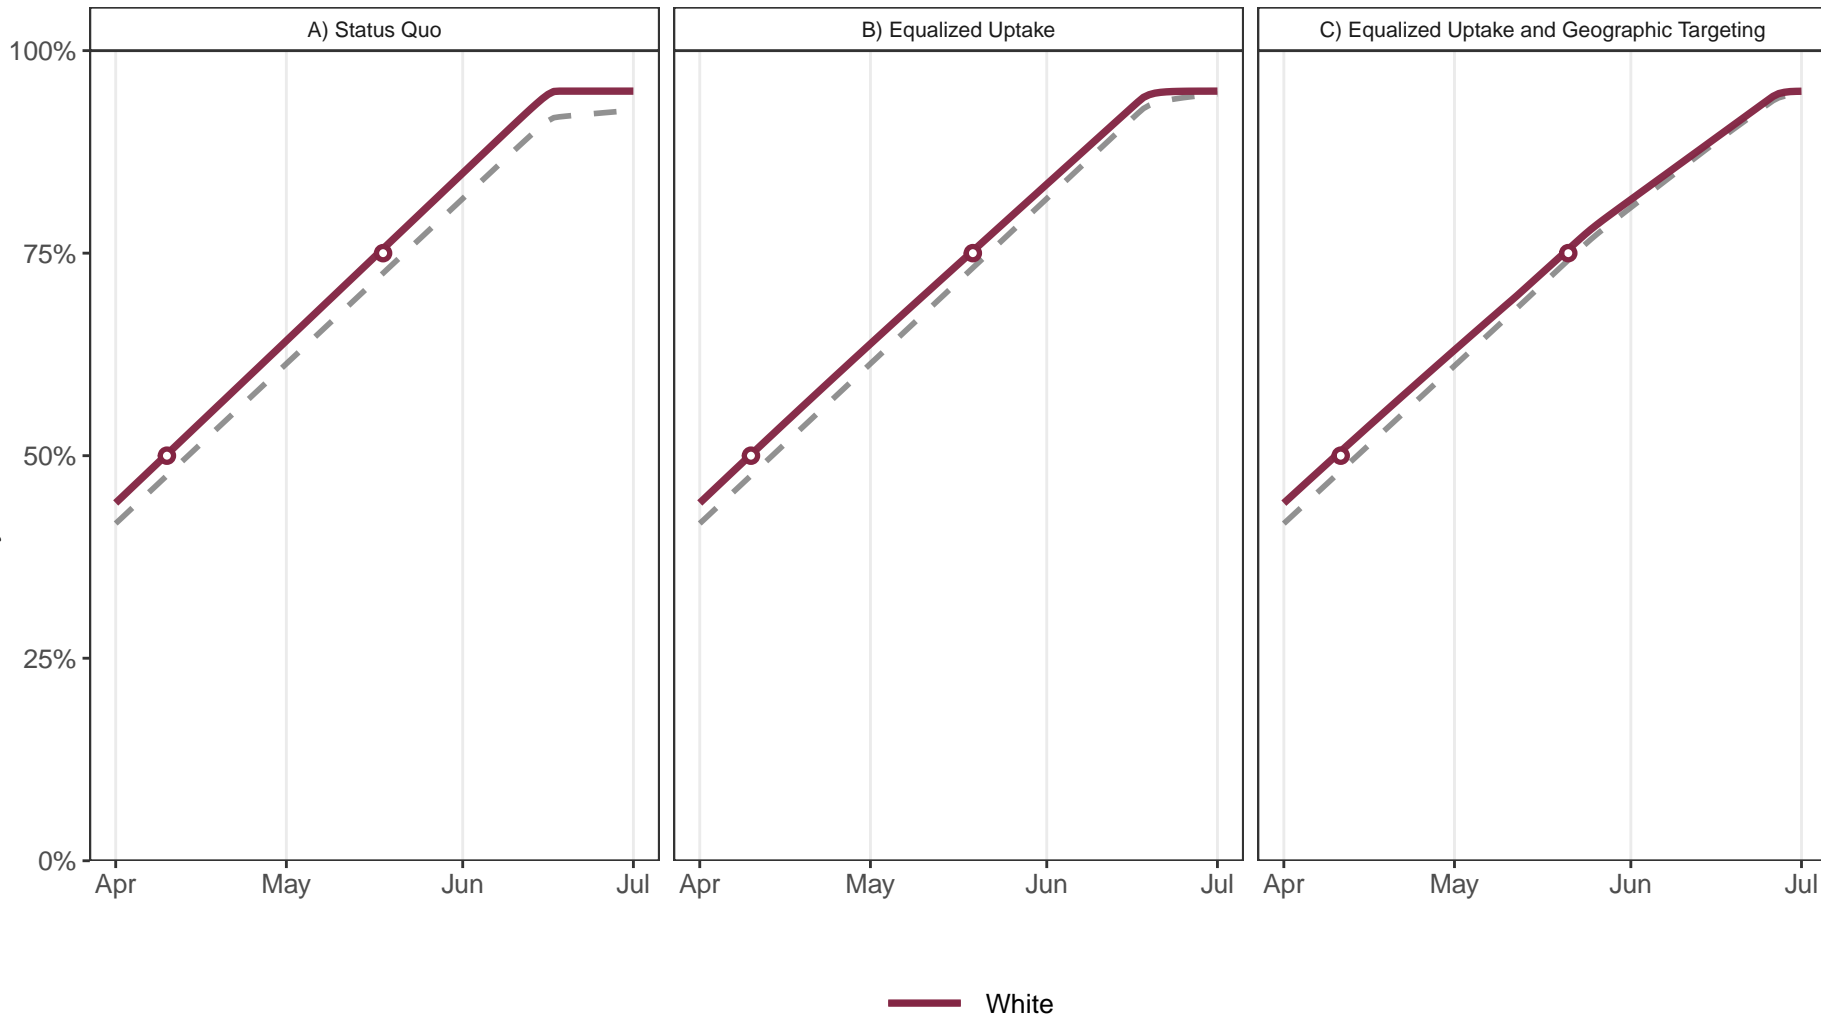

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Indiana population aged 16 years and older

# Iowa

Coverage of one or more doses among population  
16 years and older

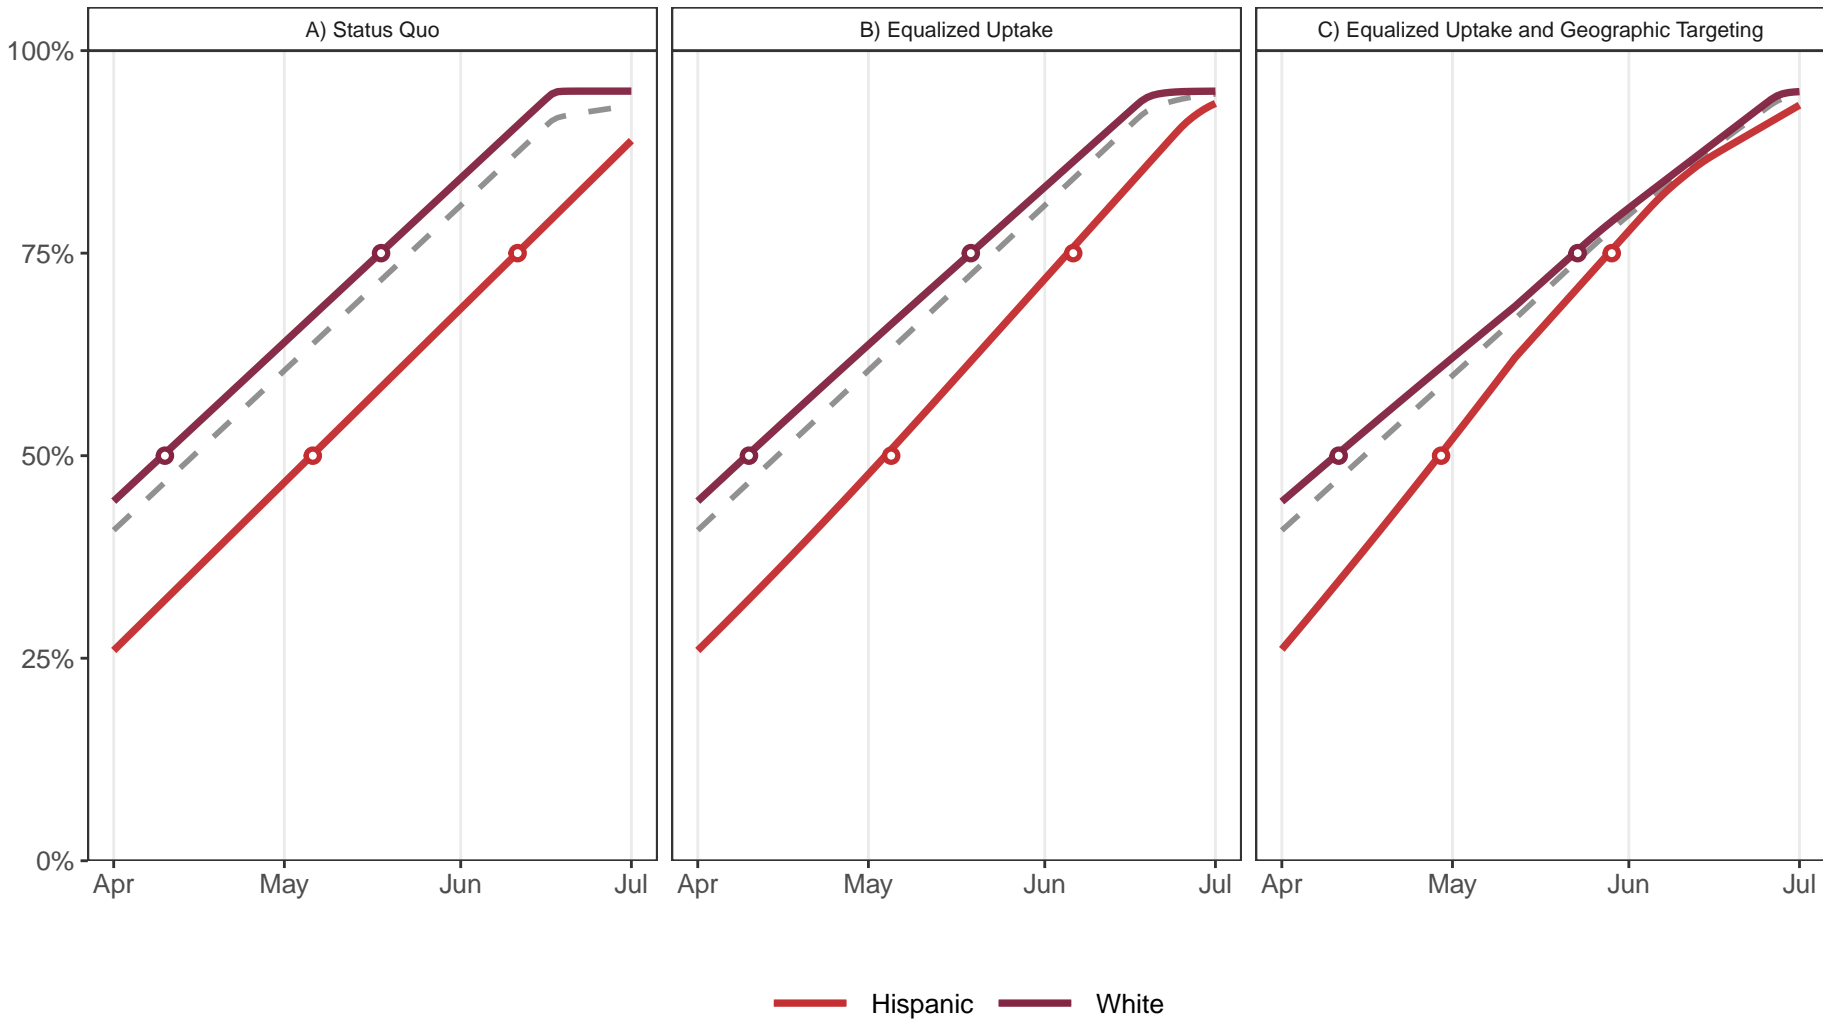

Dashed line shows overall coverage among the Iowa population aged 16 years and older

# Kansas

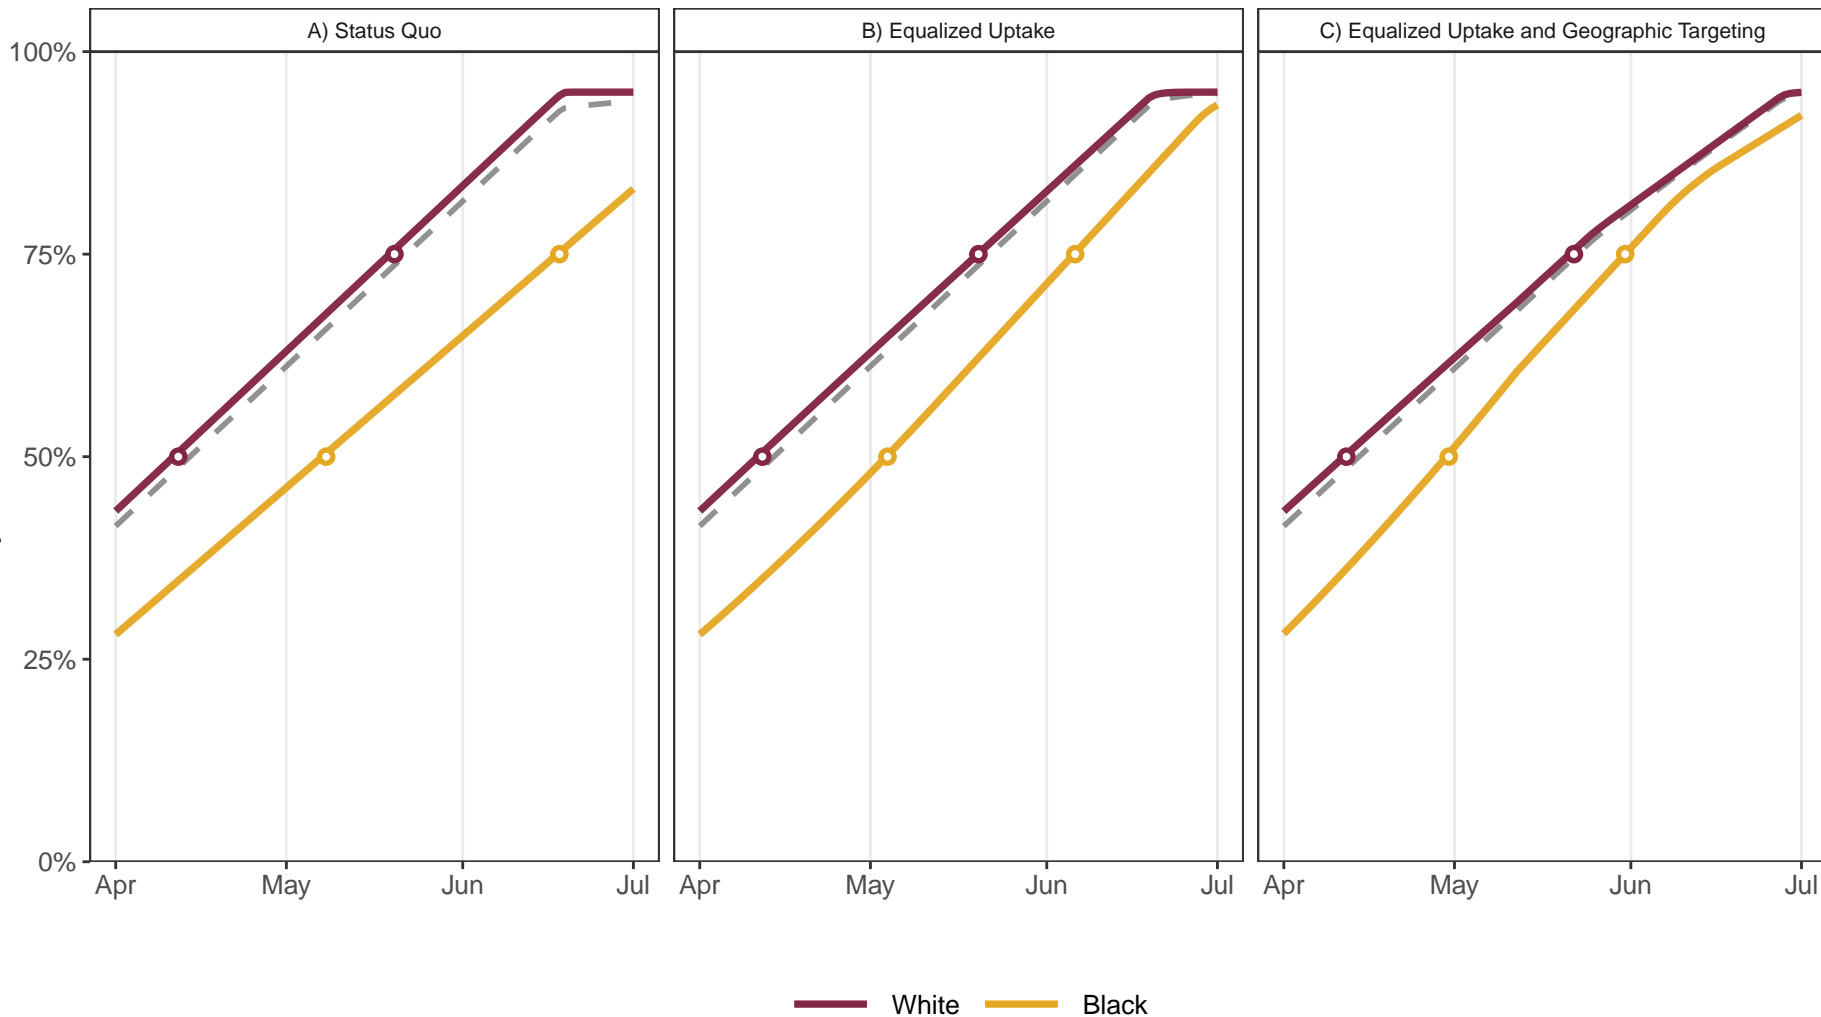

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Kansas population aged 16 years and older

# Kentucky

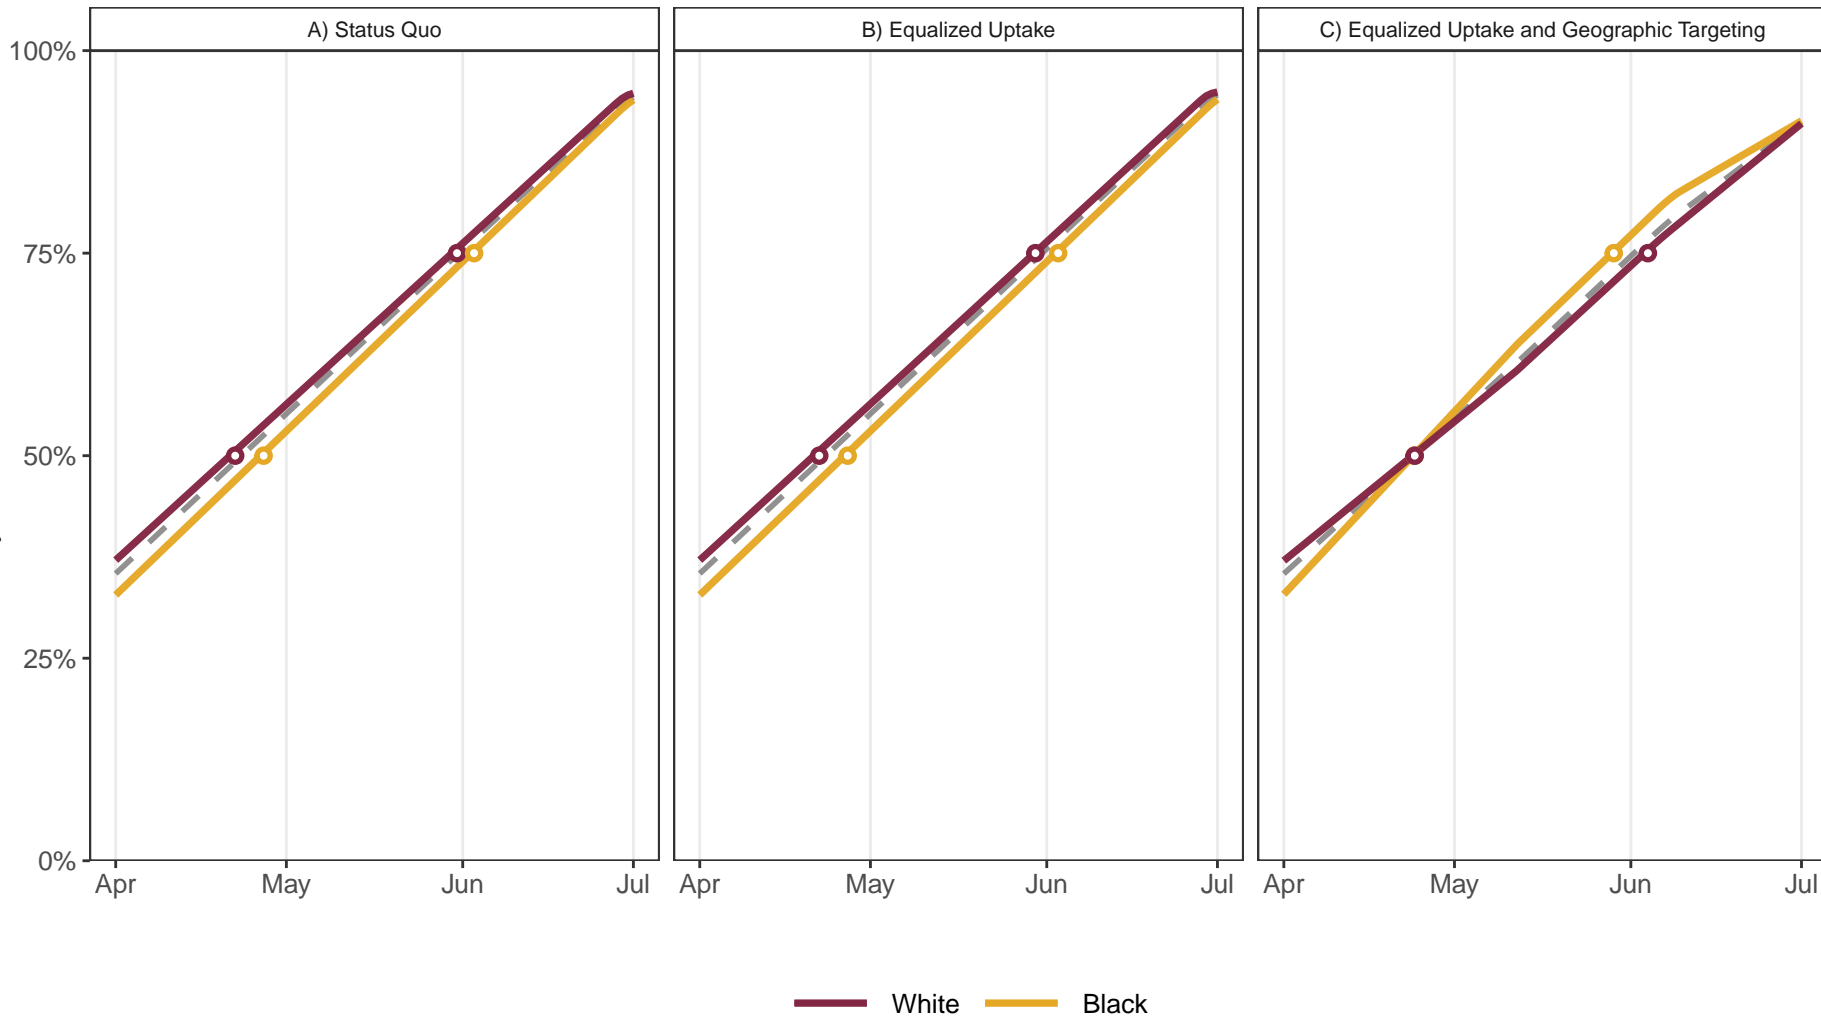

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Kentucky population aged 16 years and older

# Louisiana

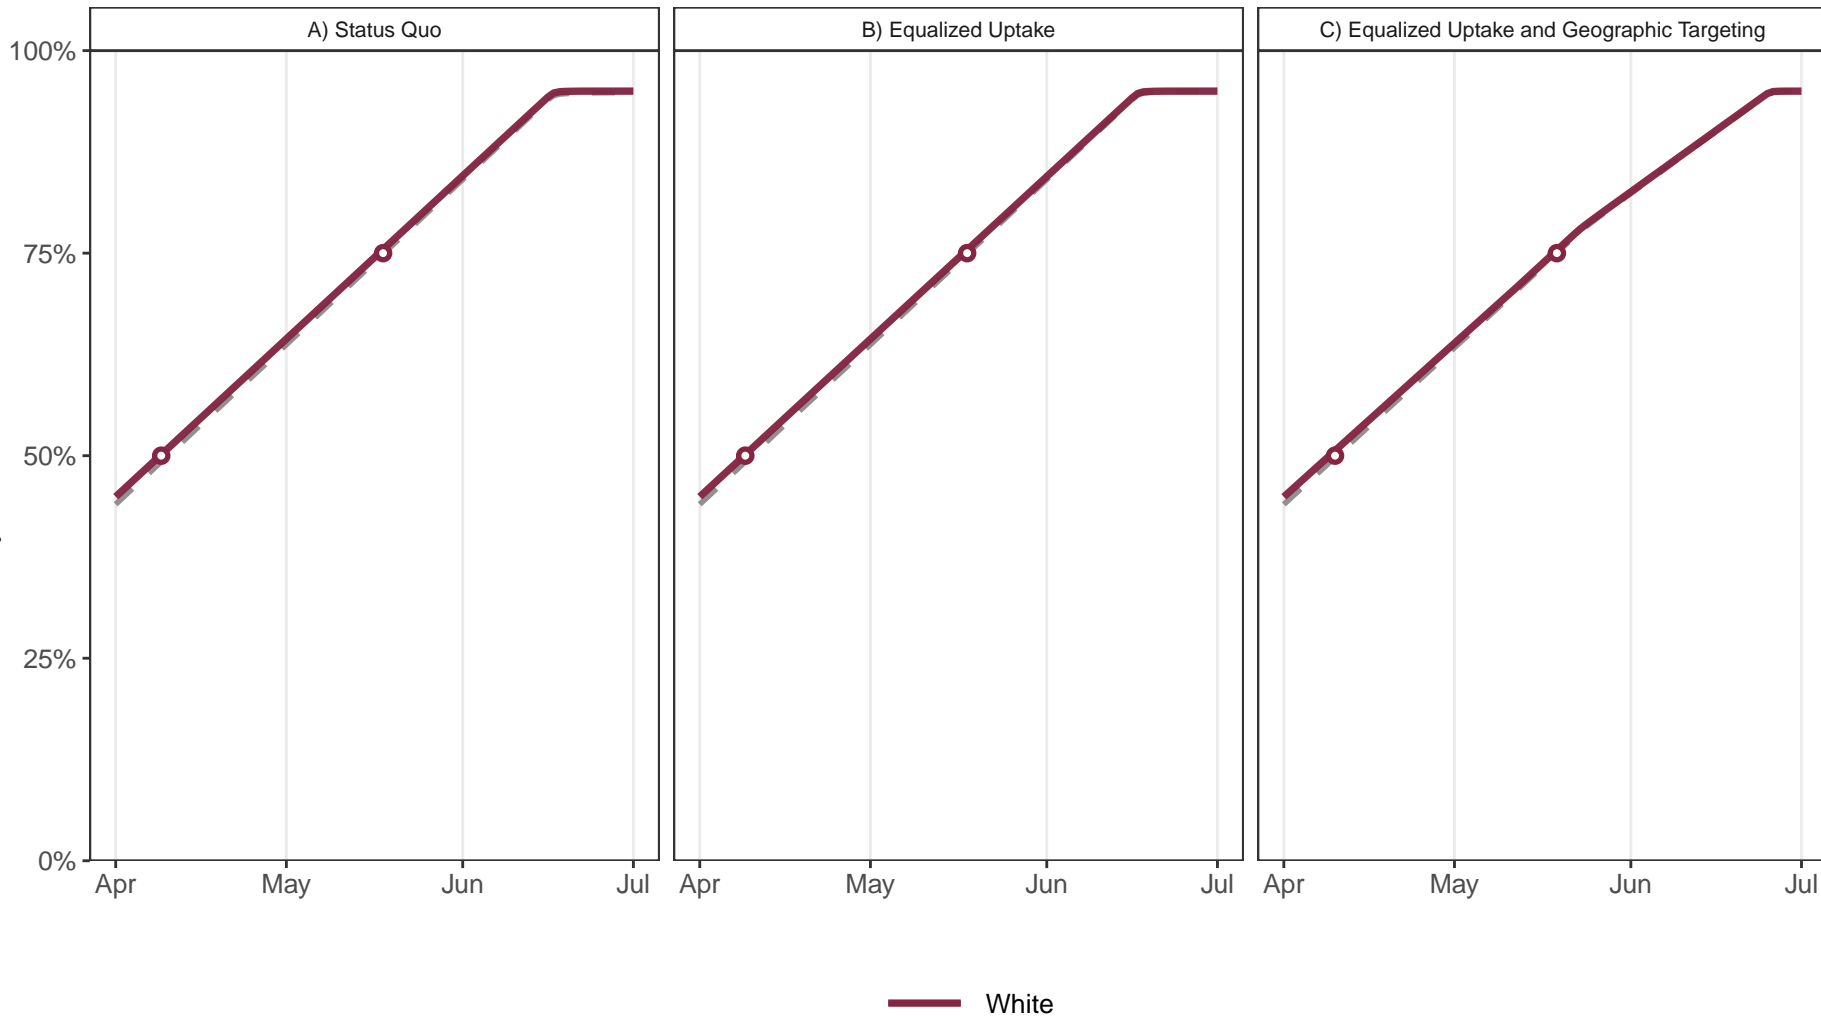

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Louisiana population aged 16 years and older

# Maine

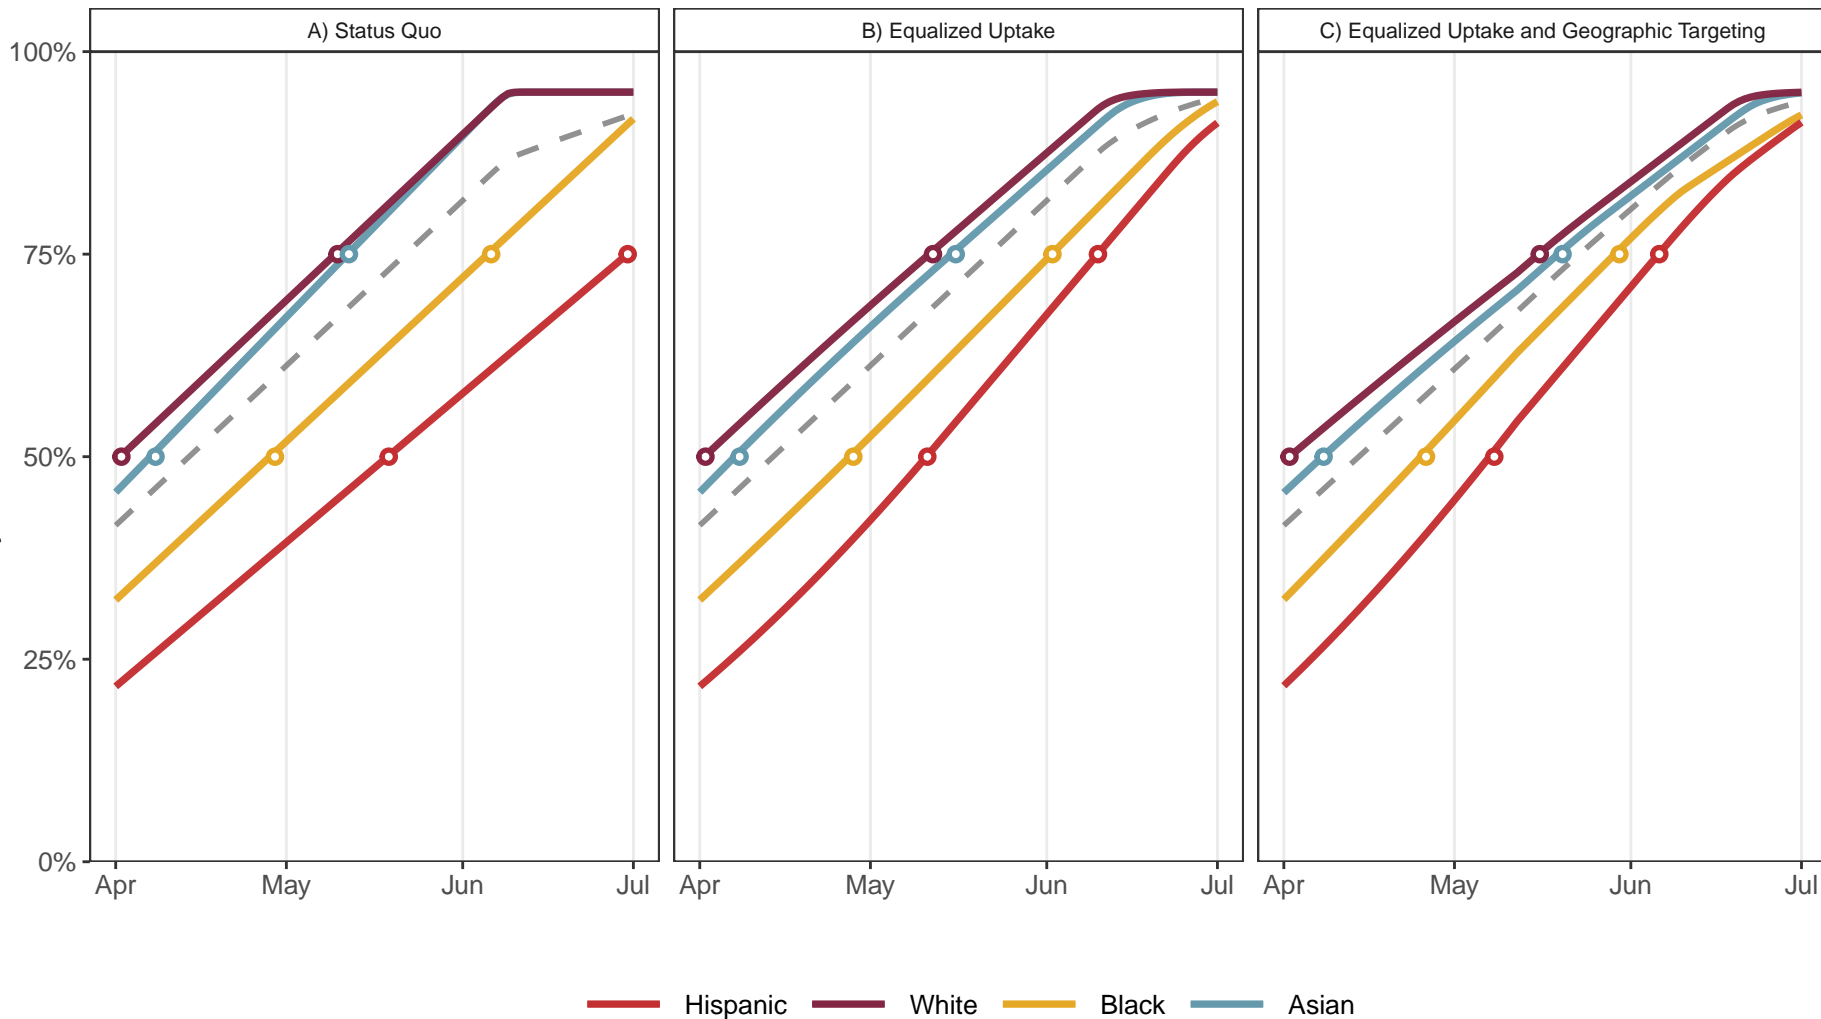

Coverage of one or more doses among population  
16 years and older

Dashed line shows overall coverage among the Maine population aged 16 years and older

# Maryland

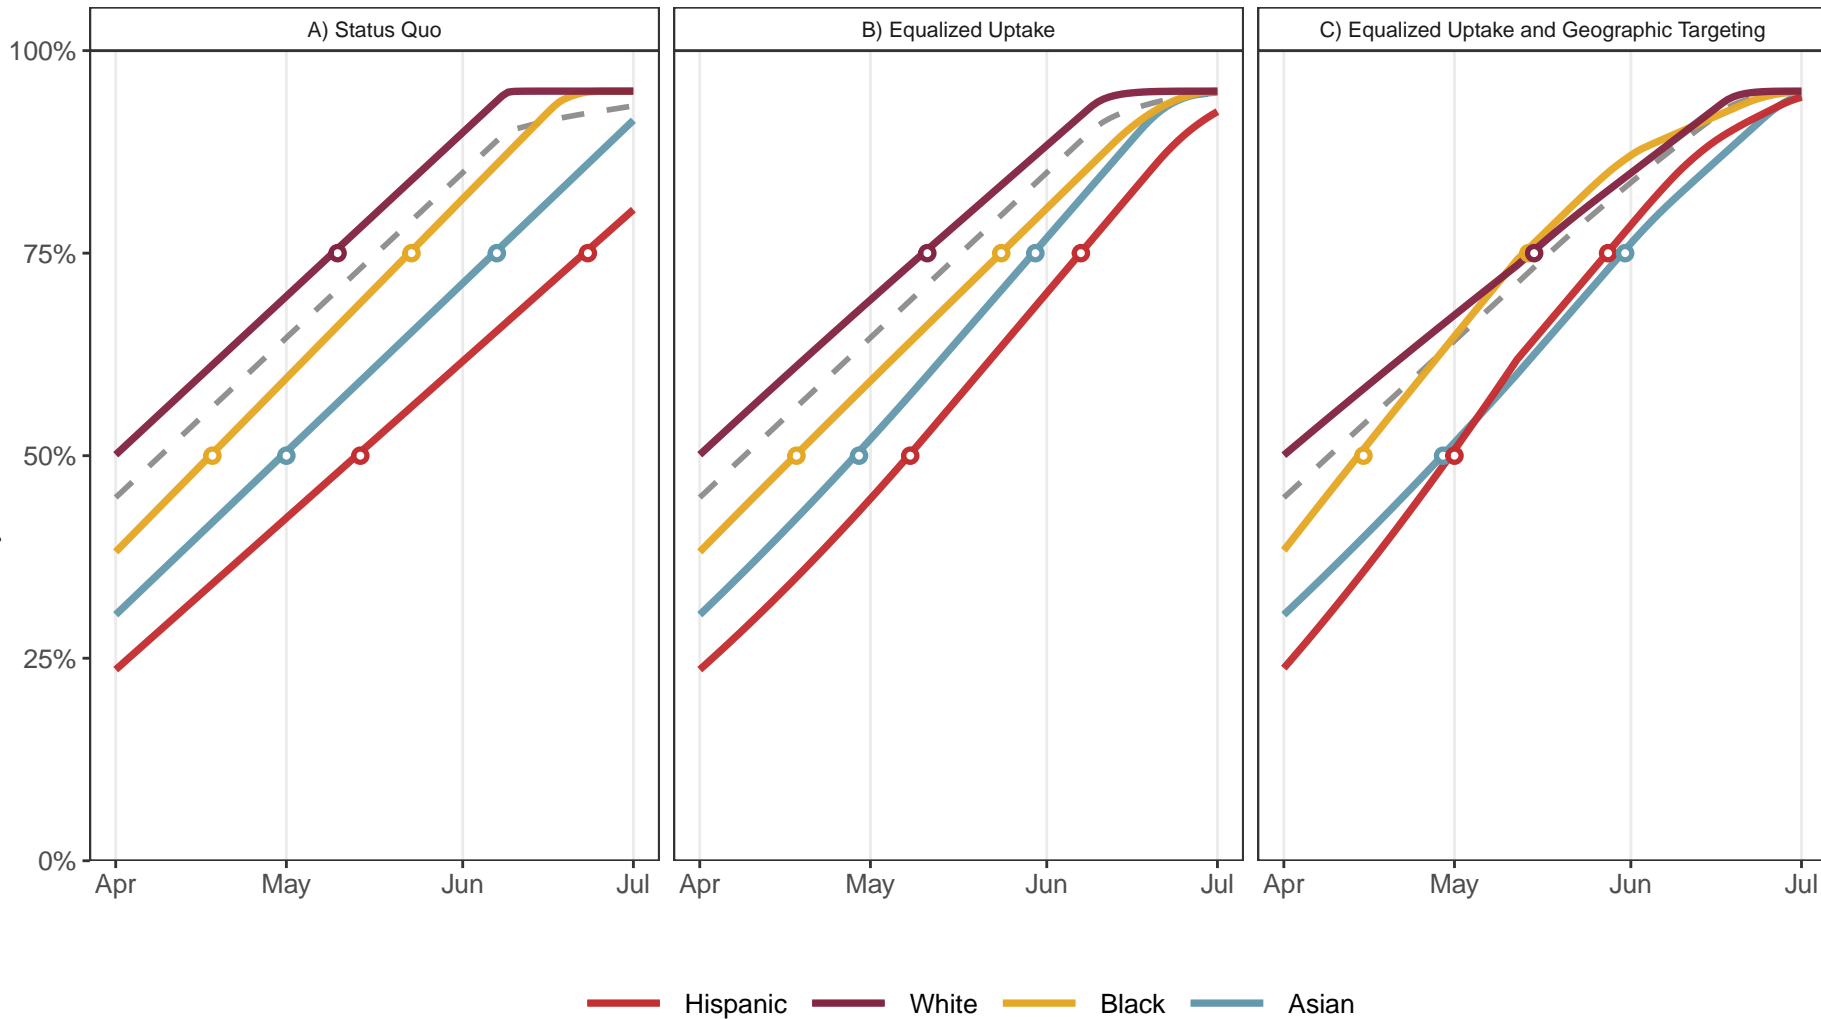

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Maryland population aged 16 years and older

# Massachusetts

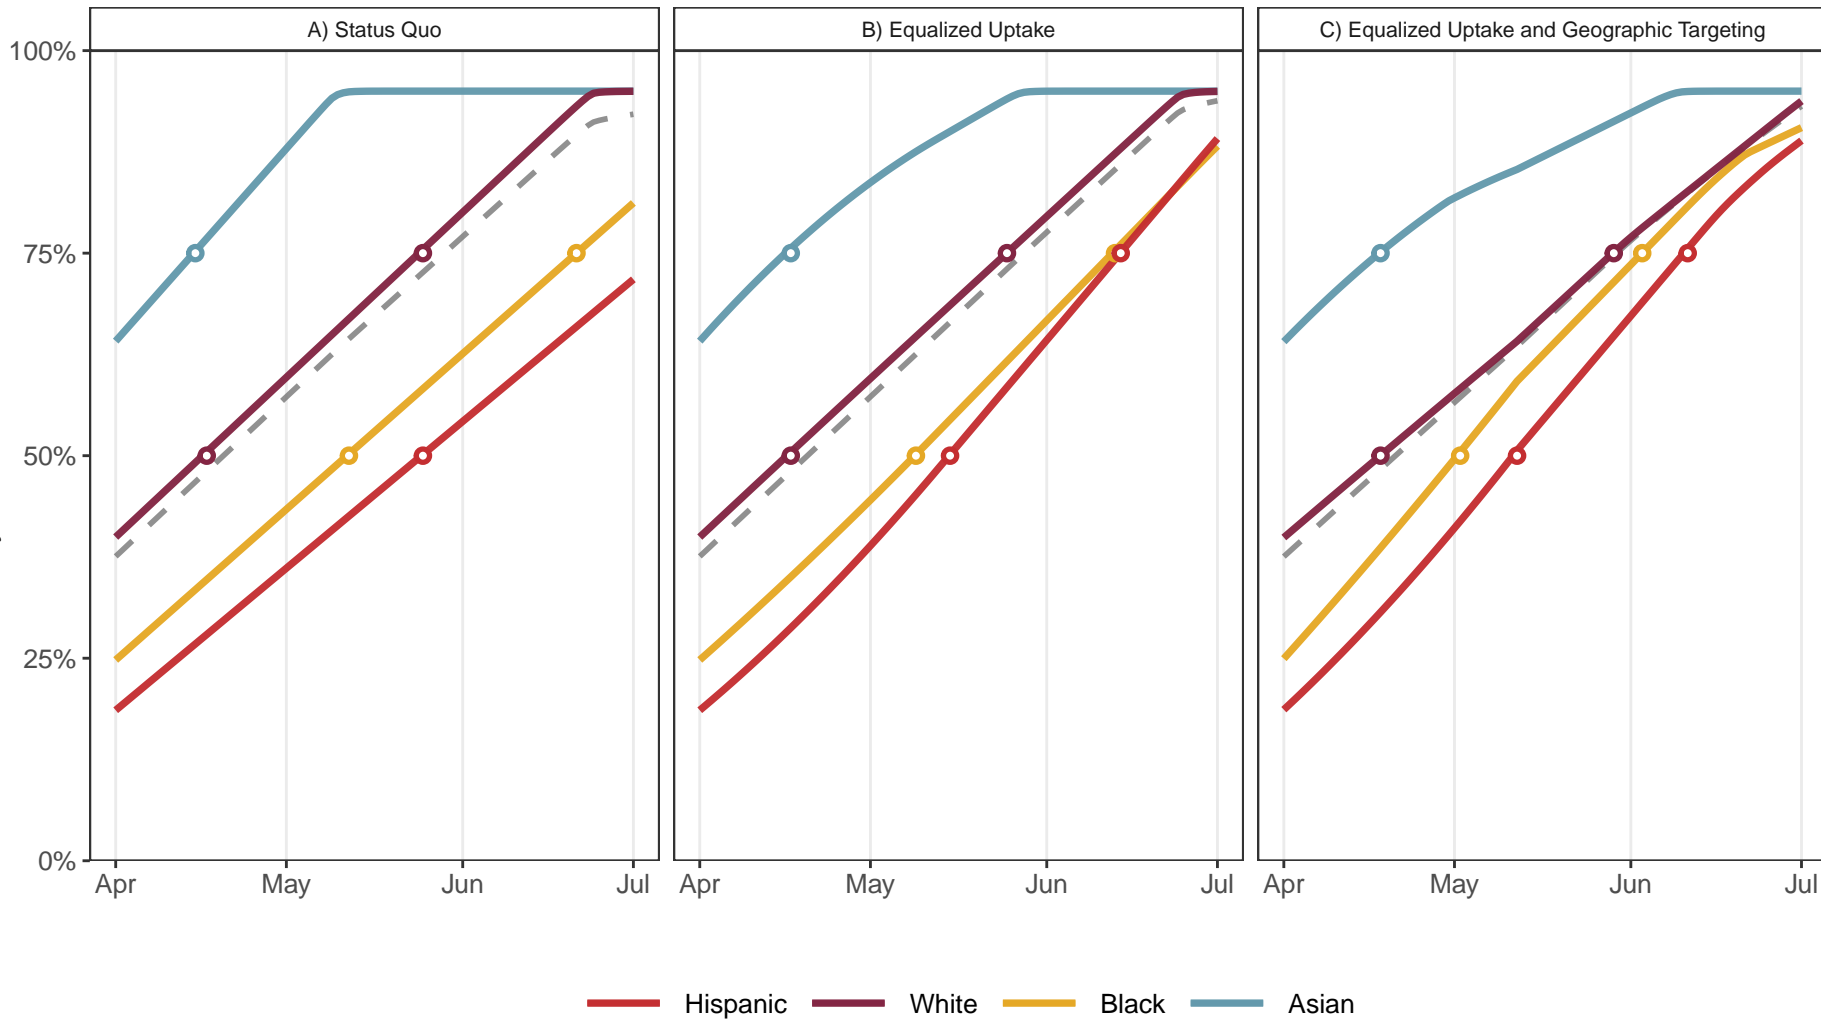

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Massachusetts population aged 16 years and older

# Michigan

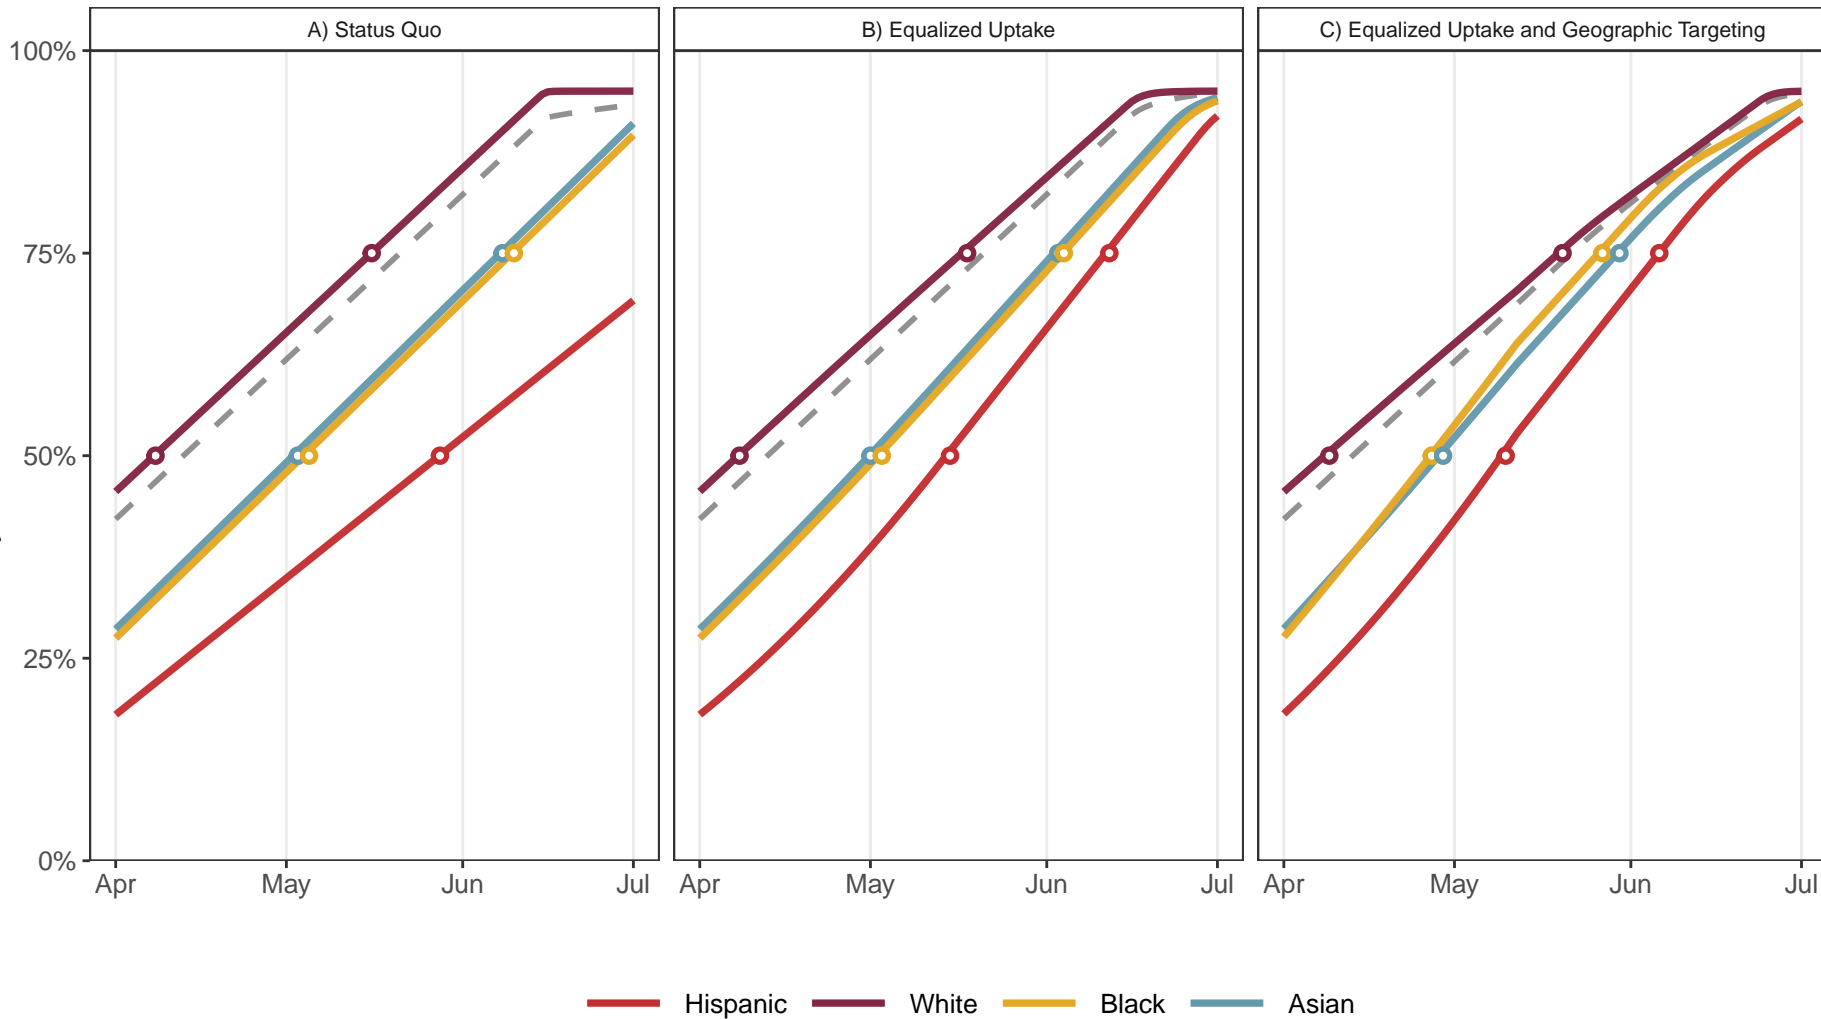

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Michigan population aged 16 years and older

# Minnesota

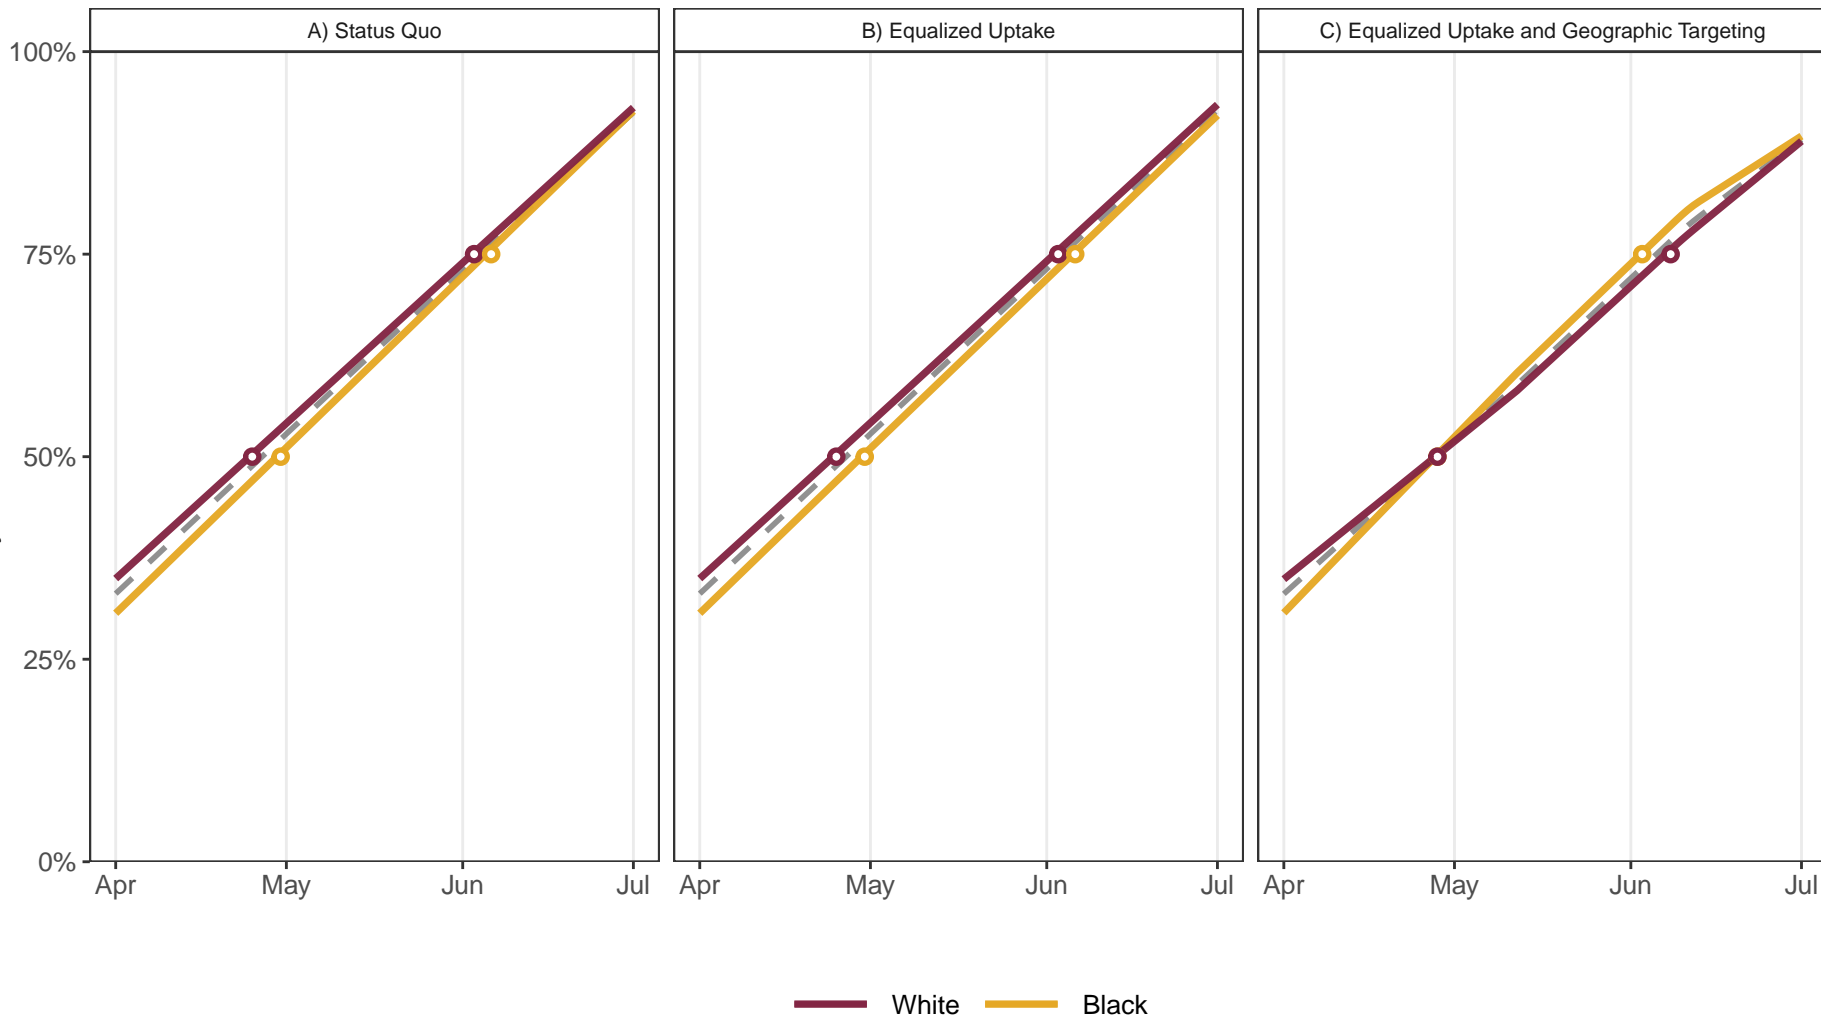

Coverage of one or more doses among population 16 years and older

# Mississippi

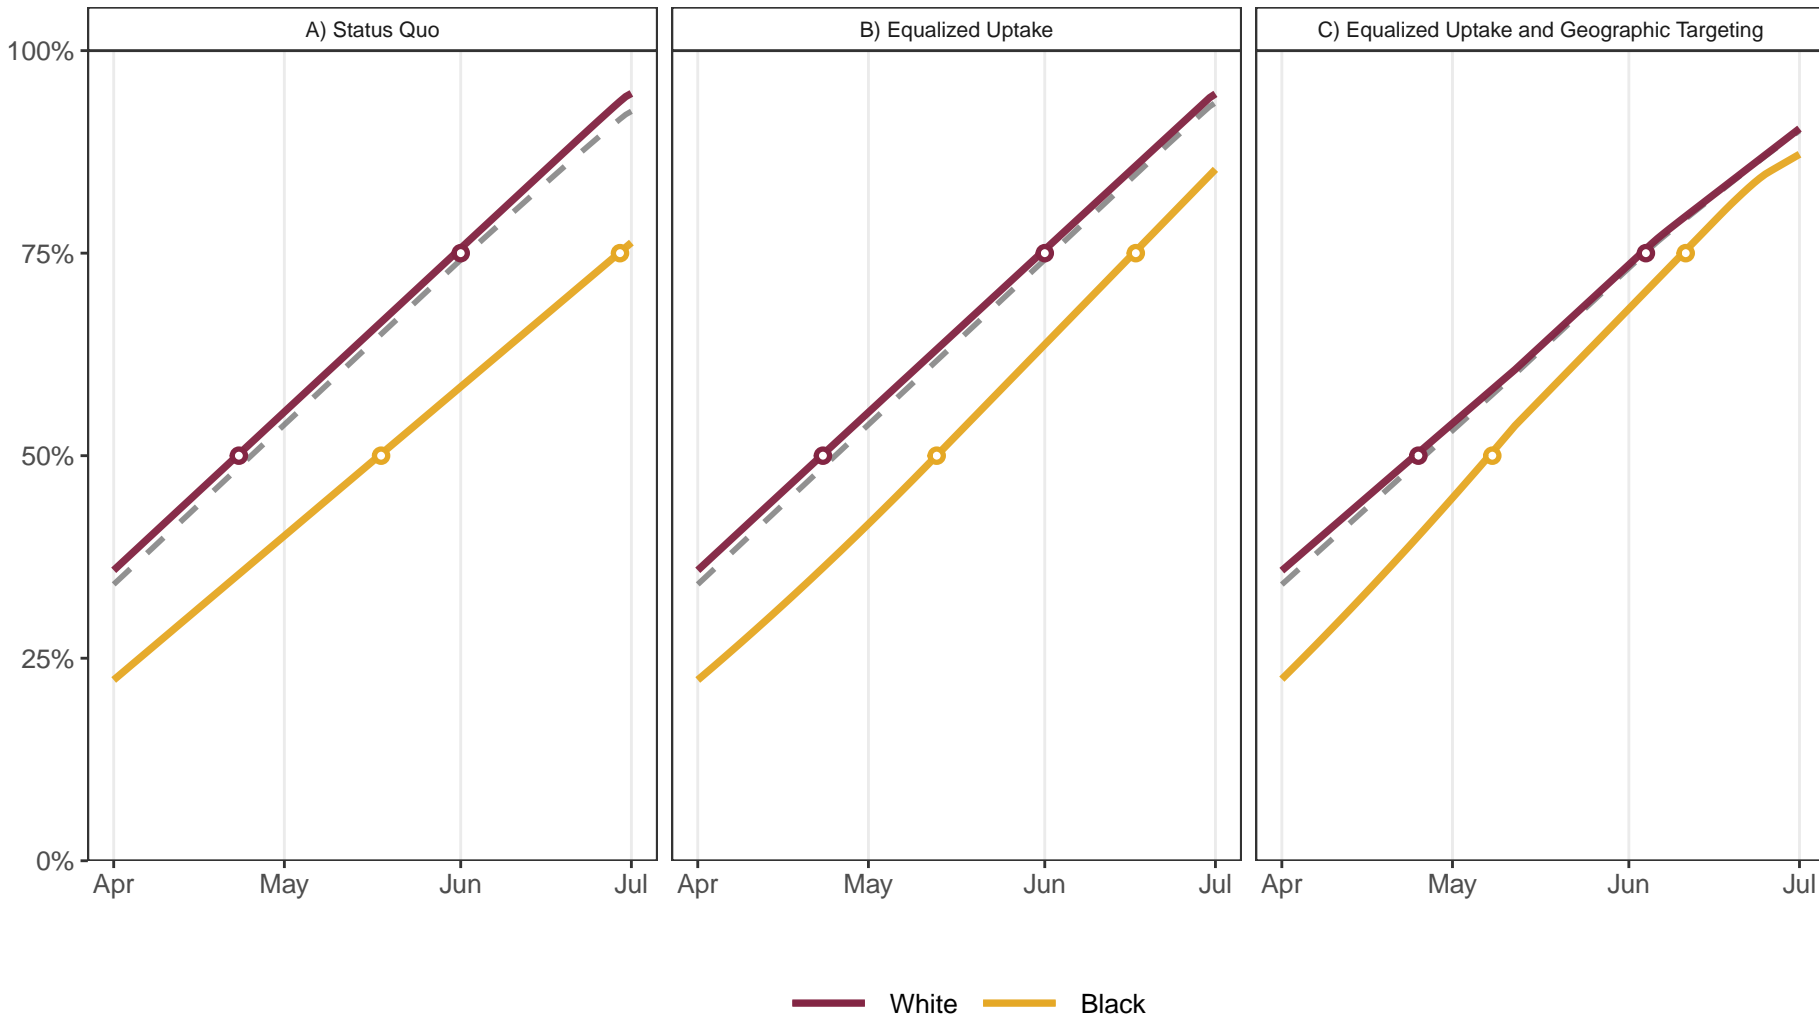

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Mississippi population aged 16 years and older

# Missouri

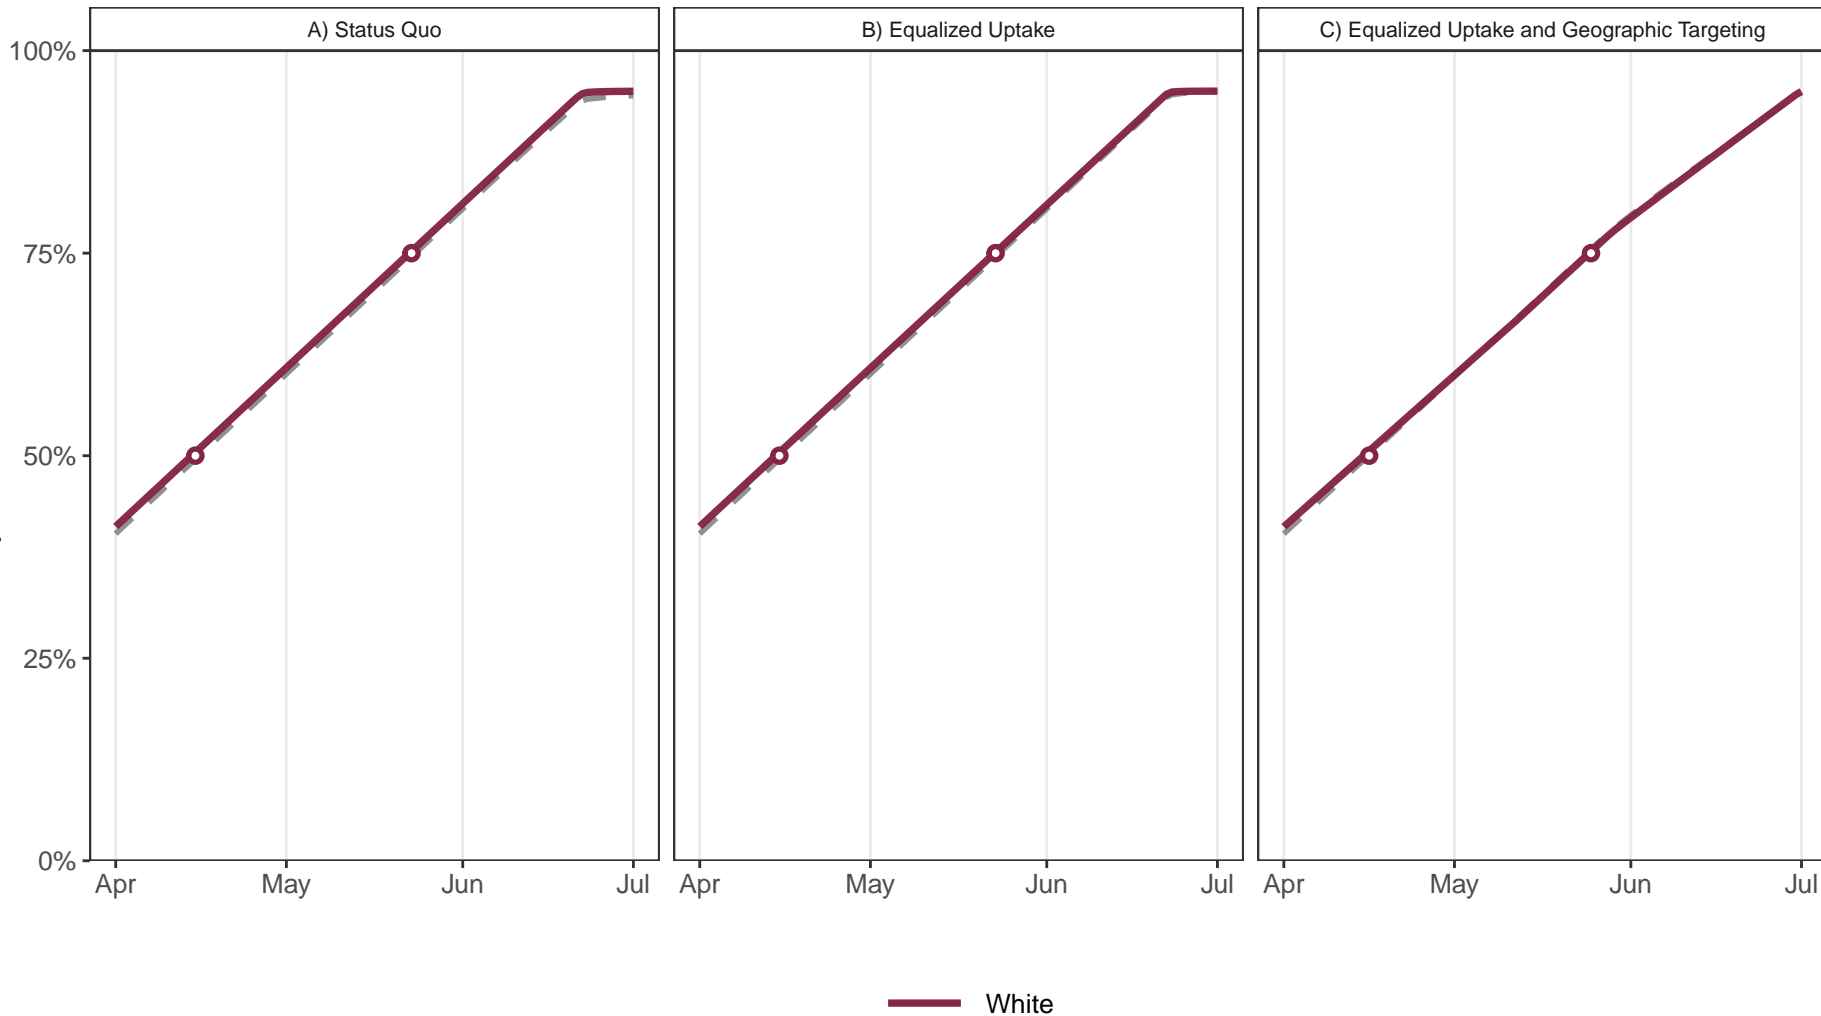

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Missouri population aged 16 years and older

# Montana

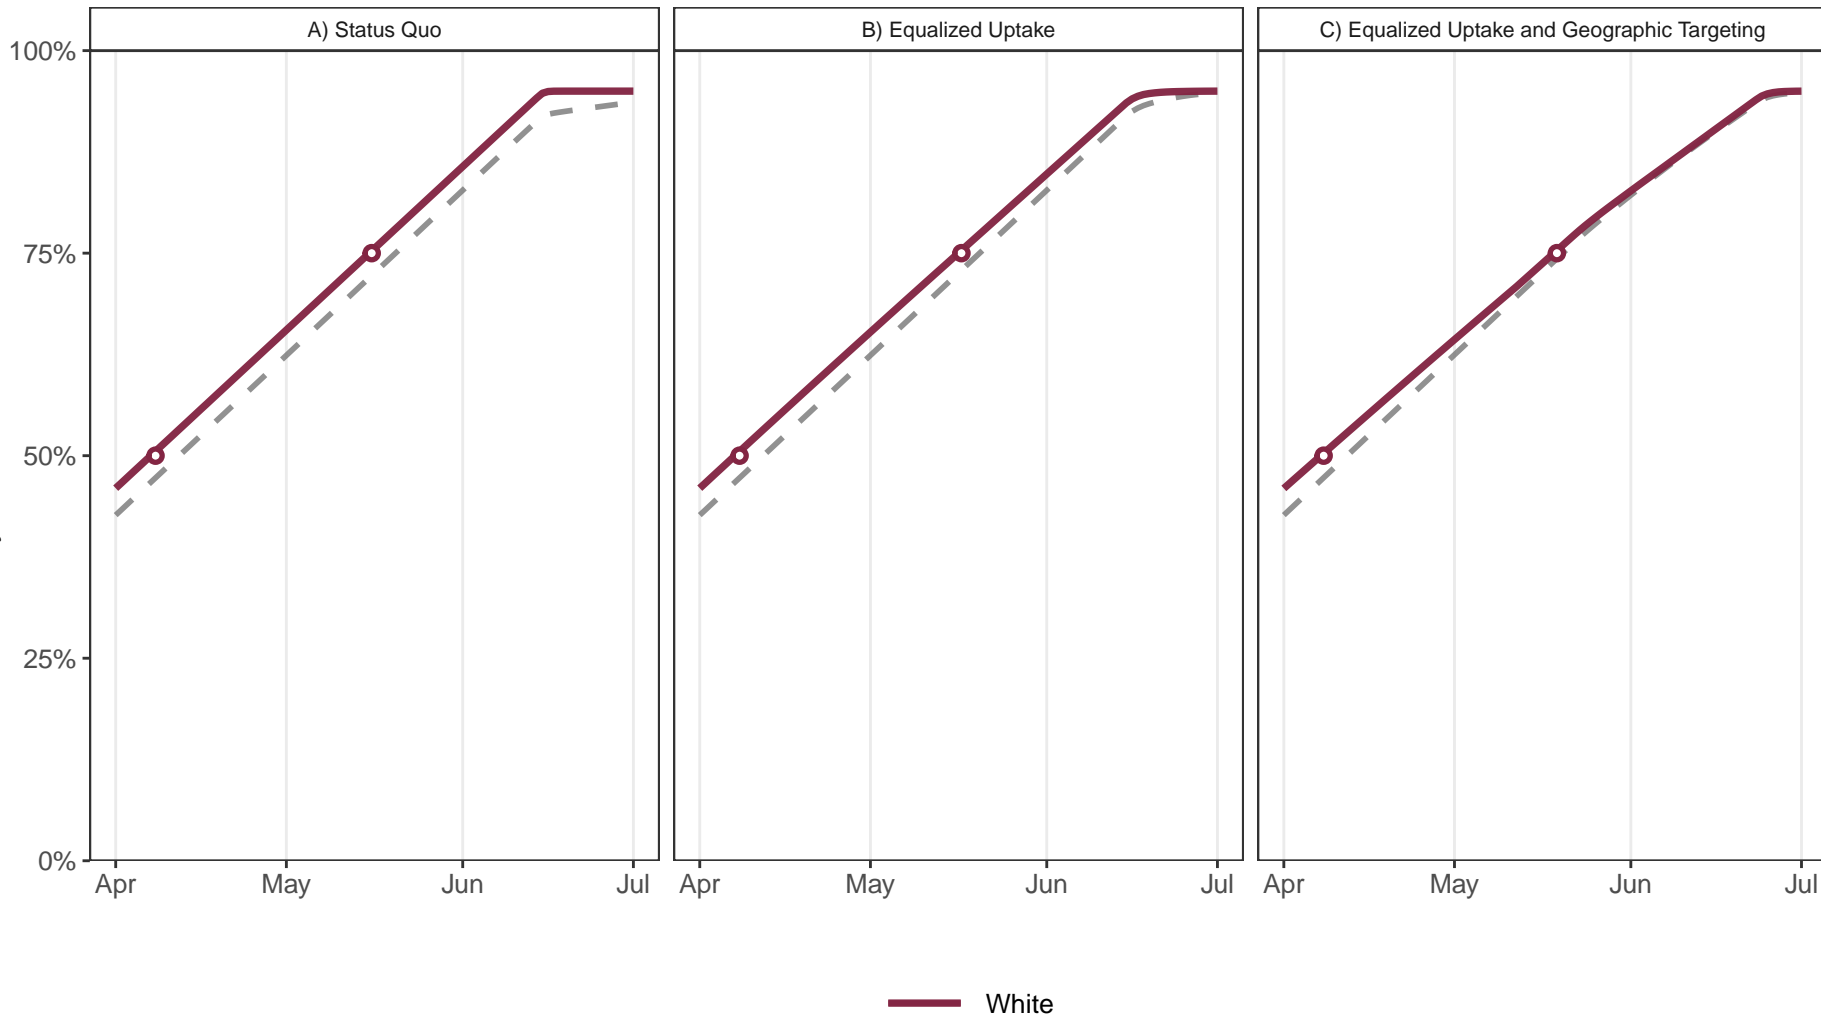

Coverage of one or more doses among population  
16 years and older

Dashed line shows overall coverage among the Montana population aged 16 years and older

# Nebraska

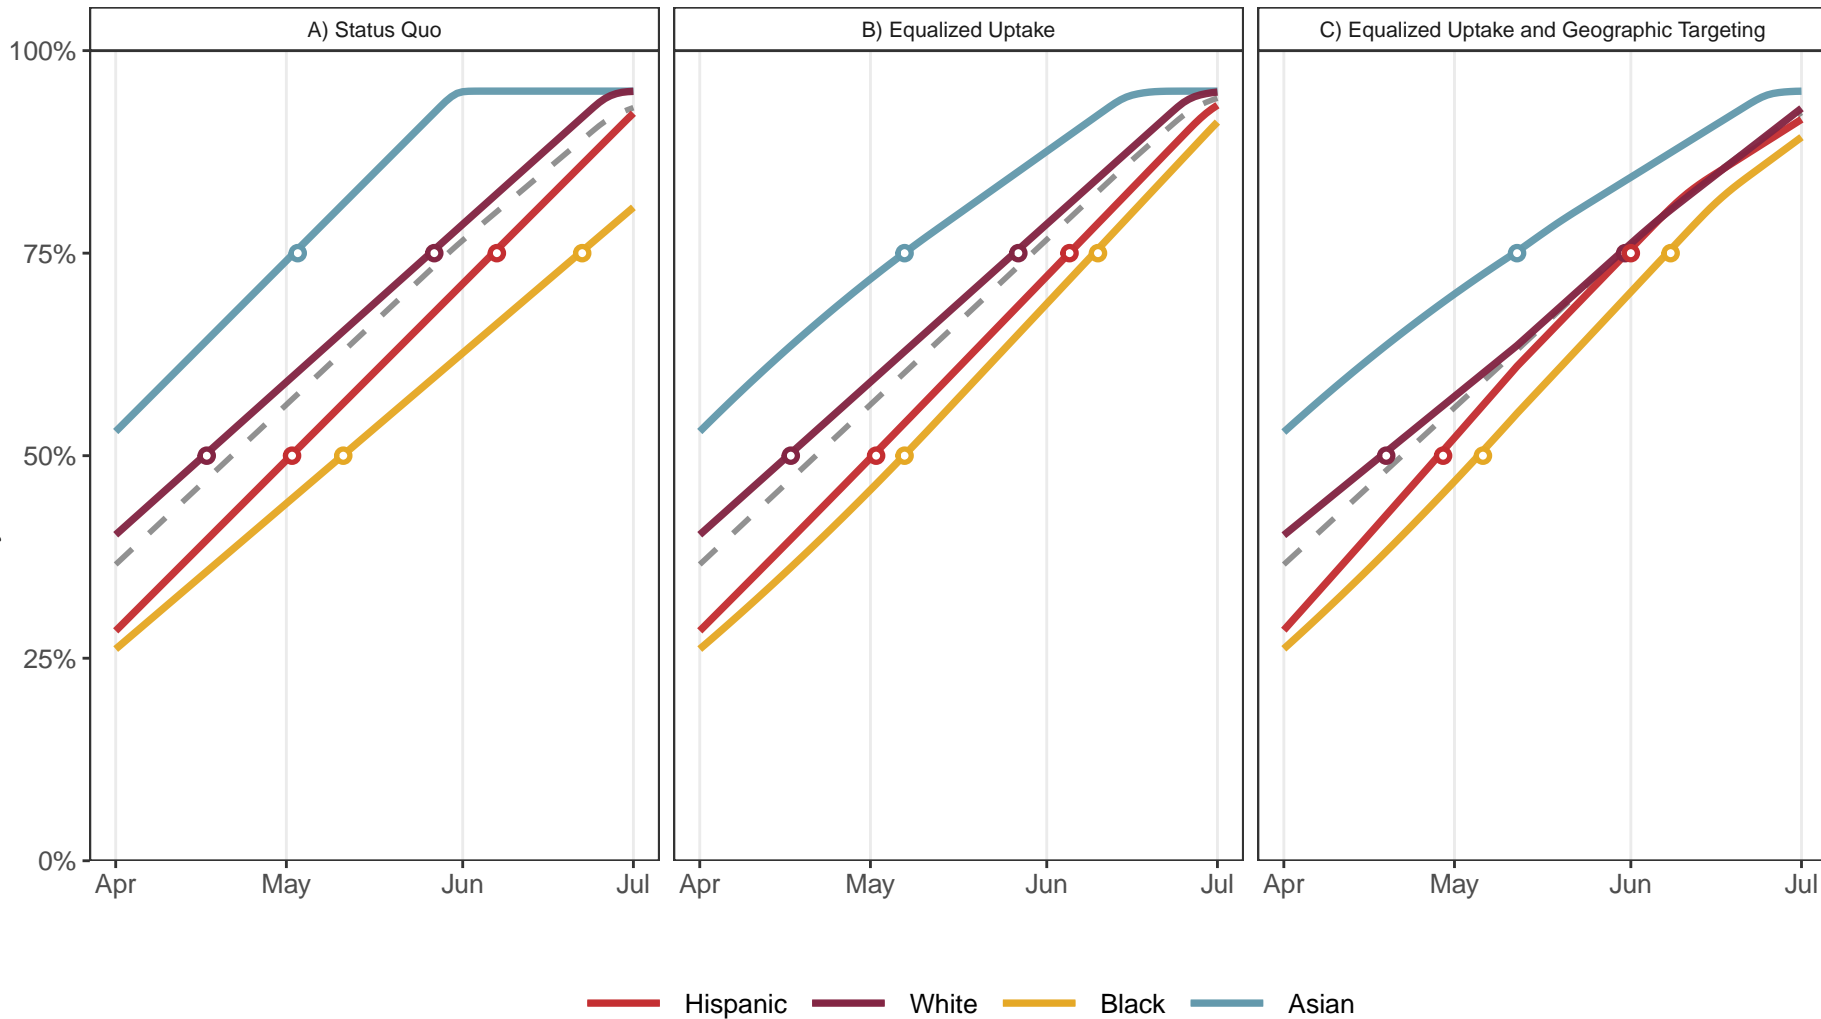

Coverage of one or more doses among population  
16 years and older

Dashed line shows overall coverage among the Nebraska population aged 16 years and older

# Nevada

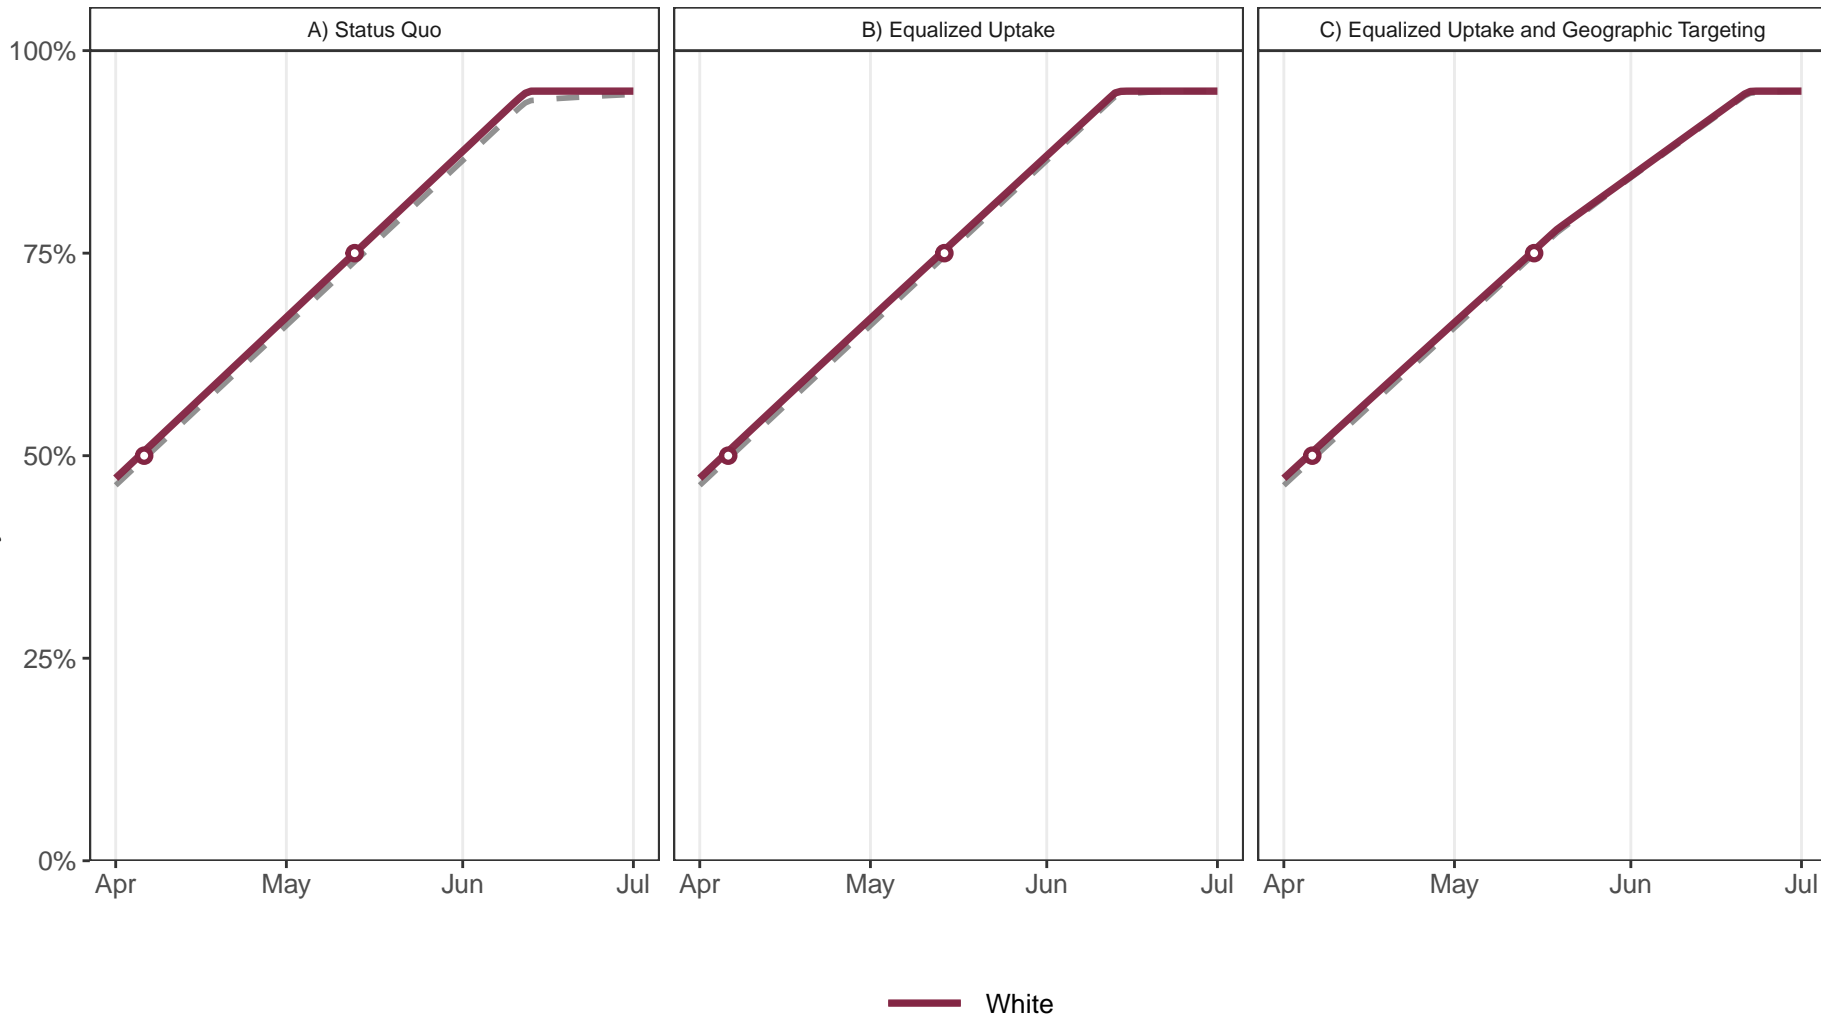

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Nevada population aged 16 years and older

# New Hampshire

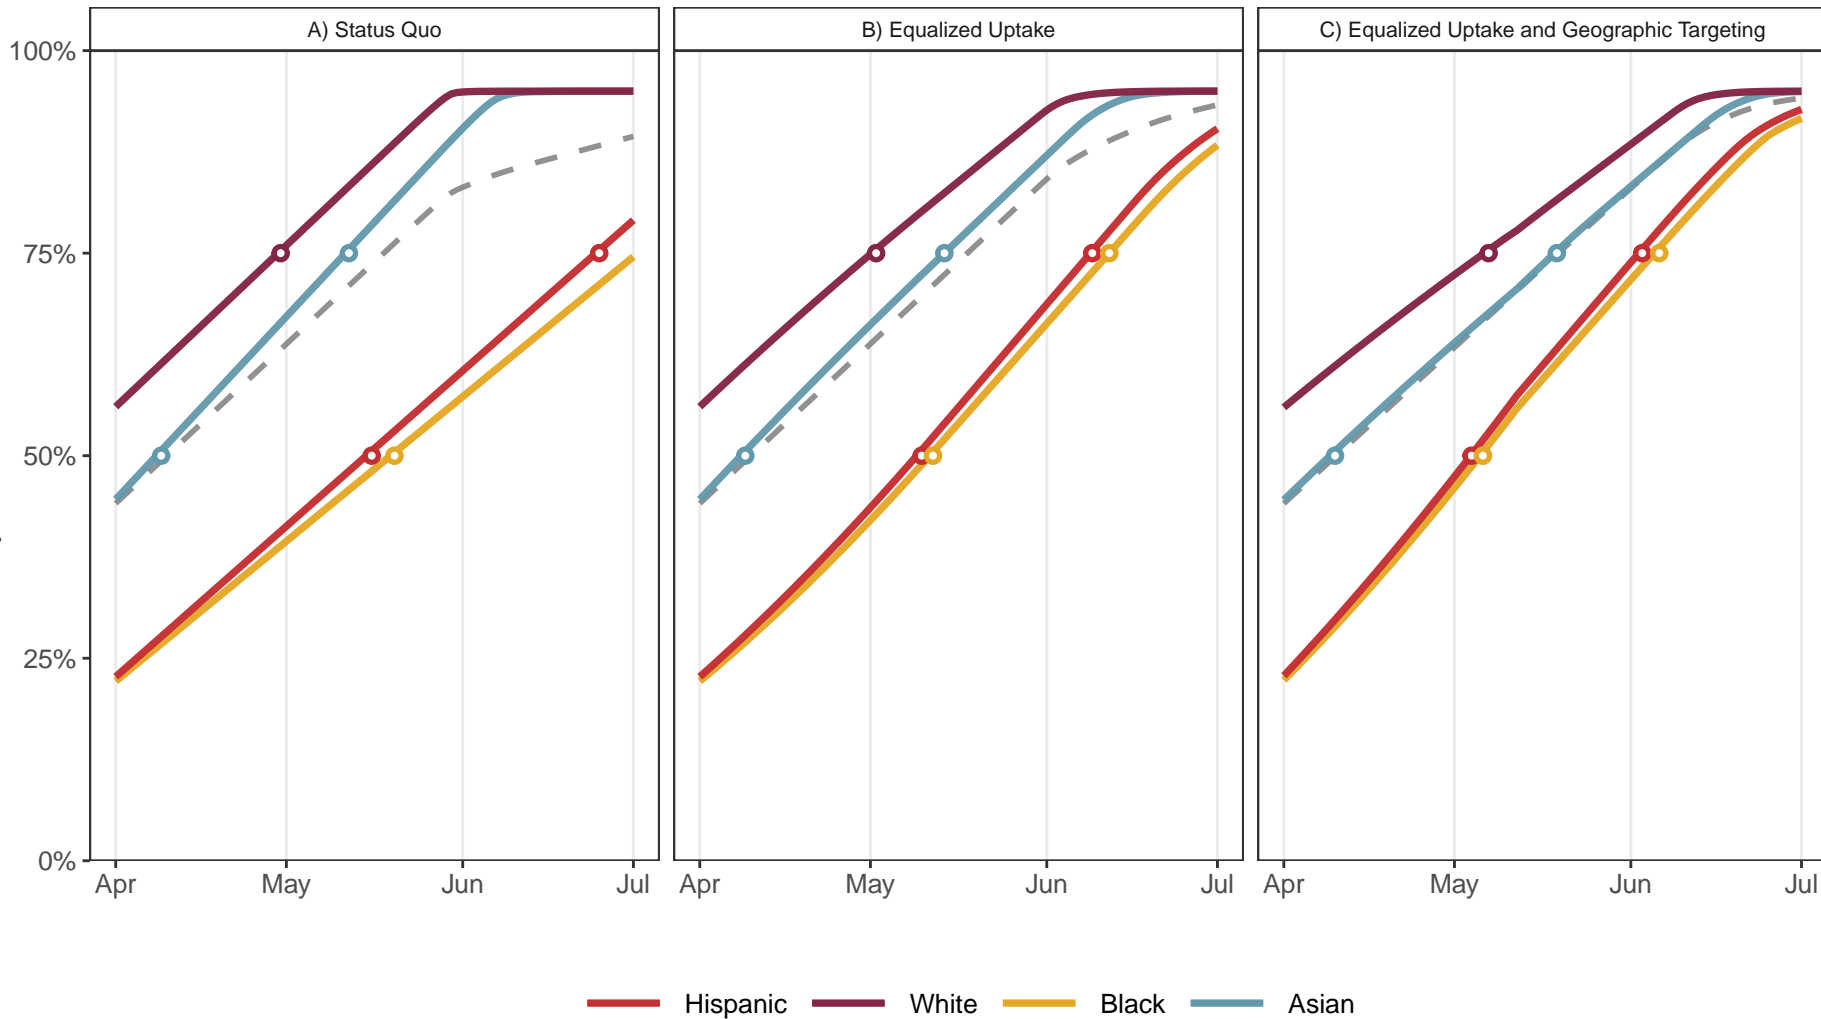

Coverage of one or more doses among population  
16 years and older

Dashed line shows overall coverage among the New Hampshire population aged 16 years and older

# New Jersey

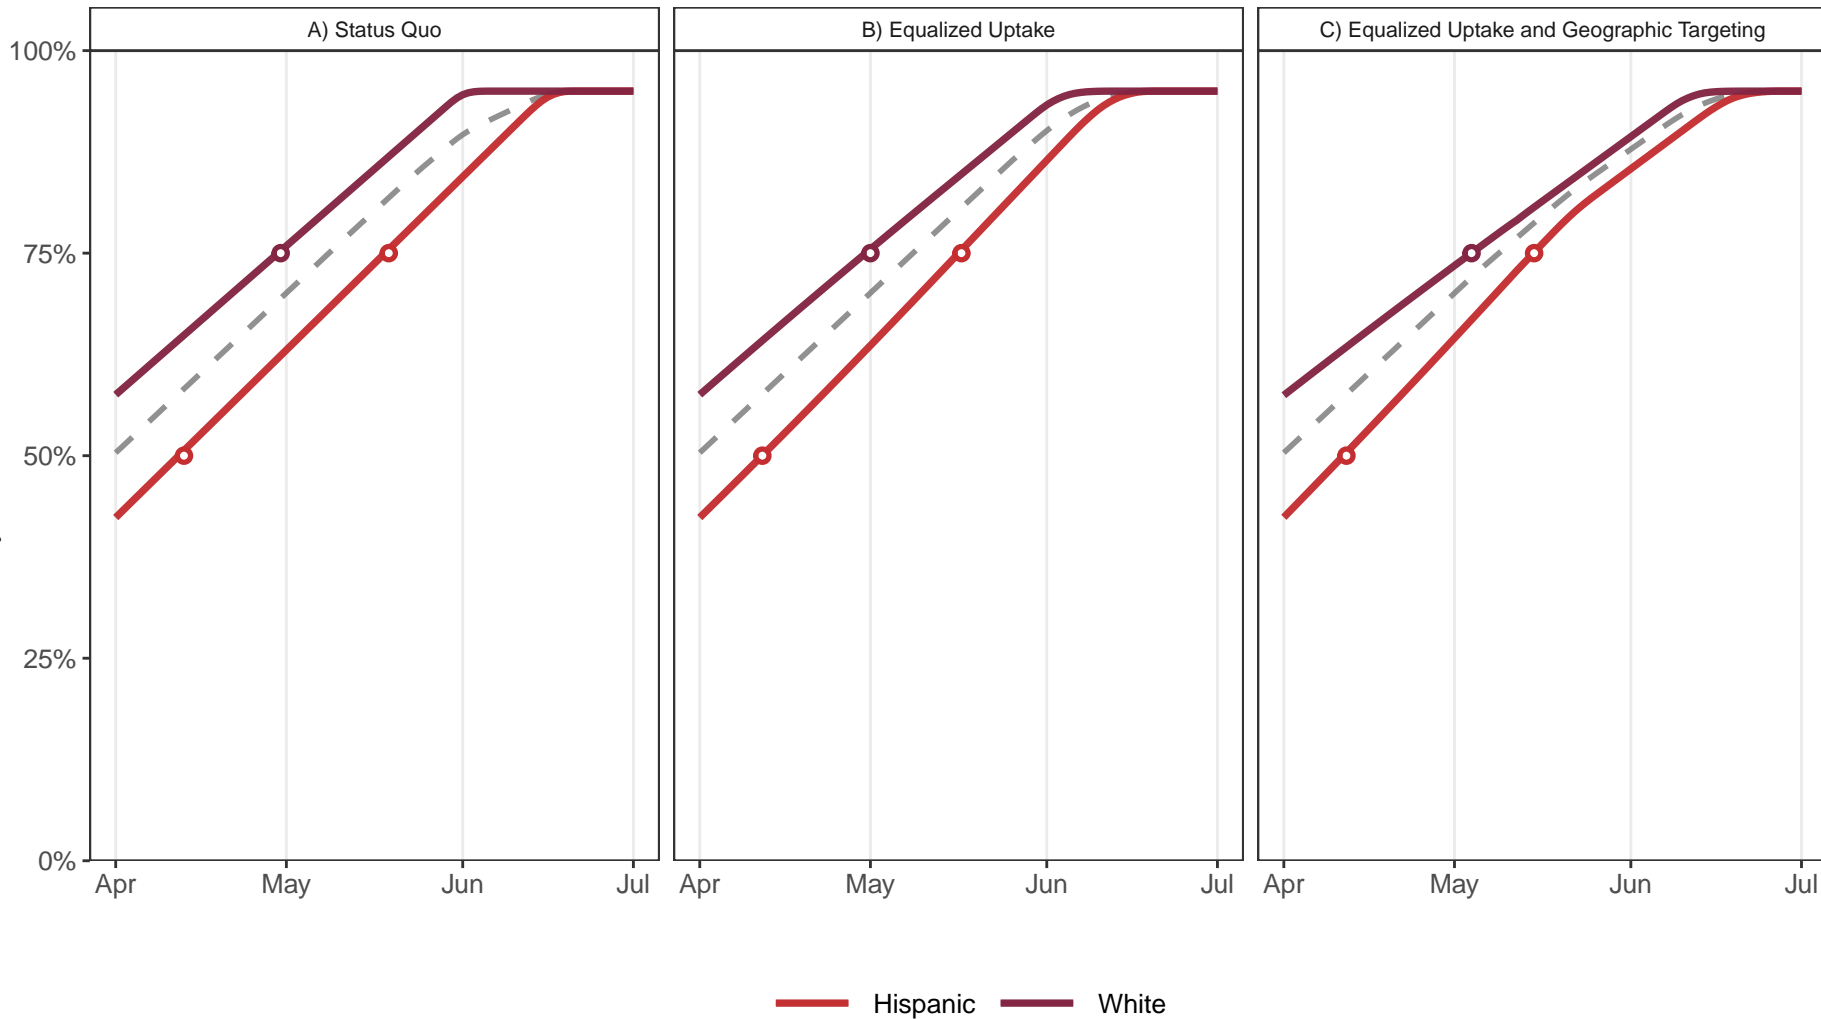

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the New Jersey population aged 16 years and older

# New Mexico

Coverage of one or more doses among population  
16 years and older

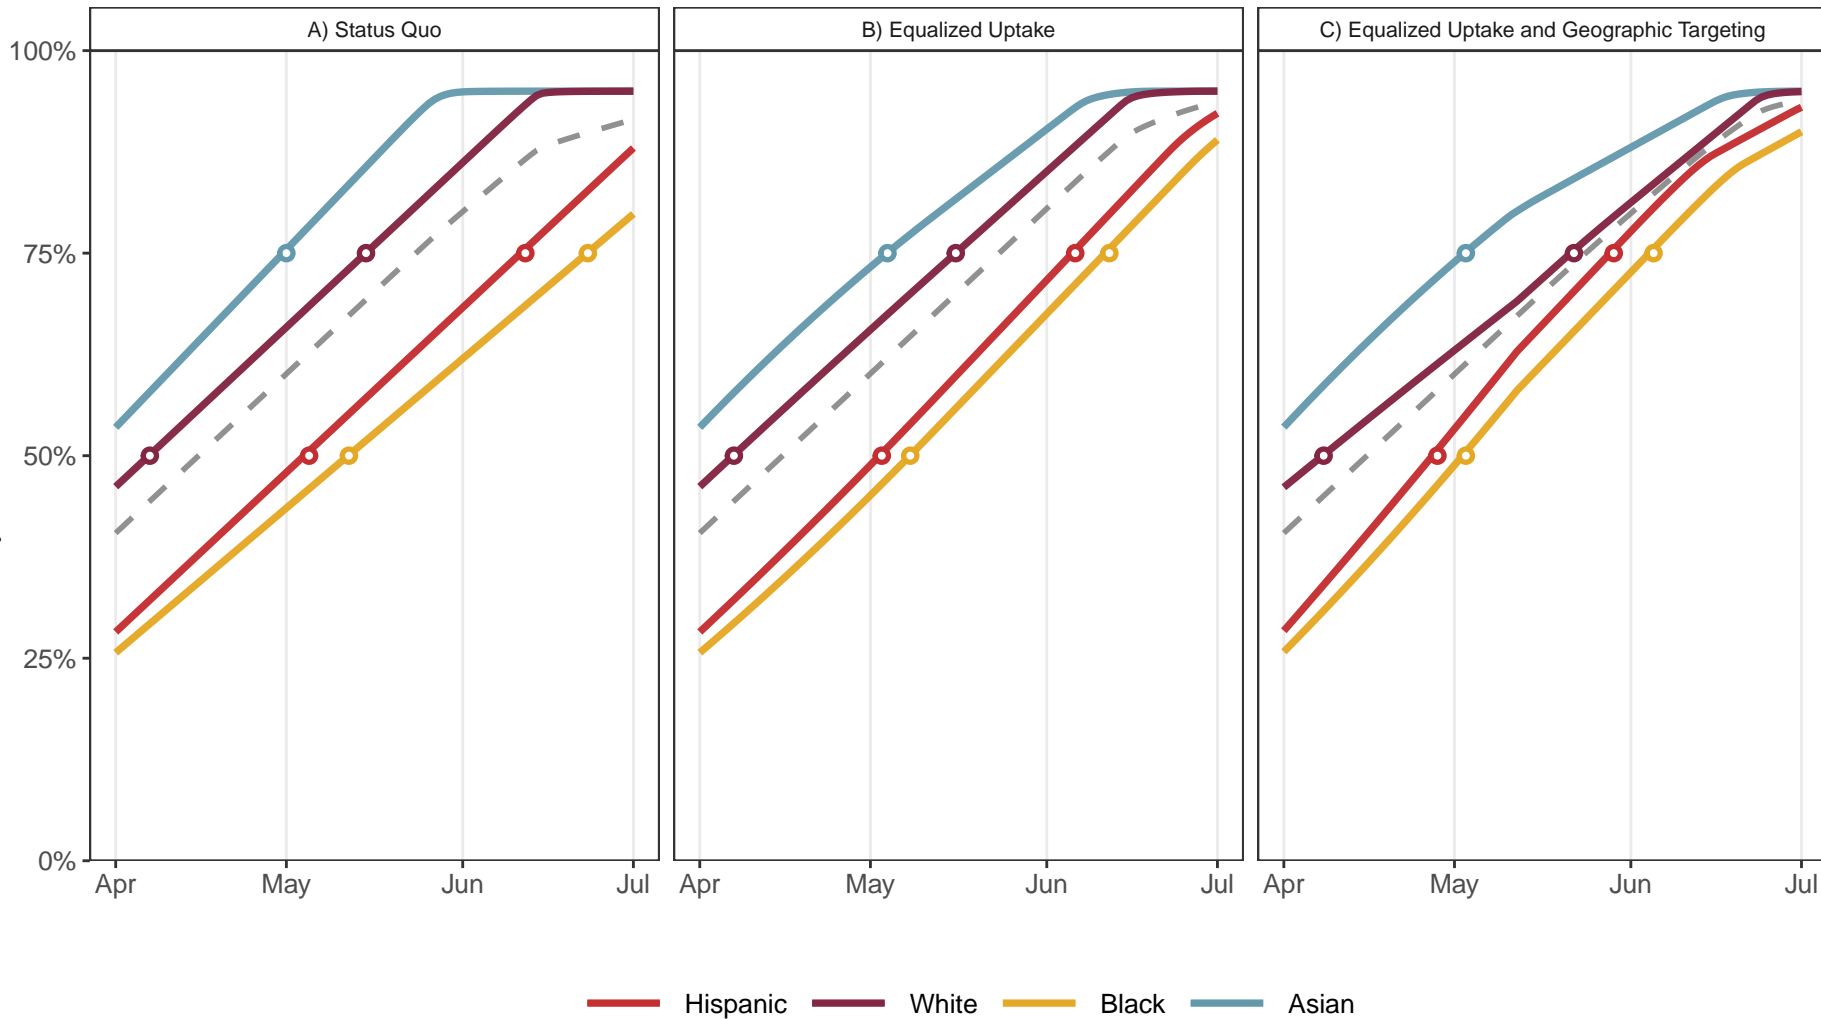

Dashed line shows overall coverage among the New Mexico population aged 16 years and older

# New York

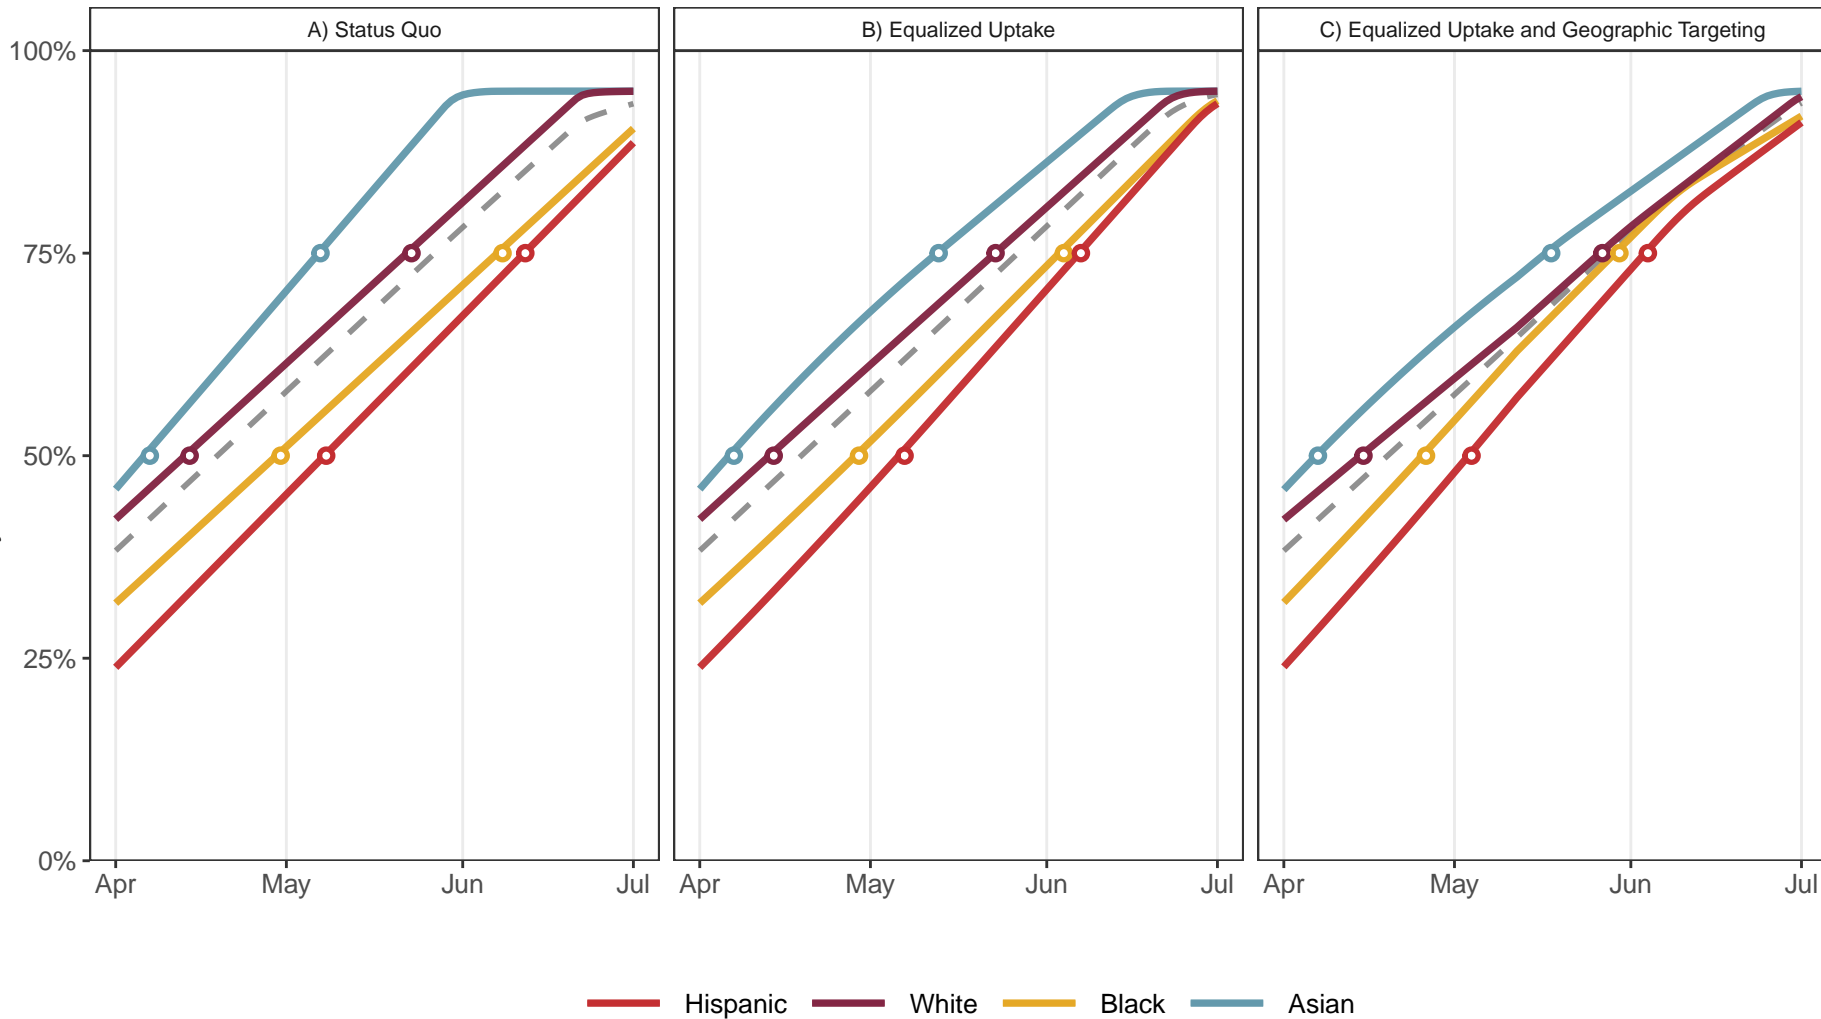

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the New York population aged 16 years and older

# North Carolina

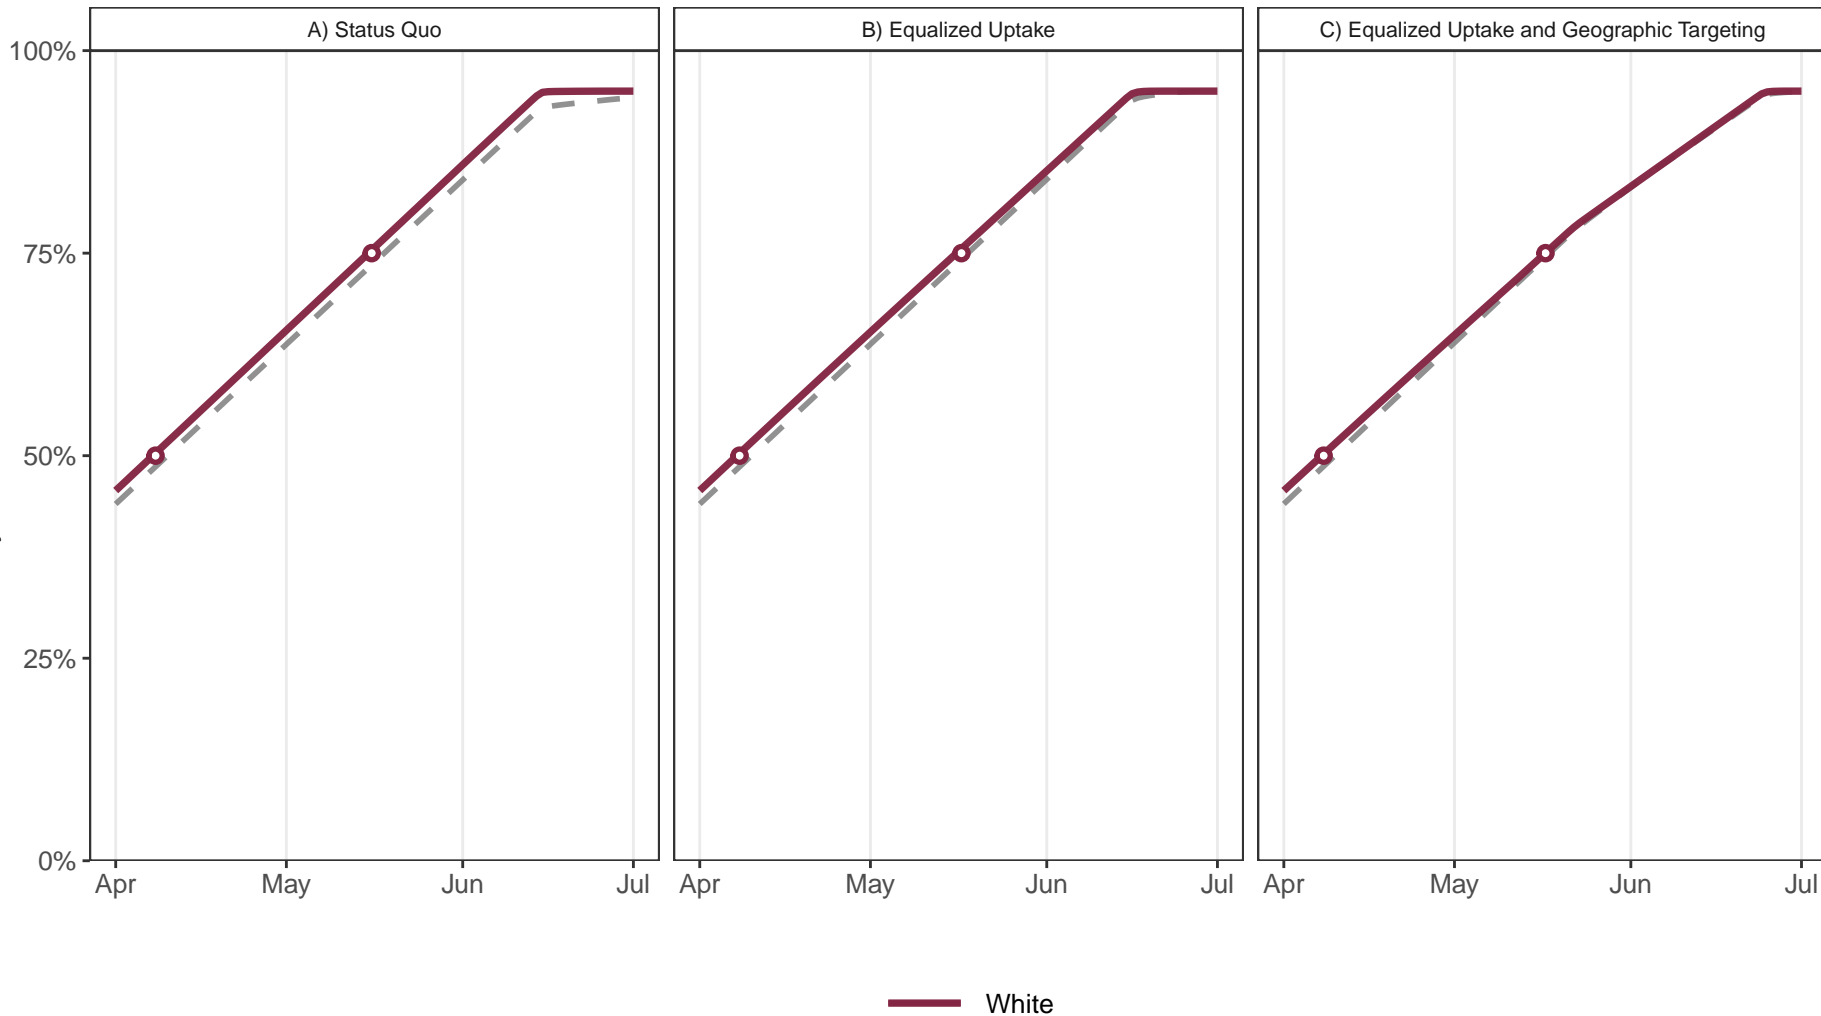

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the North Carolina population aged 16 years and older

# North Dakota

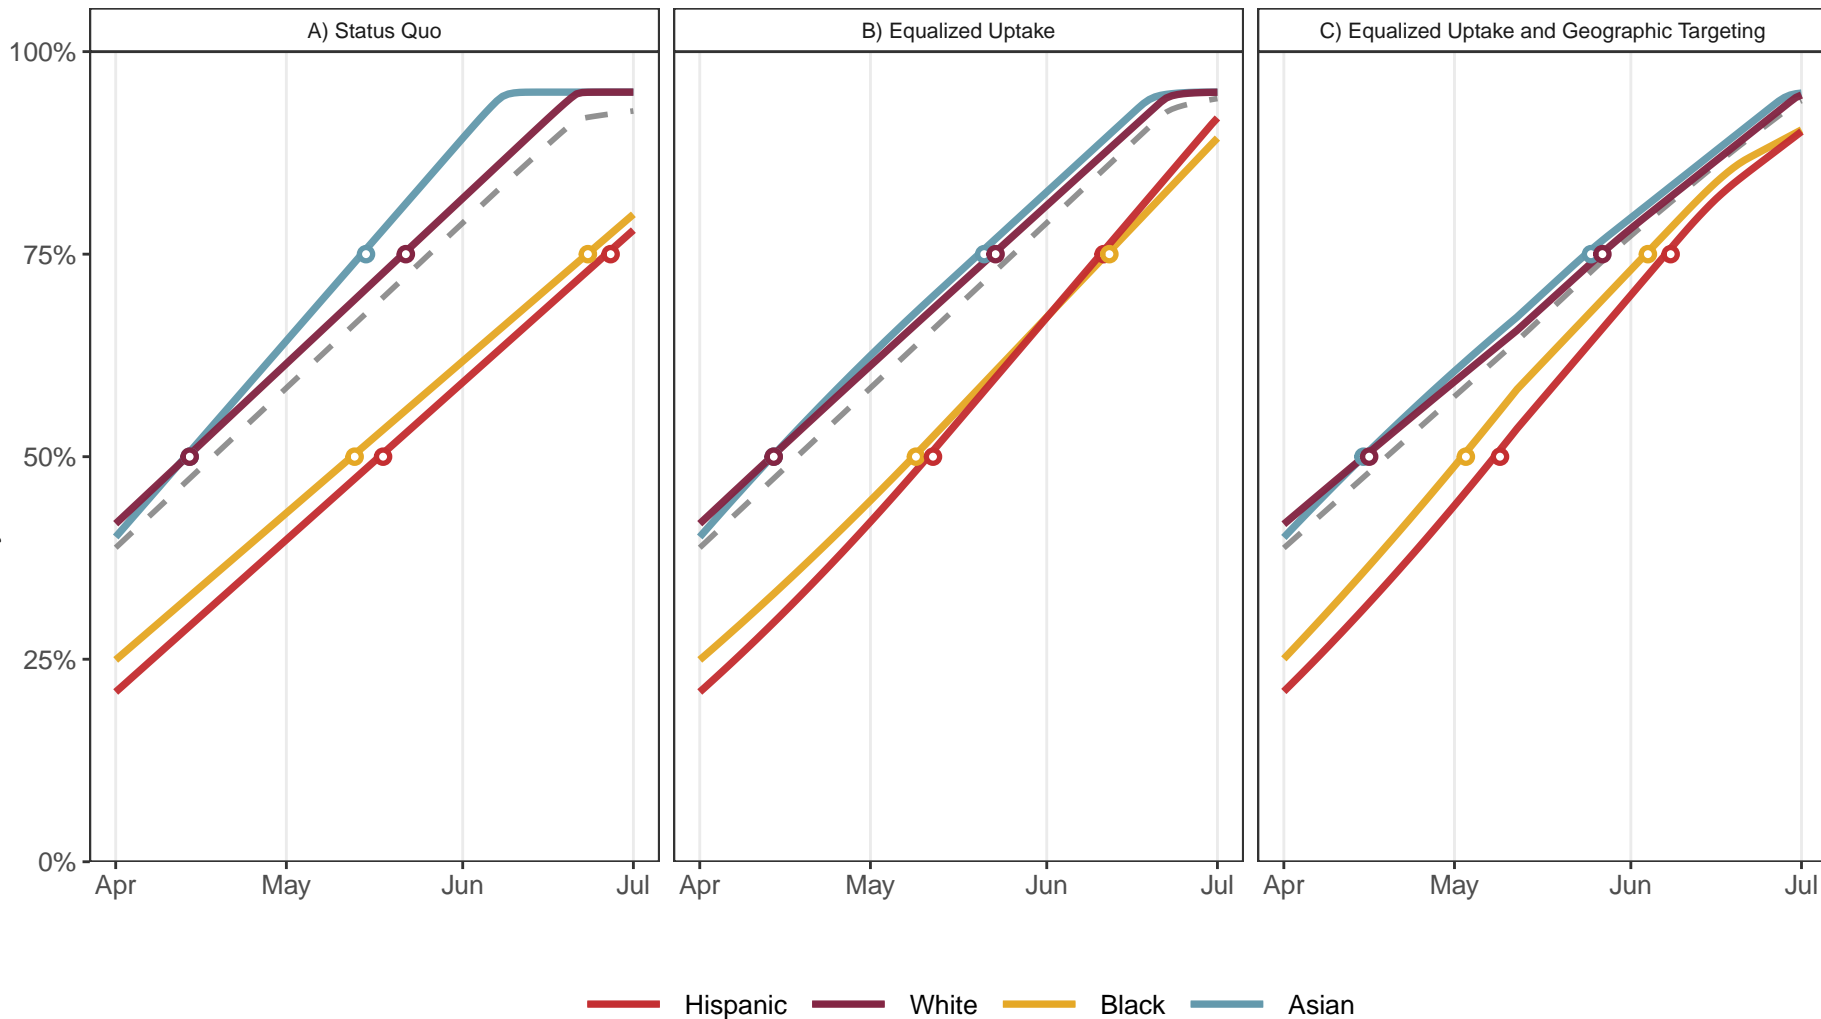

Coverage of one or more doses among population  
16 years and older

Dashed line shows overall coverage among the North Dakota population aged 16 years and older

# Ohio

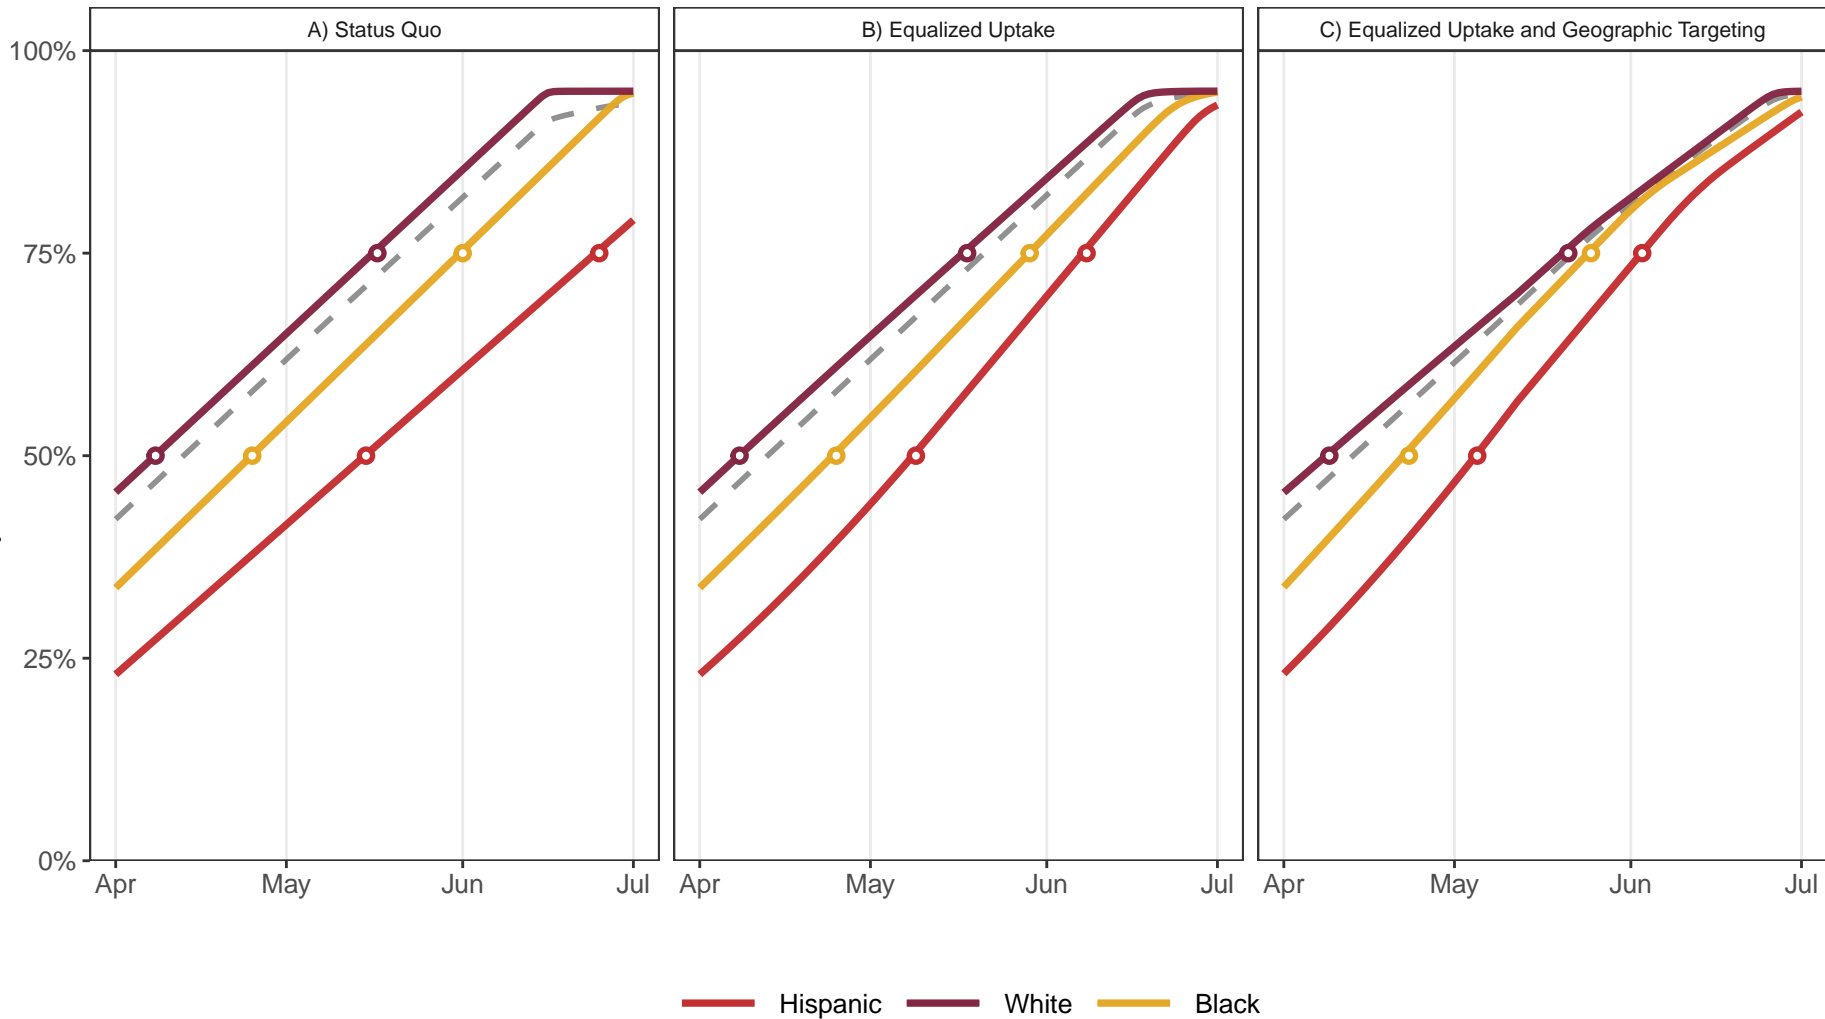

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Ohio population aged 16 years and older

# Oklahoma

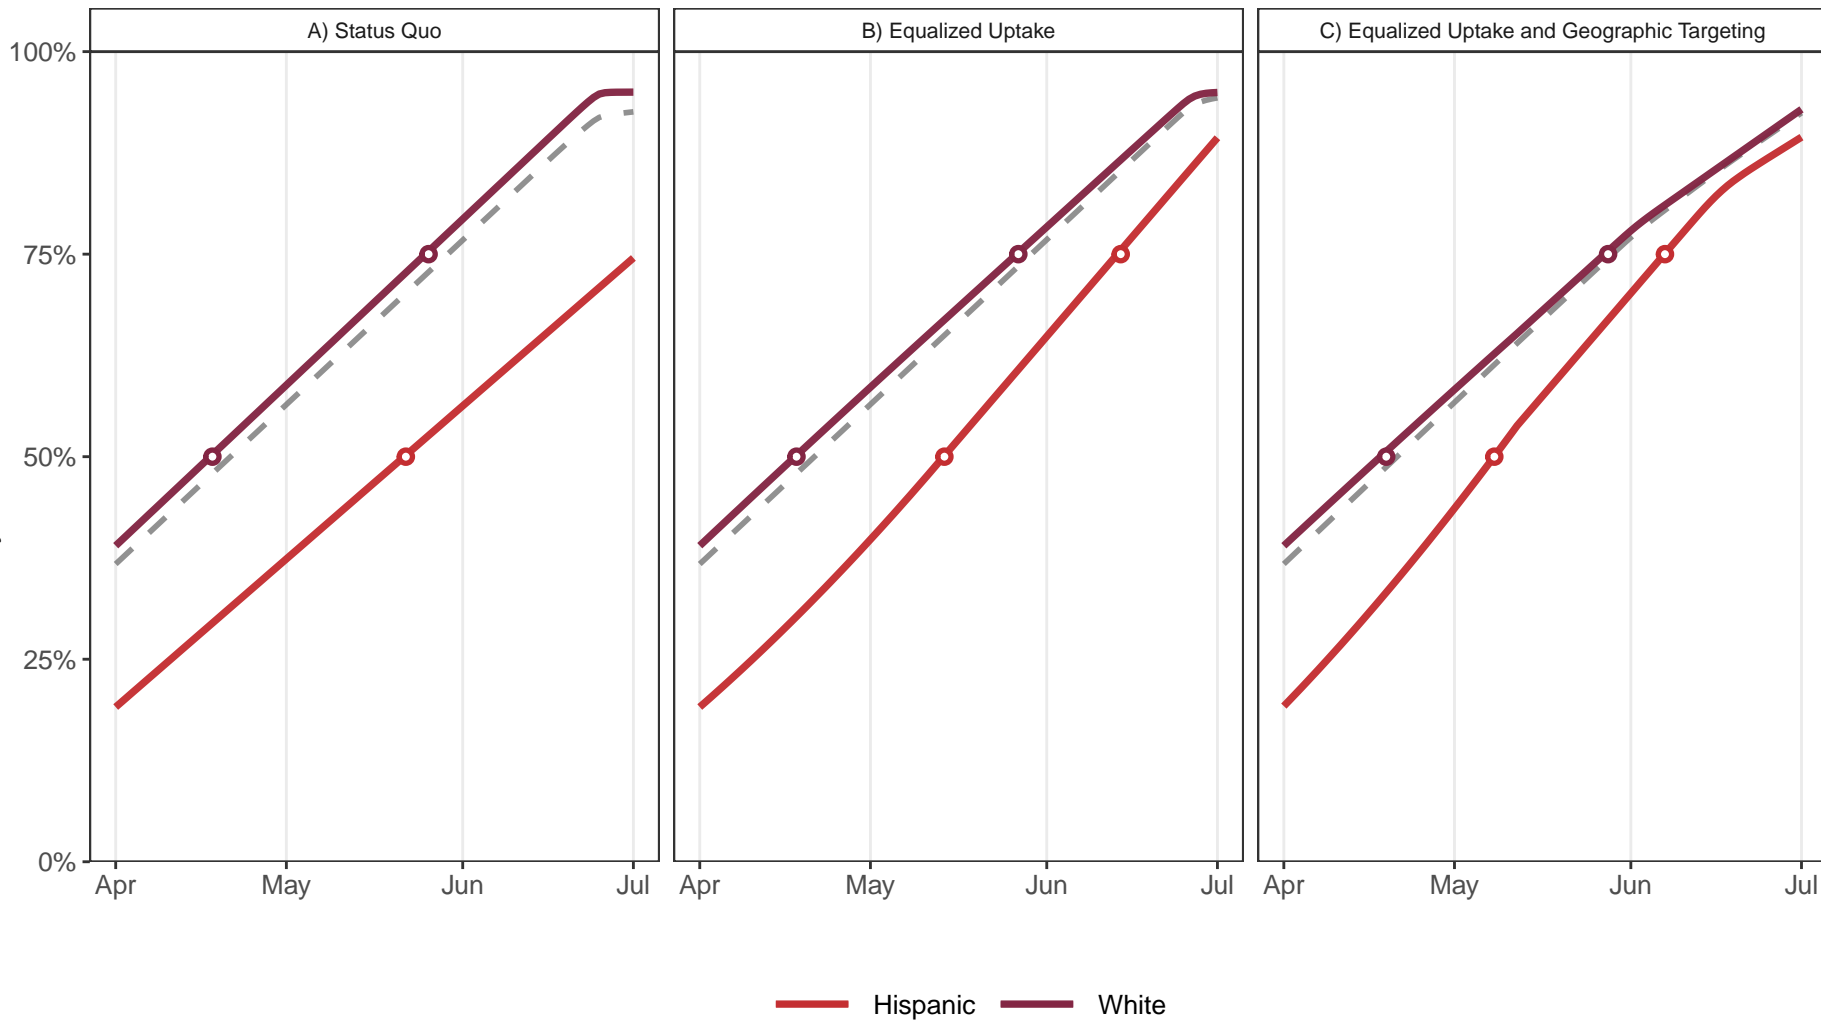

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Oklahoma population aged 16 years and older

# Oregon

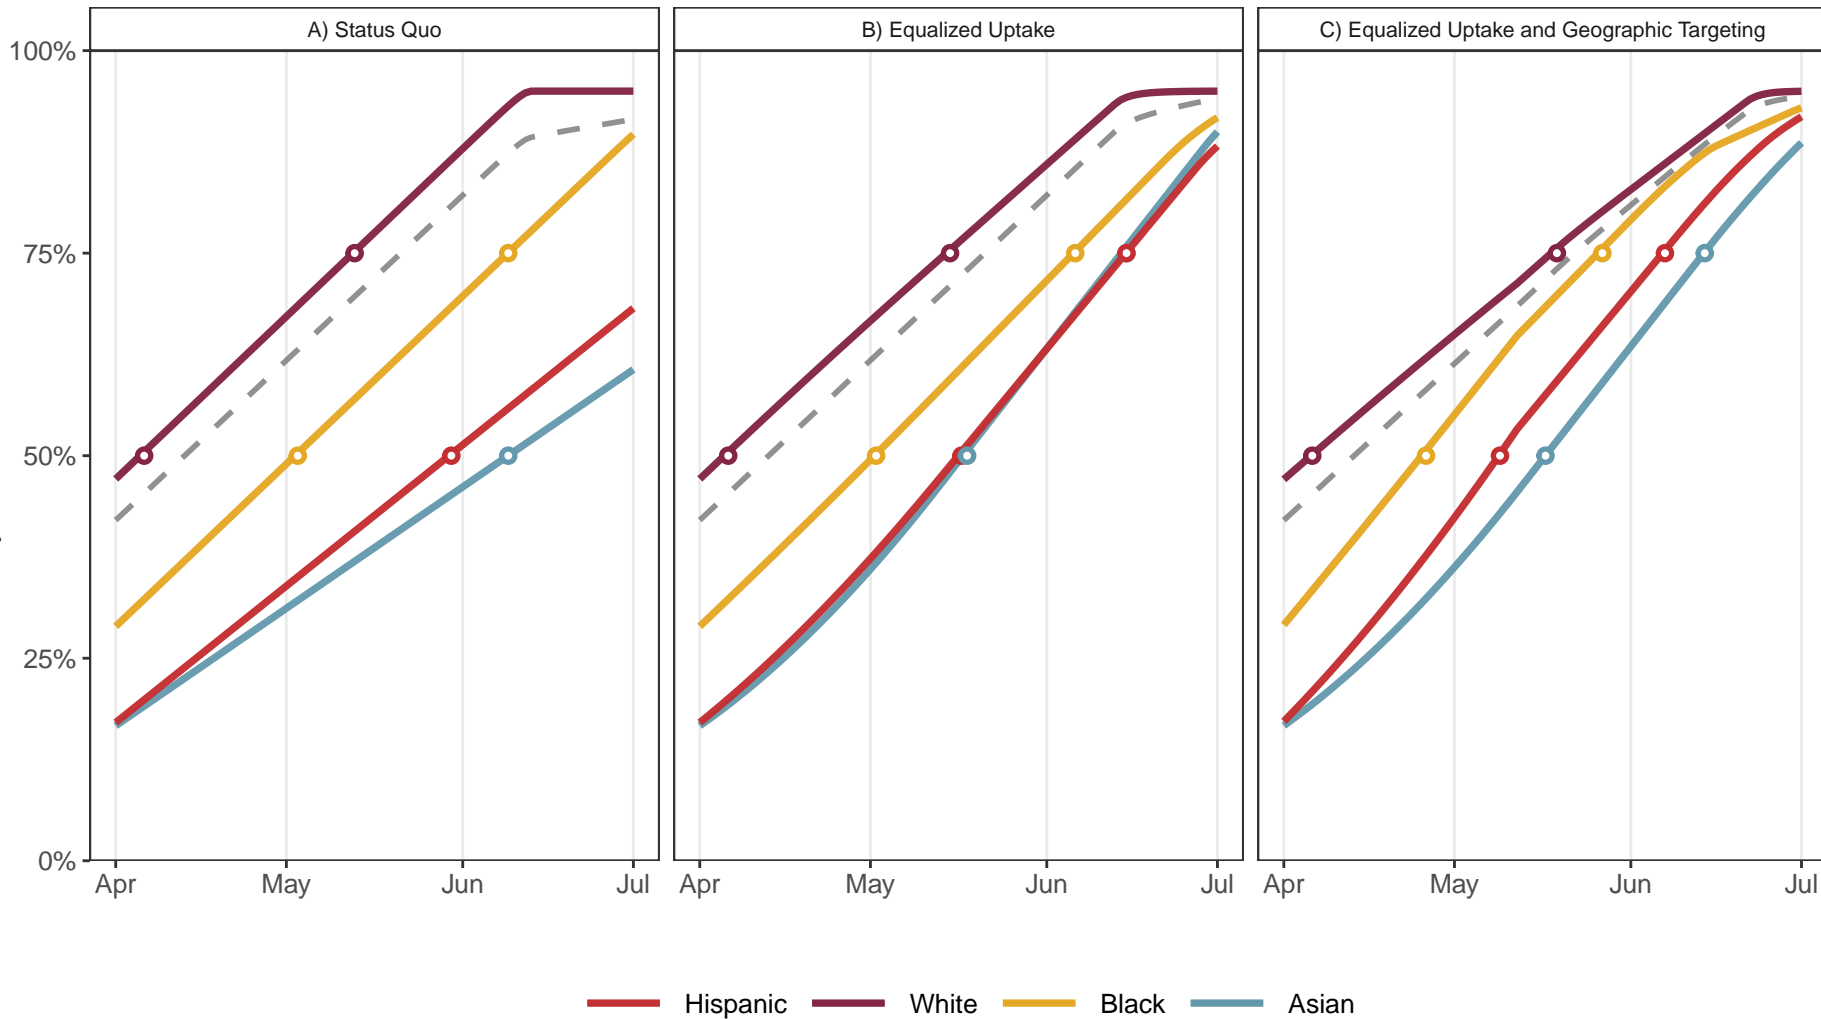

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Oregon population aged 16 years and older

# Pennsylvania

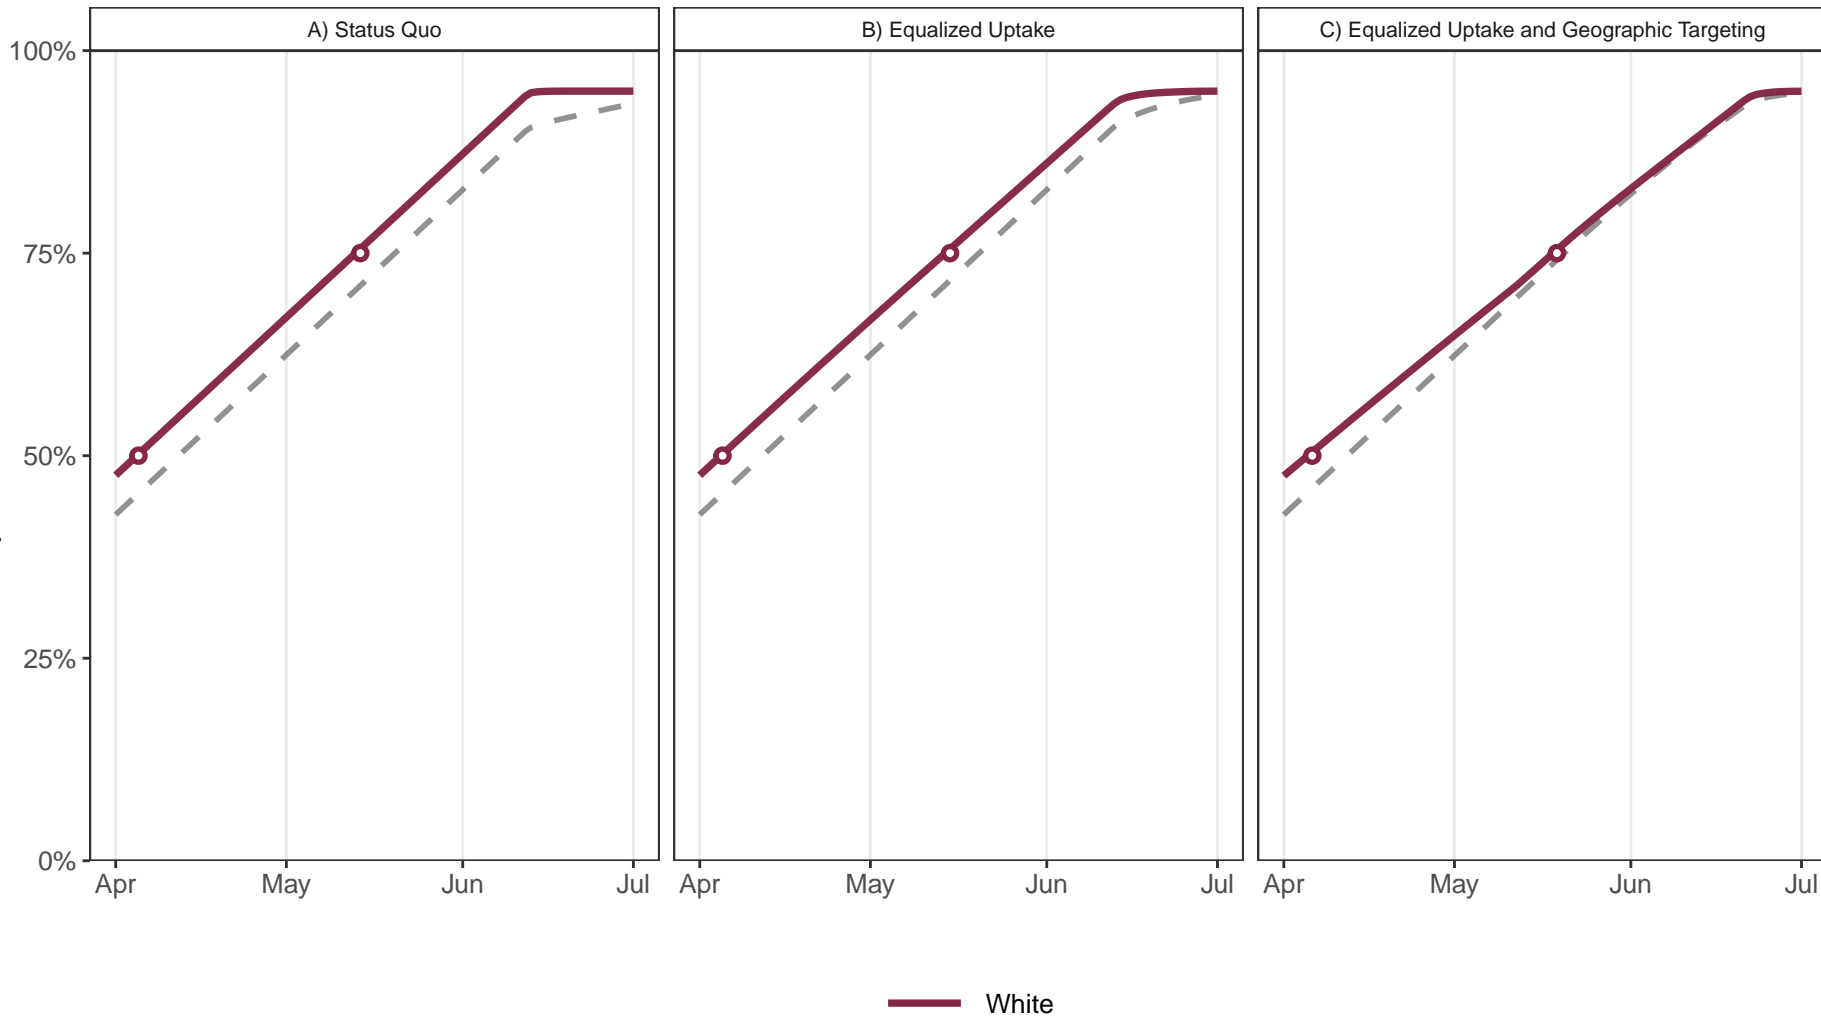

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Pennsylvania population aged 16 years and older

# Rhode Island

Coverage of one or more doses among population  
16 years and older

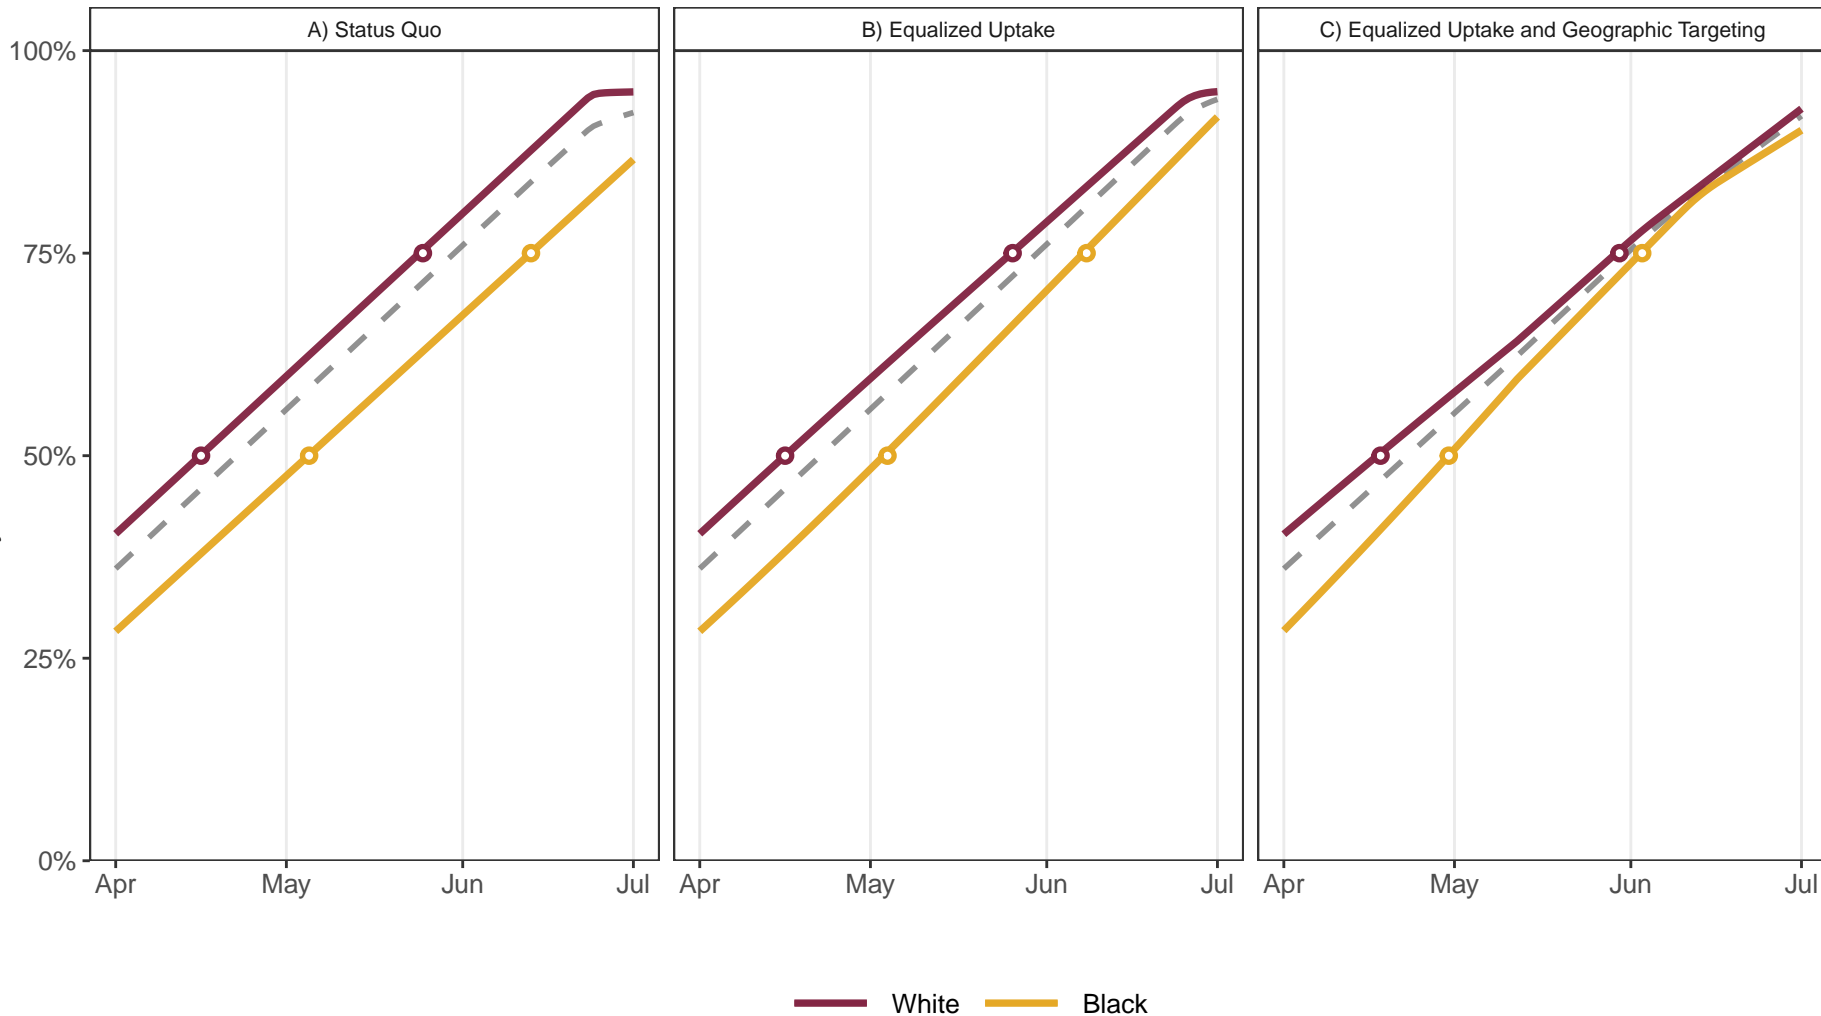

Dashed line shows overall coverage among the Rhode Island population aged 16 years and older

# South Carolina

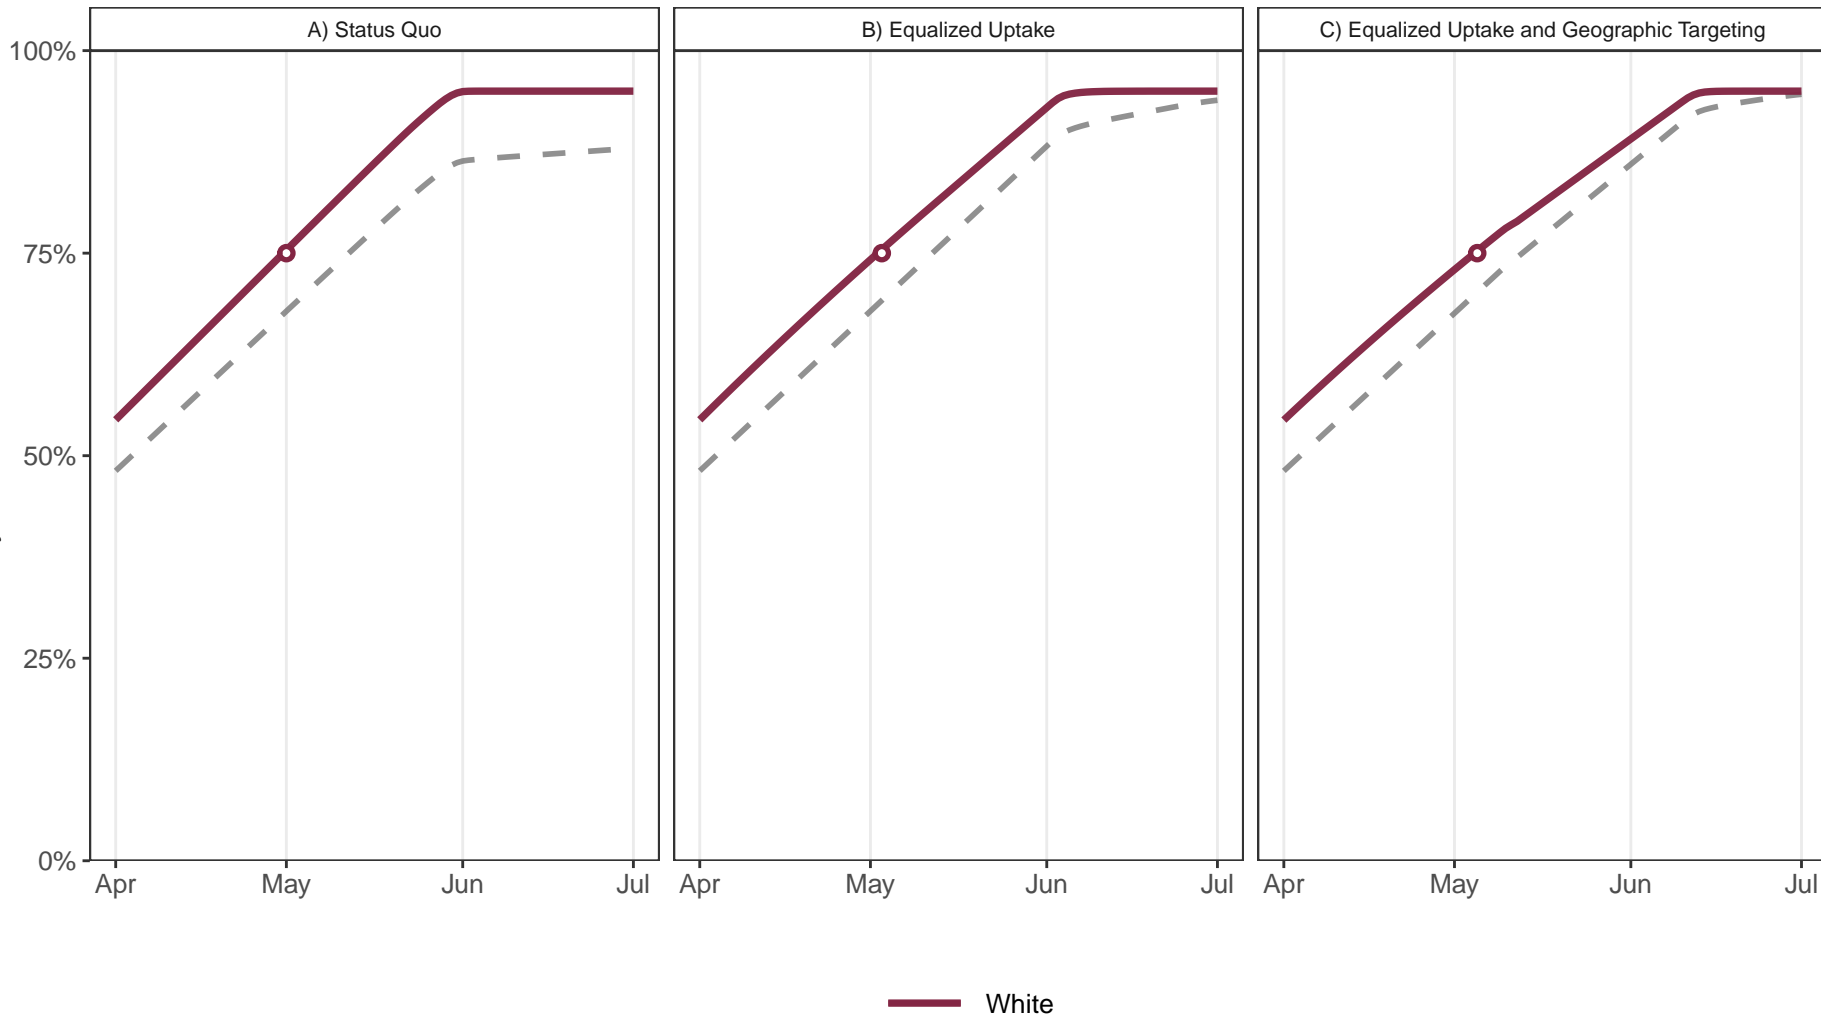

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the South Carolina population aged 16 years and older

# South Dakota

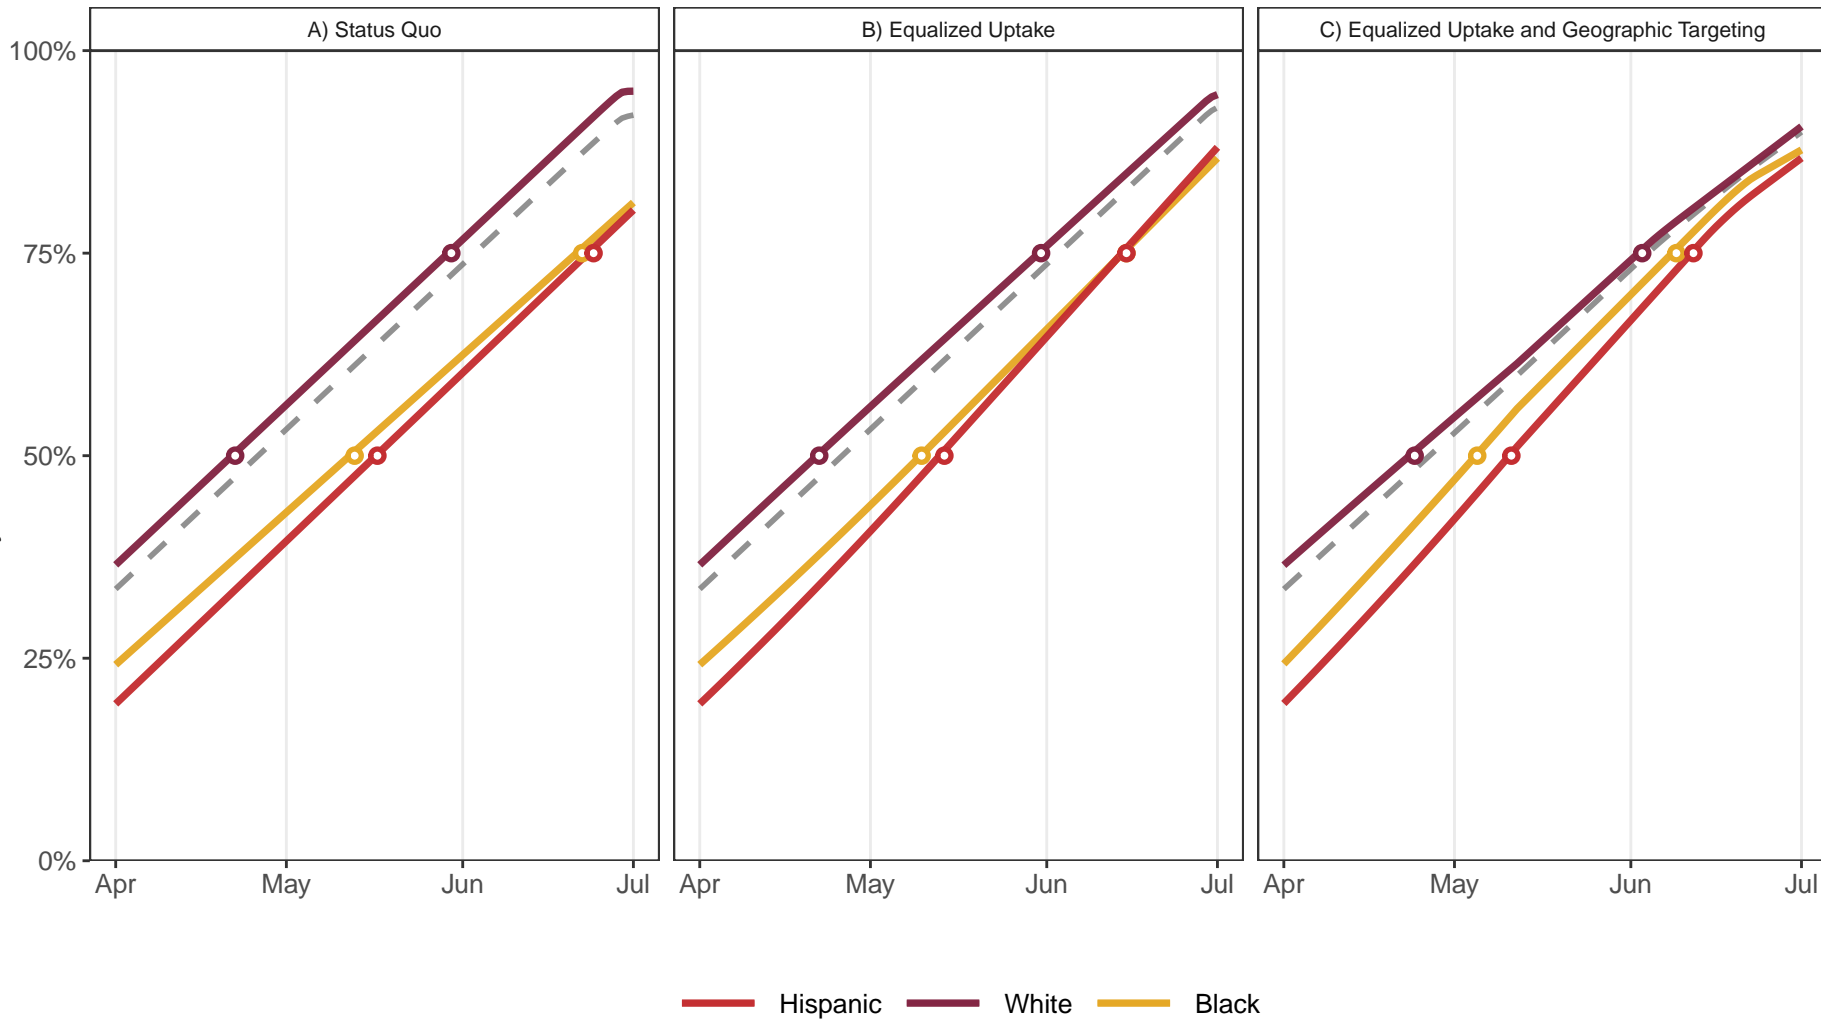

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the South Dakota population aged 16 years and older

# Tennessee

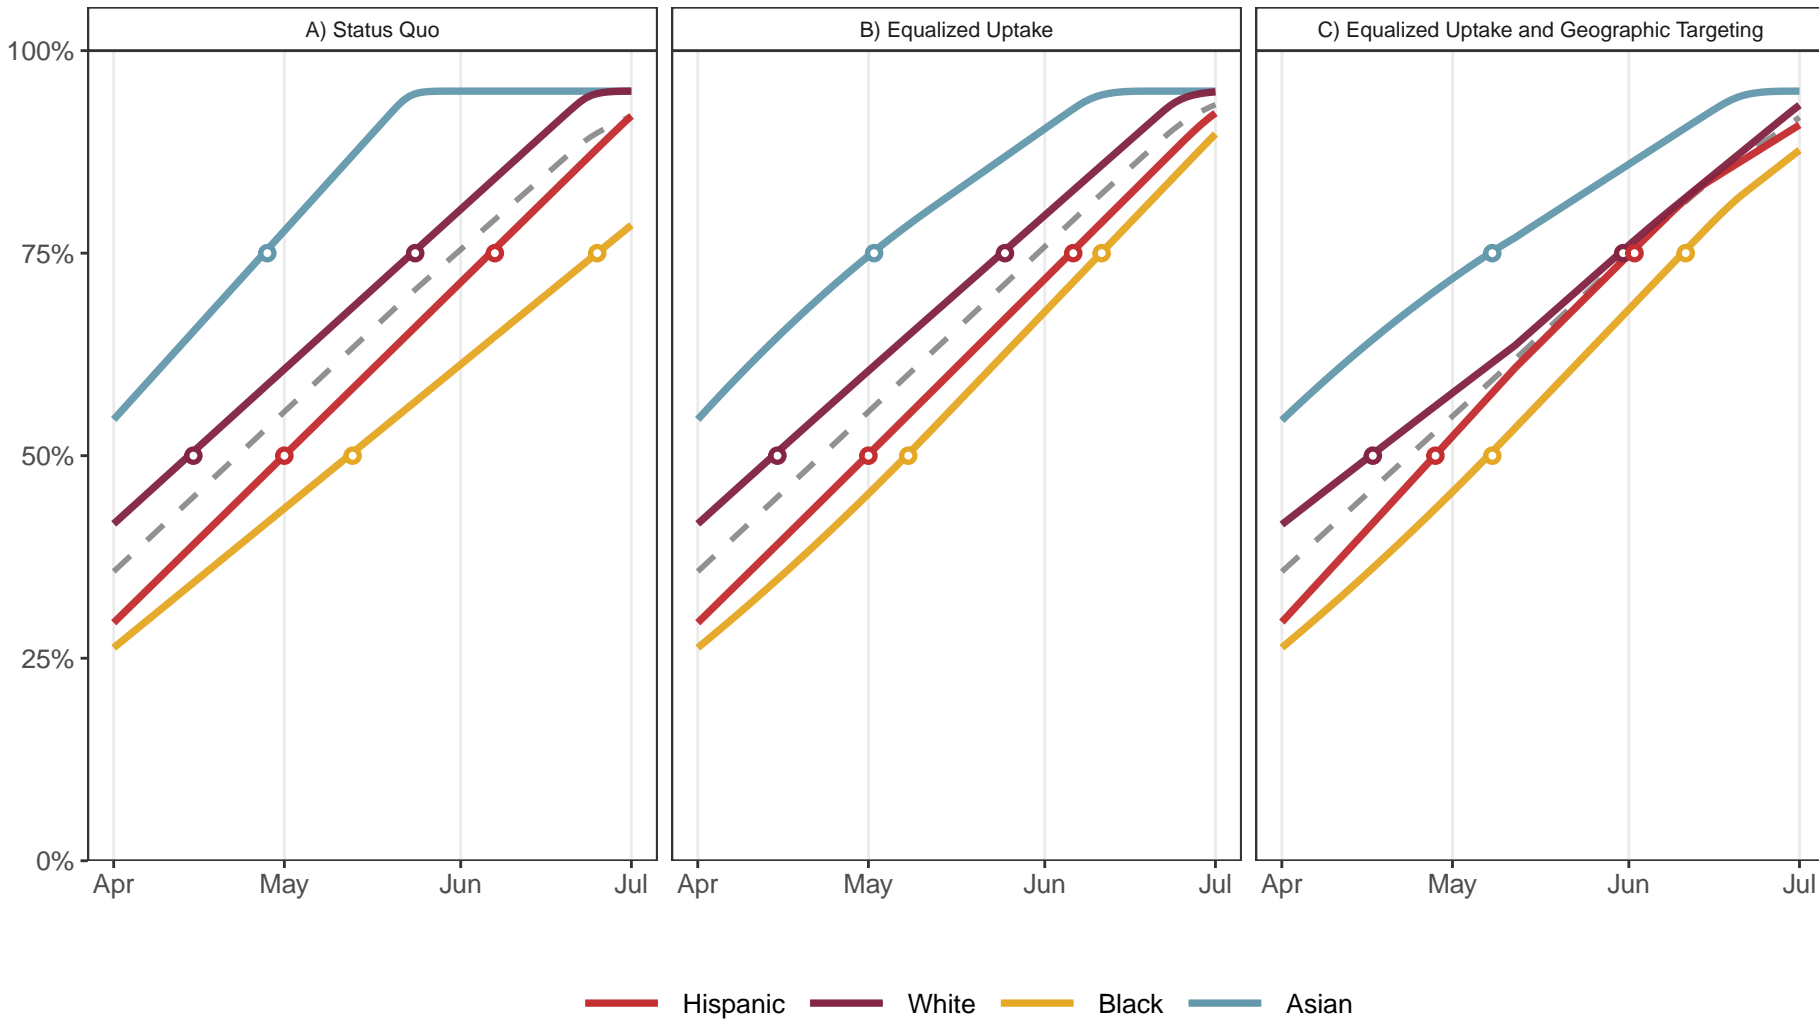

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Tennessee population aged 16 years and older

# Texas

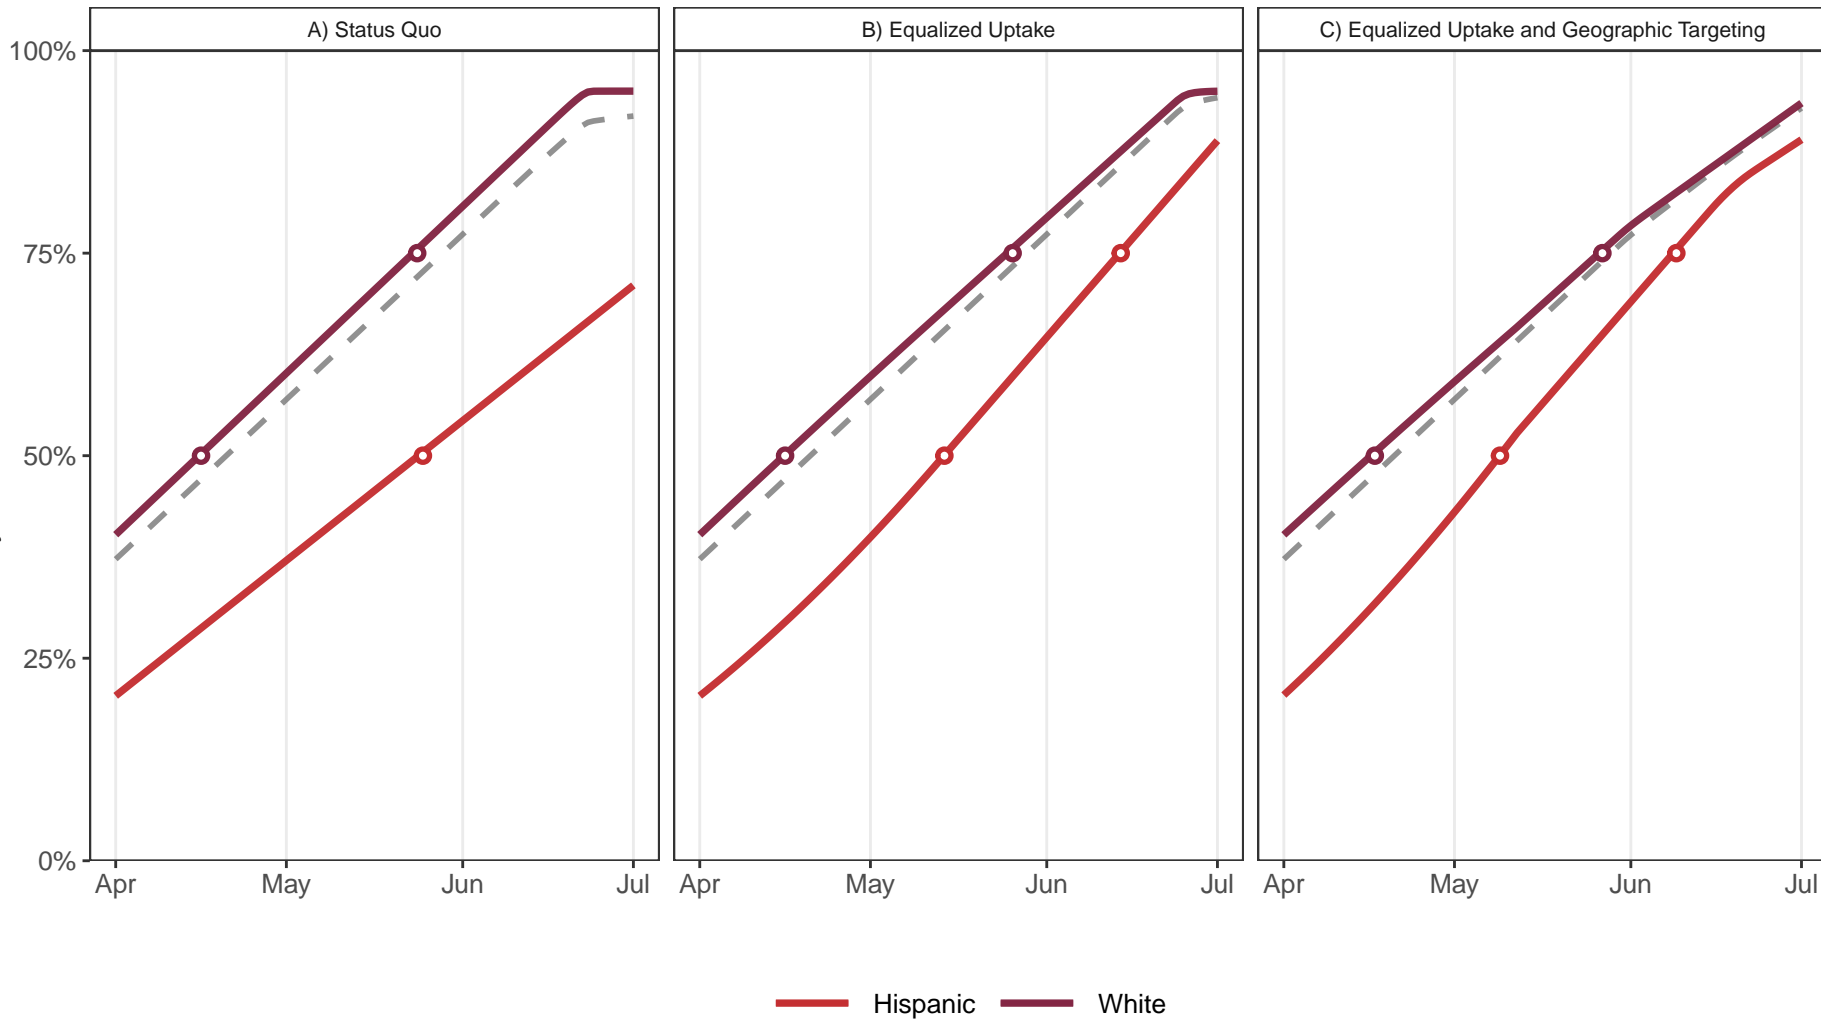

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Texas population aged 16 years and older

# Utah

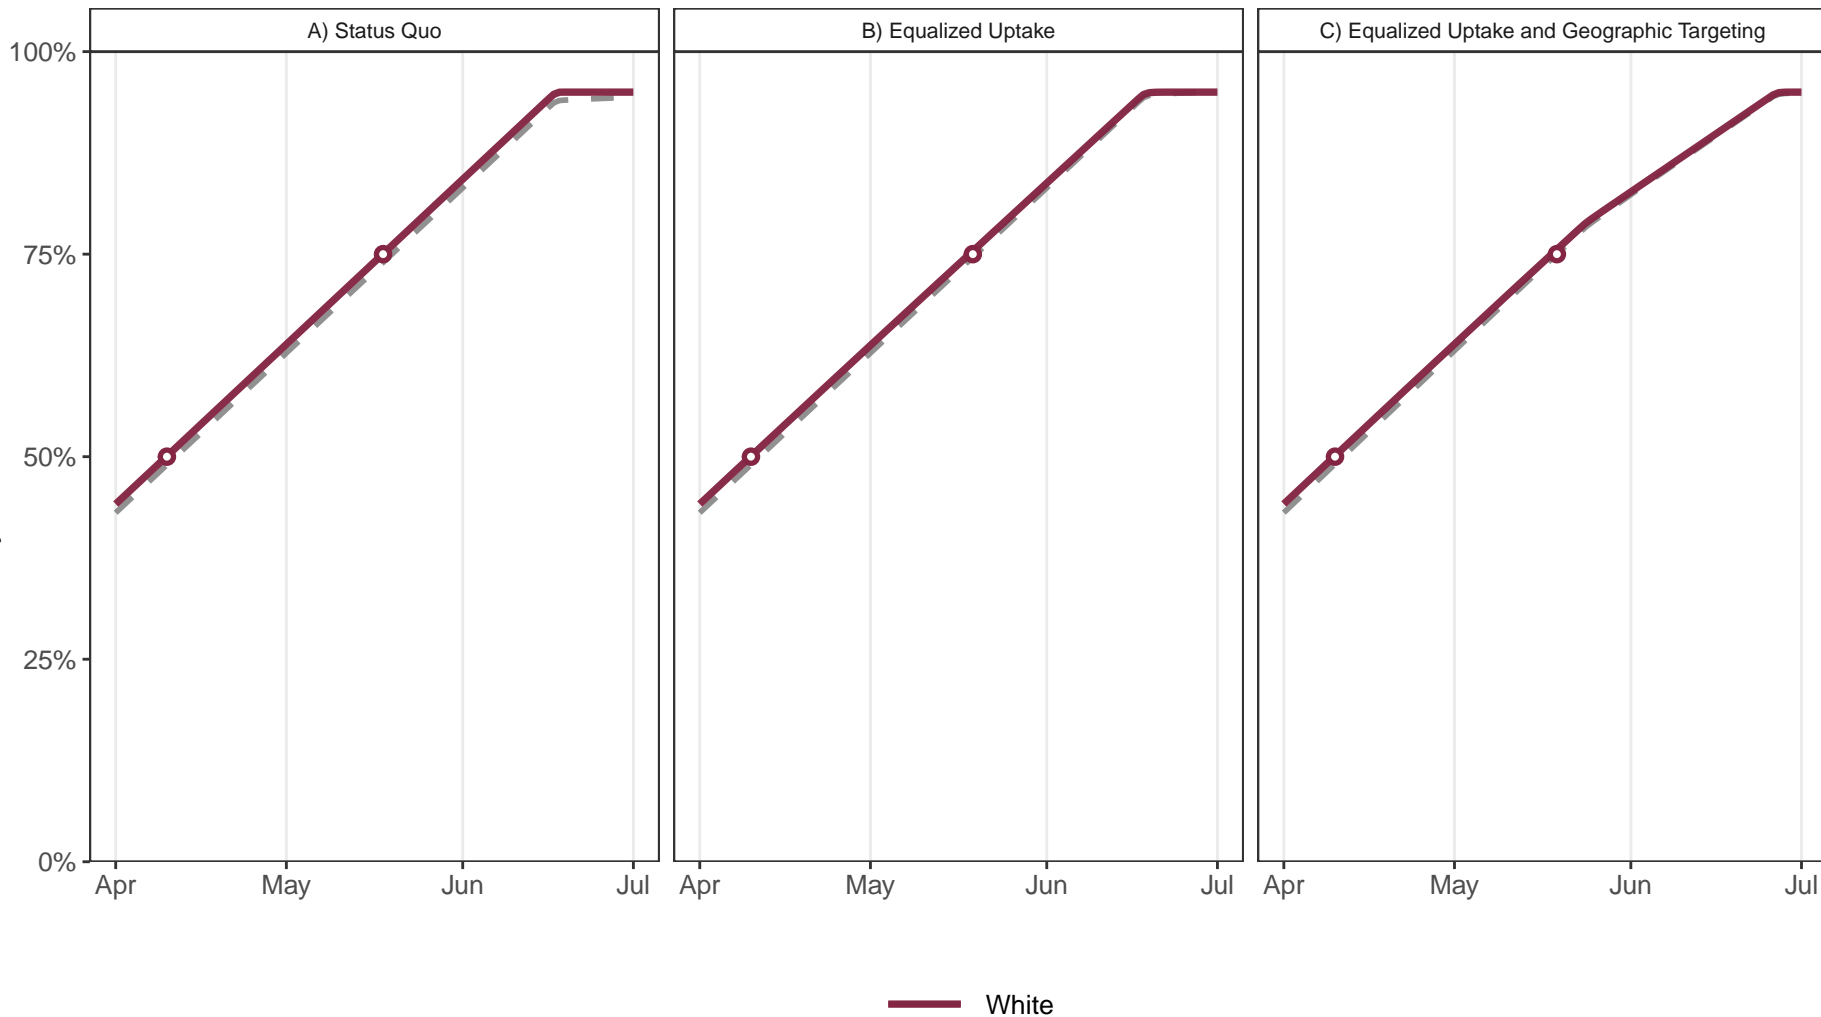

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Utah population aged 16 years and older

# Vermont

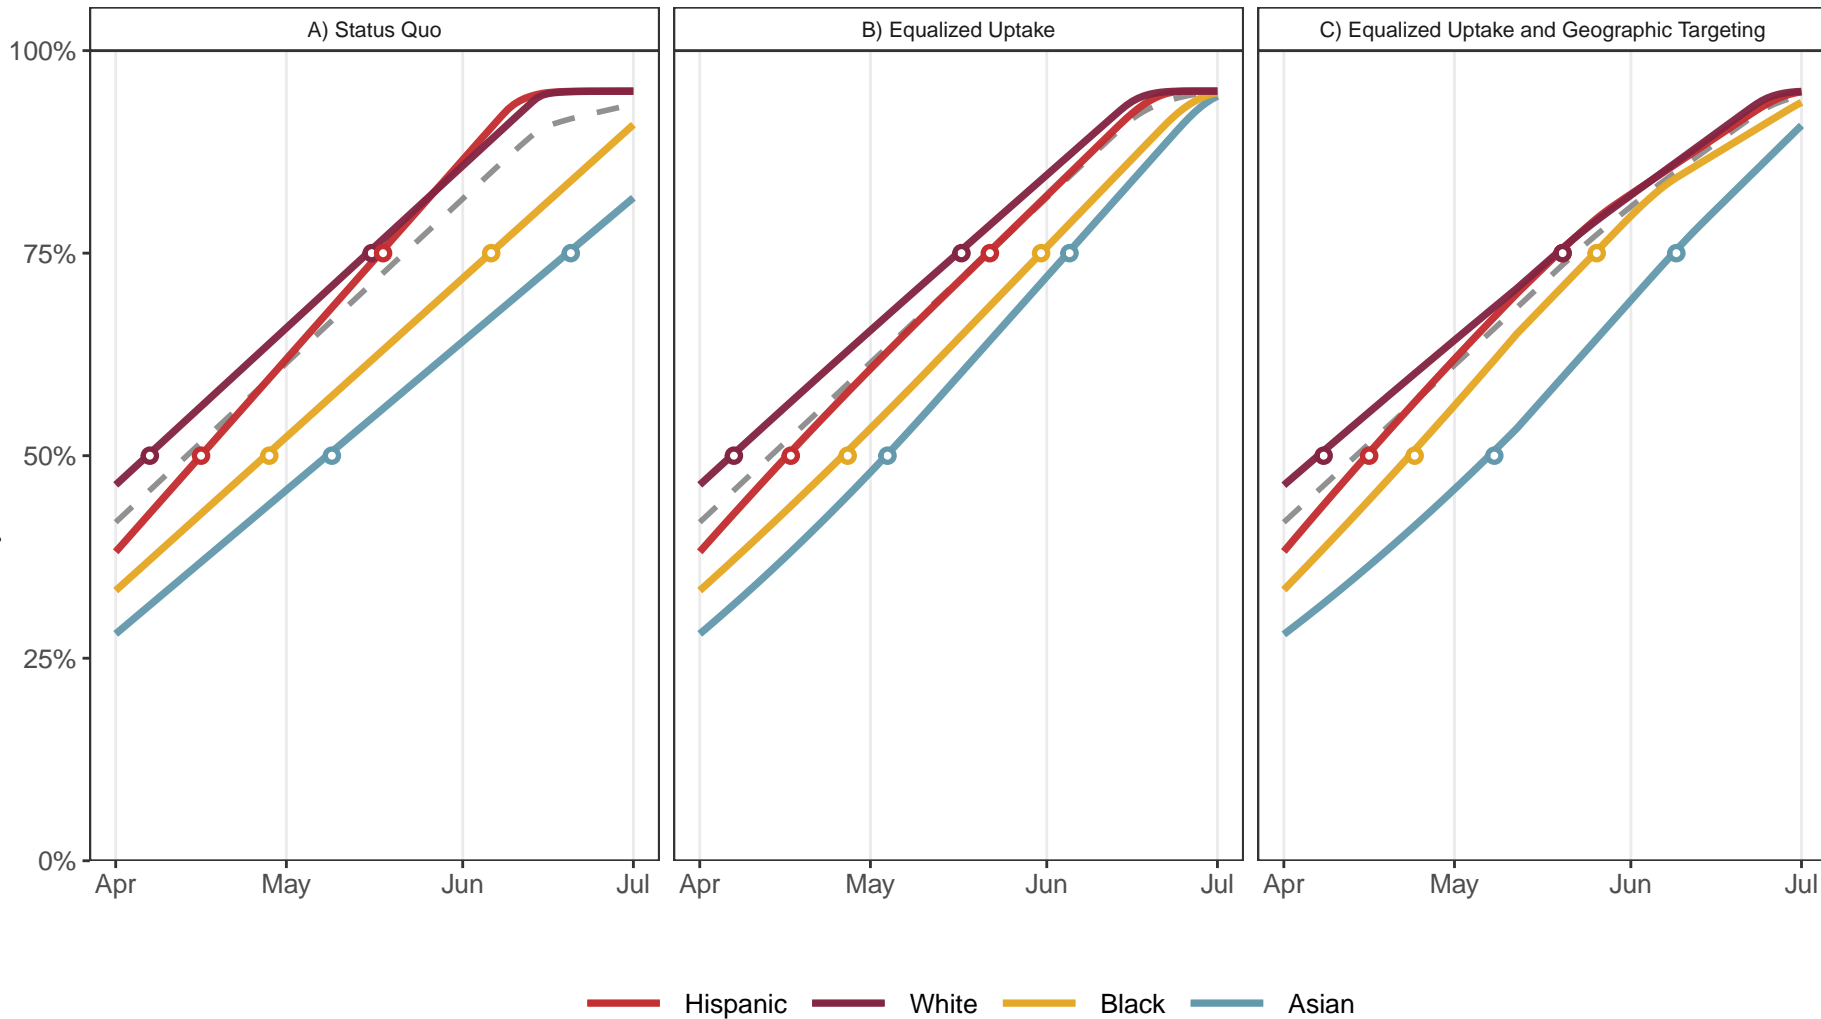

Coverage of one or more doses among population  
16 years and older

Dashed line shows overall coverage among the Vermont population aged 16 years and older

# Virginia

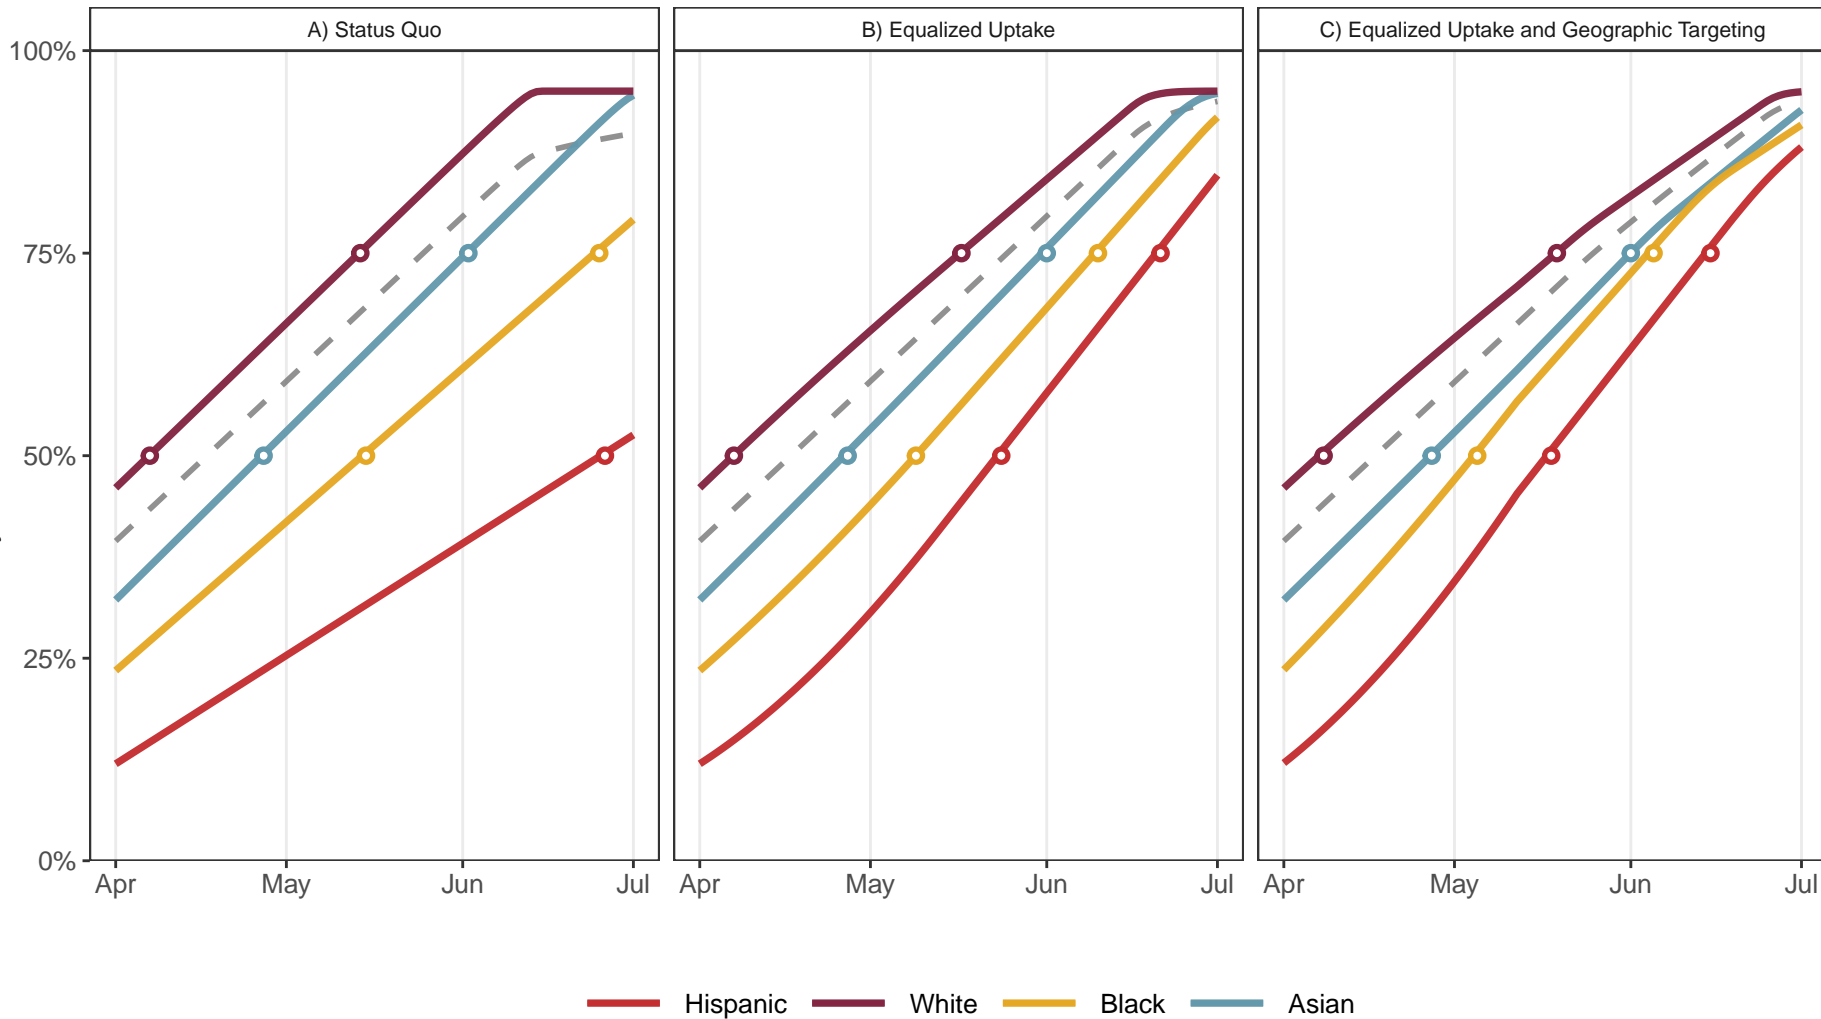

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Virginia population aged 16 years and older

# Washington

Coverage of one or more doses among population 16 years and older

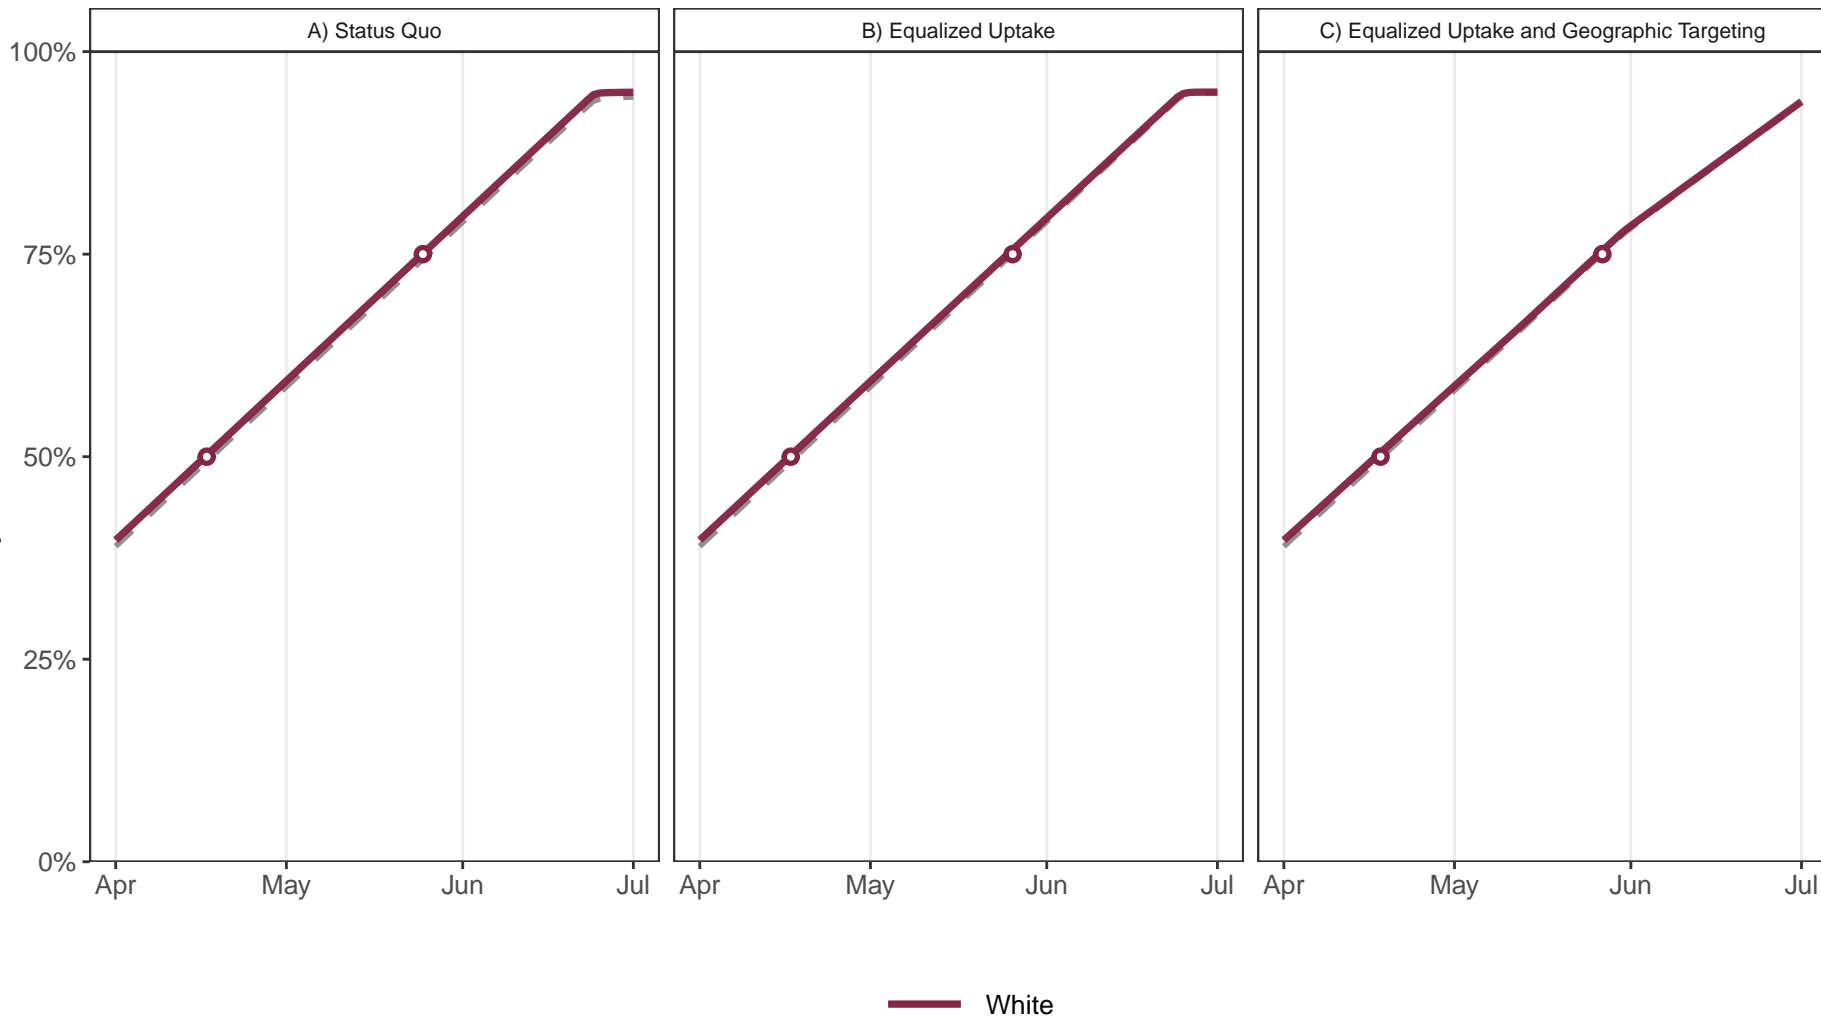

Dashed line shows overall coverage among the Washington population aged 16 years and older

# West Virginia

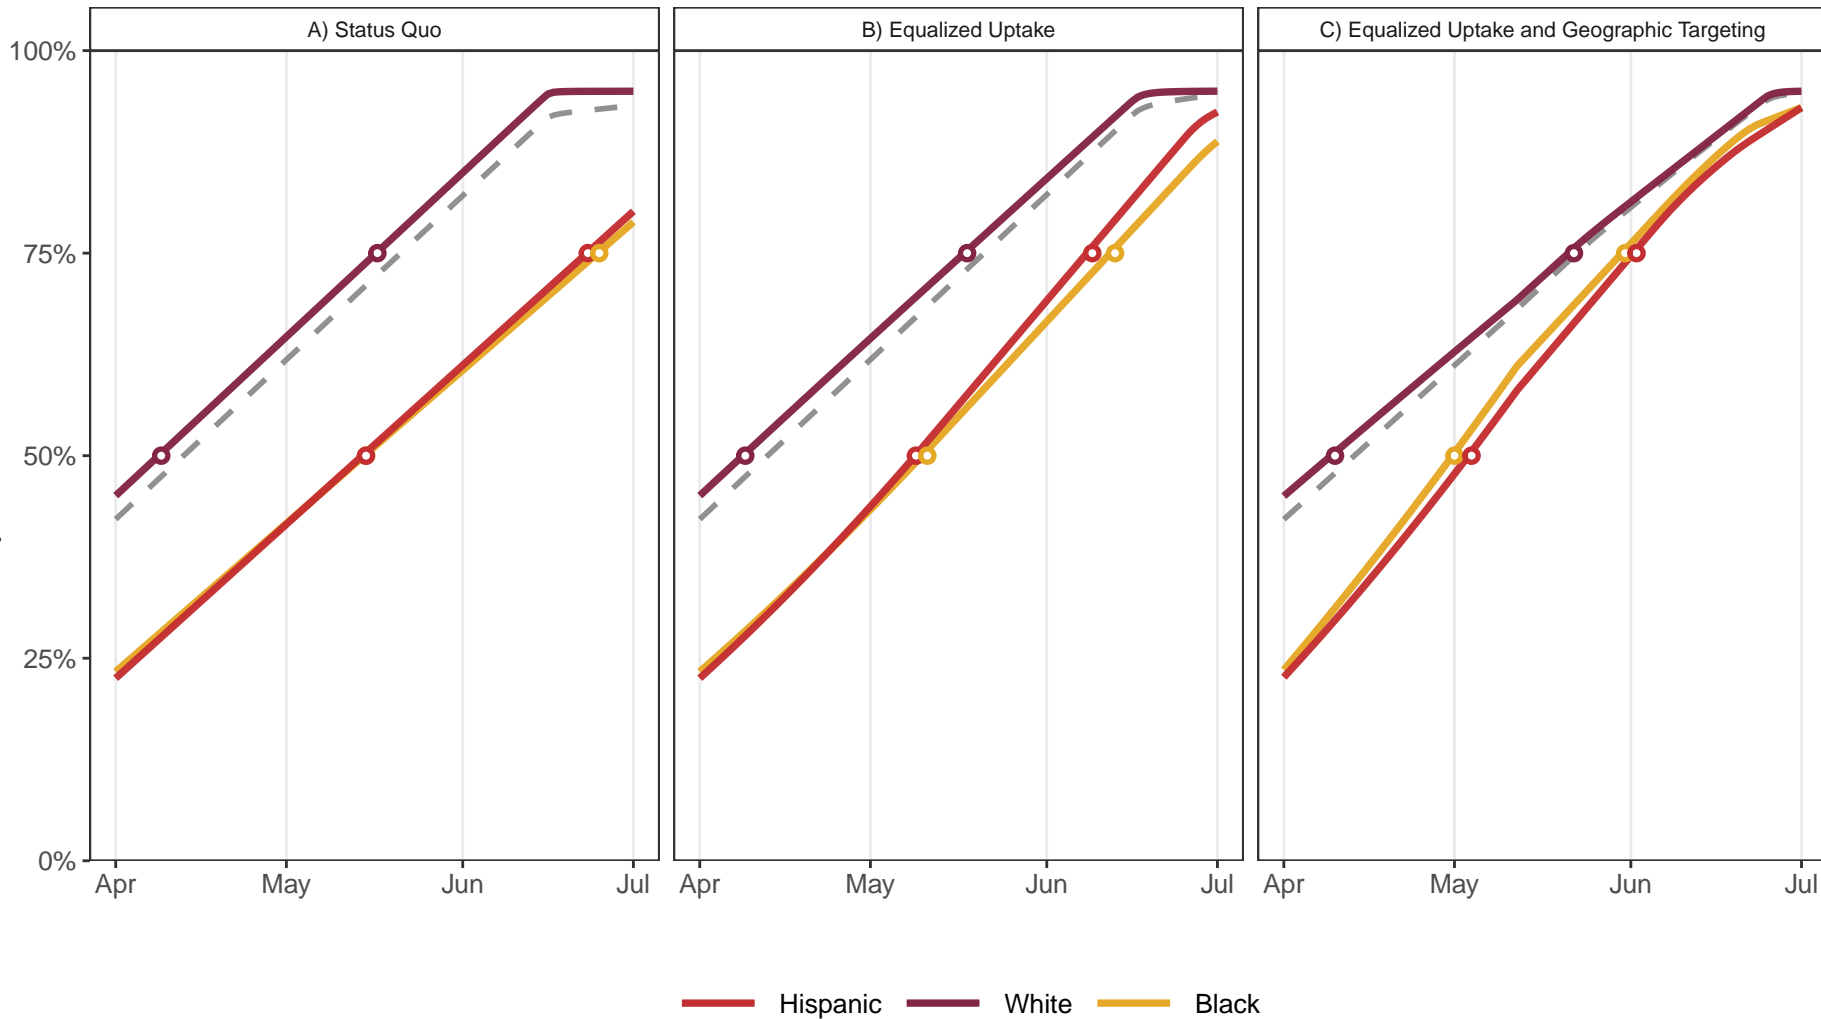

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the West Virginia population aged 16 years and older

# Wisconsin

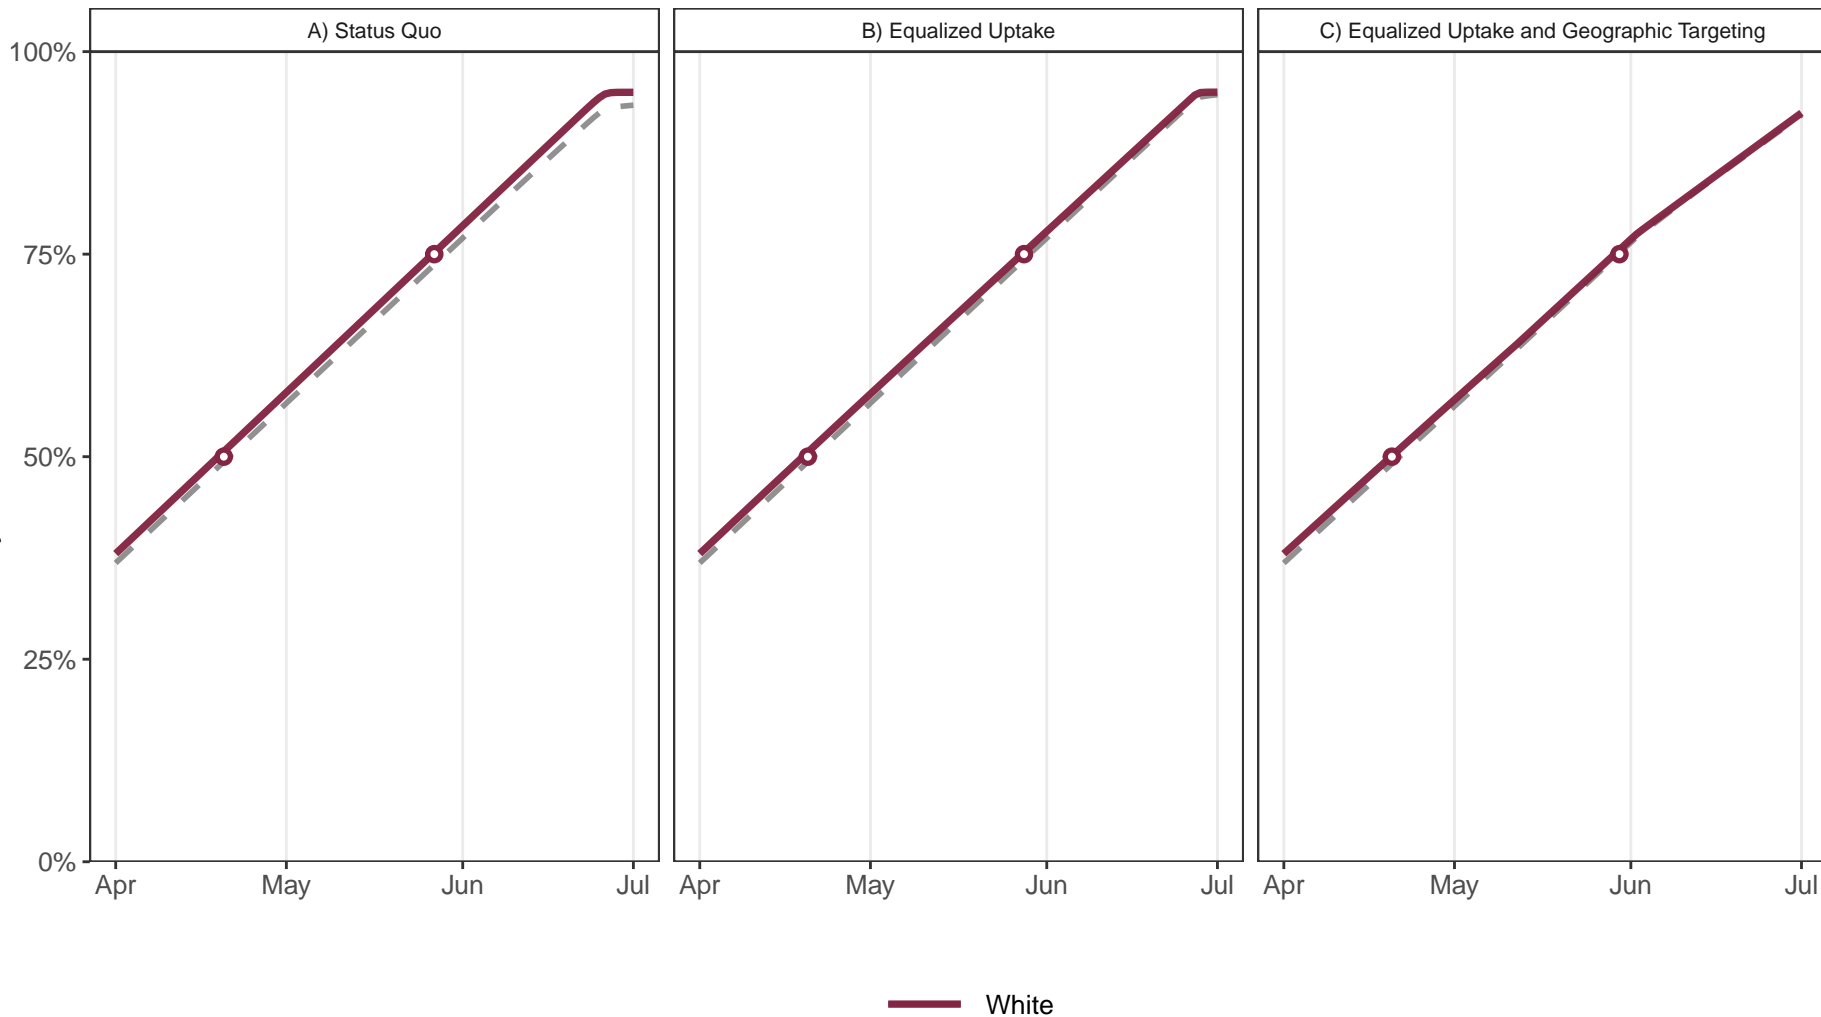

Coverage of one or more doses among population  
16 years and older

Dashed line shows overall coverage among the Wisconsin population aged 16 years and older

# Wyoming

Coverage of one or more doses among population 16 years and older

Dashed line shows overall coverage among the Wyoming population aged 16 years and older
